Antenna Data Sheet

Room 101, Building C, Shenzhen Qianwan Hard Technology Industrial Park, Nanchang Community, Xixiang Sub-district, Bao'an District, Shenzhen City

Model name :Bluetooth Antenna

Maximum antenna gain: -7.13dBi

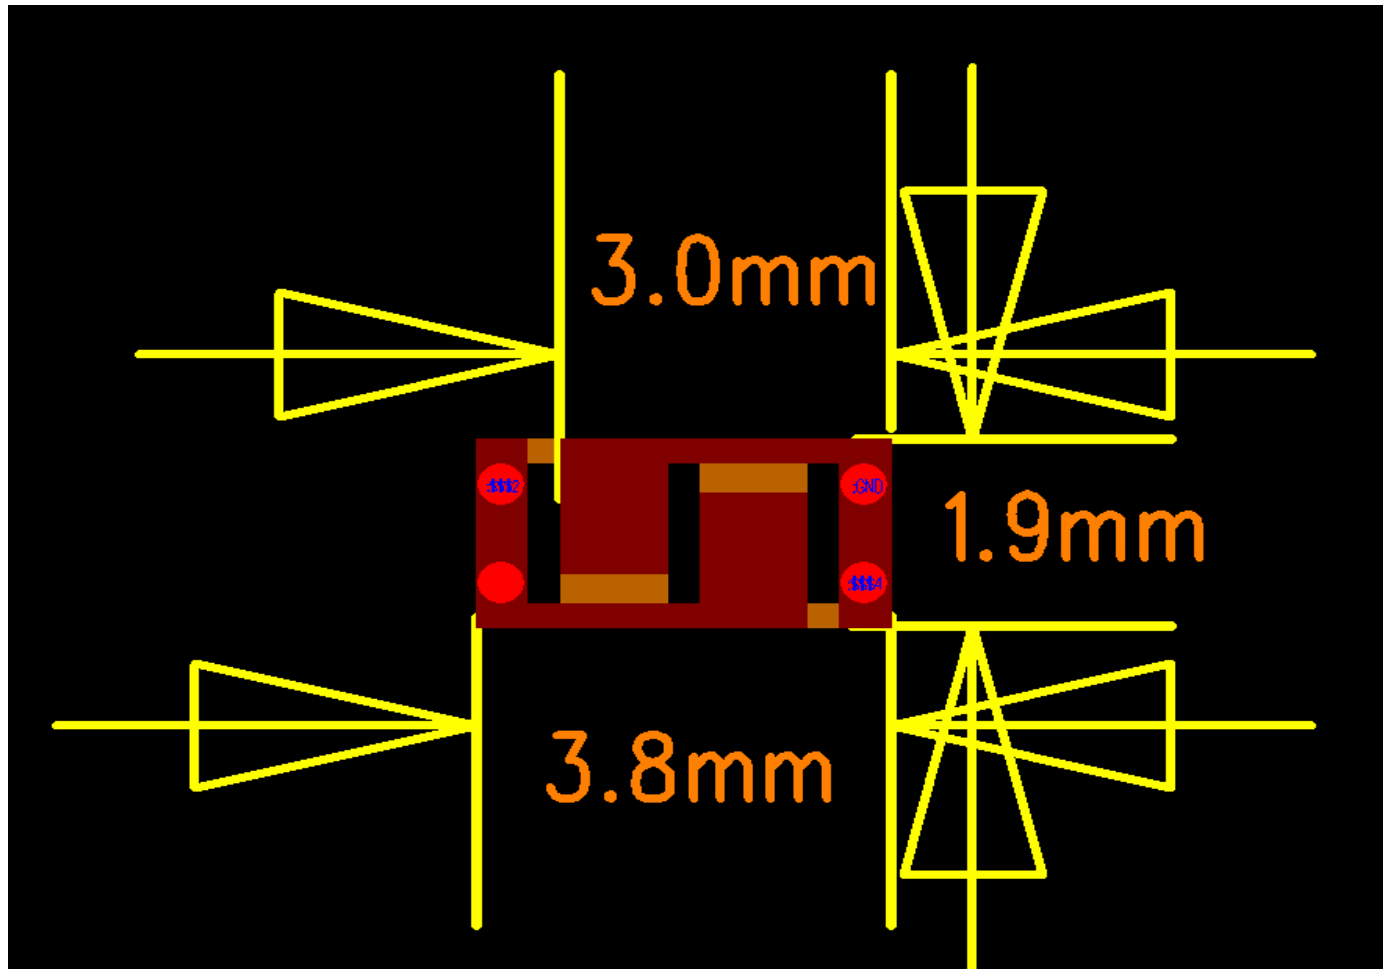

Purpose

This report is to measure the performance of SLK for Master Antenna on 羽恒. All measure data are showed below.

Content

1. Product Overview
2. Test Result
 - 2.1 Bluetooth Antenna Gain/Efficiency DATA
3. Conclusions
