

## 1. Antenna Description:

|                 |                                                                                                                 |
|-----------------|-----------------------------------------------------------------------------------------------------------------|
| Antenna type    | Internal antenna                                                                                                |
| Model           | T7-BT                                                                                                           |
| Frequency range | 2400-2500MHz                                                                                                    |
| Manufacturer    | Shenzhen Saiteng century Technology Co.,LTD                                                                     |
| Address         | No. 4 Shenghui Road, Keyunda E-commerce Base, Guxing Community, Xixiang Street, Baoan District, Shenzhen, China |
| ANT Peak Gain   | 0.92 dBi                                                                                                        |

## 2. Antenna Photo:

### 3. Test Equipment & Conditions

#### 3.1 Test instrument

VSWR is tested using Agilent E5071B connected to a hand mechanism, and the status is free space.

#### 3.2 Test environment and methods

Dark room specifications: ETS-743

TD-SCDMA test equipment: StarPoint SP6010/Agilent 8960

LTE-TDD/FDD-SCDMA test equipment: StarPoint SP8011/CMW500

WCDMA/GSM/CDMA test equipment: Agilent 8960

Passive efficiency testing equipment: Agilent Technologies E5071B

## 4 . Antenna Radiation Pattern

2400MHz

2450MHz

2500MHz
