Product specifications

Product size	103, 8*69, 8*10, 2mm
Battery capacity	5000mAh/3. 85V/19. 25Wh
TYPE-C import	5V3A/9V2A/12V1.5A, maximum power: 18W
TYPE-C output	5V3A/9V2.22A/10V2.25A/12V1.67A, maximum power: 22.5W
Wireless charge output	5W/7. 5W/10W/15W
Multi-port output	5V3A, maximum 15W

Product Usage and LED Indicator

1. Switch-on: All interfaces automatically power on when connected to a load.

2. After charging, the product's front surface adheres to the wireless charging receiver (not recommended for non-magnetic phones).

3. Indicators: Four white LEDs display battery level. They flash and light up one by one during charging, remain on when fully charged, and turn off when discharged.

The light stays on normally and flashes at low voltage. The green LED is the wireless charging indicator. When charging the phone, the green light stays on normally and flashes when a foreign object is detected.

4. Button: Short press to turn on output and power display (188 digits), double press to turn off.

5. Automatic shutdown: All outputs will be turned off when idle time reaches 640 seconds.

Matters need attention

• Do not disassemble, impact, crush, or dispose of in fire. If severe swelling occurs, do not continue use. Keep out of high-temperature environments.

• Do not use after water immersion.

Variable function

Download the app and sign in

Scan the QR code below to install the "AI Phone Case" app

ios

Android

1. App Download and Login

2. Open the app and sign in with your phone number, email, or Google account.

3. After successful login, select the BLE type for device connection.

Refresh the product screen pattern after successful connection

1. Use a theme image or a photo from your phone album to change the product screen pattern

① Click My Photos and select any image you want to upload to the product screen.

② After editing the image (changing, color grading, filters, text, stickers), click Next.

③ Click the "Screen Mirroring" button and wait a moment. The image will be uploaded to the product screen.

2. Use AI to create custom patterns for your phone case

① Click "AI Create", speak or type the image description you want to generate, then click the "Send" button.

② Click the AI image, customize it, and then click the "Screen Mirroring" button.

③ The image is being transferred to the product screen.

Power Bank Safety Warning

• Do not use or leave this product in high-temperature or humid environments; avoid direct sunlight exposure.

• The operating temperature range of this product is 0°C to 45°C. It is recommended not to operate in environments exceeding 45°C or below 0°C.

• Storage temperature range of this product: -5°C to 35°C; it should not be stored for an extended period at ambient temperatures above 35°C.

• Do not place this product in fire or water, and do not wipe it with a wet cloth to avoid electrical short circuits or other malfunctions.

• Do not cover or obstruct this product with paper or other materials, as this may hinder its heat dissipation and cooling.

• Do not use this product when unattended.

• Do not disassemble the device yourself. This product does not include any self-service components for disassembly or maintenance.

• Do not drop, shake, tap, impact, or squeeze this product forcefully.

• Do not short-circuit the positive and negative terminals of the product during input or output to prevent fire caused by the device or external objects.

• Keep out of reach of children.

• Before using this product, ensure the charger's output voltage matches the product's voltage to prevent damage.

• If the charger's voltage is mismatched, it may overload the power bank, potentially causing smoke or fire.

• Use a charger from a certified manufacturer with 3C certification.

• After each full charge, unplug the charger.

• If the portable power bank exhibits any abnormal conditions during use, such as unusual odor, overheating, discoloration, deformation, or leakage, discontinue its use immediately.

• If the skin is exposed to battery liquid, wash immediately with running water and seek medical attention.

• Do not use after water immersion.

• The product should be placed on a table when in use. If it is to be used in contact with the human body, the contact time should be less than 10 seconds.

• The time of contact with the product indicator light should not exceed 1 minute during use.

• When not in use, it should be disposed of properly.

FCC Caution.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

* RF warning for Portable device:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
