FCC COMPLIANCE STATEMENT

NOTE

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Caution

The Federal Communications Commission (FCC) warns the users that changes or modifications to the unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

In order to comply with FCC RF Exposure requirements, this device must be installed to provide at least 20cm separation from the human body at all times.

ATTENTION

This equipment has been tested and found to comply with the limits for a Class B digital device pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference with radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

1. Short description

Charging Standard: WPC Qi V1.2.4

Outer dimensions : 71.5mm x 54.5mm

Power supply : 12VDC

Output: Up to 15W (depending on device negotiation)

Operating temperature : 0 to 35 degree

Storage temperature : 0 to 35 degree

Compatible with most Qi-certified devices, including:

- Smart phones (iPhone 8 and later, Samsung Galaxy S/Note series, etc.)

Caution

Thick cases, metal cases, card-holder cases, and some non-MagSafe compatible cases may reduce charging efficiency or prevent charging entirely.

2. How to use

1. Connect the charger to a power source. Use a power adapter (sold separately) with an output of 12V/1A or higher.
2. Place the charger on a flat surface and place your wireless charging-enabled mobile device with the back of the device facing the center of the device. Check the charging status by checking the charging icon on the mobile device's screen.
3. Once charging is complete, disconnect the mobile device from the device.

Caution

Be careful not to allow foreign objects (metal, cards, magnets, etc.) between the product and your mobile device. This may prevent charging or cause heat damage.
