Operation Manual

 **WARNING: Cancer and Reproductive Harm.** www.P60Hearings.ca/gpr

   

Warning Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

PACKAGE LIST

Power & AUX Connection Instructions

1.The RGB gaming speakers do not have a built-in battery.

2.Please power the speakers using the included DC power adapter, then press and hold the Power button to turn on the speakers.

3.Insert the 3.5mm AUX cable into the "AUX" input jack on the back of the speakers, and plug the other end into your audio device.

NOTE:
The speakers default to Bluetooth mode when powered on.
When the AUX cable is inserted, the speakers will automatically switch to AUX mode.

EN-4

BLUETOOTH CONNECTION

1.The RGB gaming speakers do not have a built-in battery.

2.Please power the speakers using the included DC power adapter, then press and hold the Power button to turn on the speakers.

3.Press and hold the "M" button to switch to Bluetooth mode.

Pair with your device:

a. Turn on Bluetooth on your device and search for nearby devices.

b. Find "HEBC00" in the list of available devices and tap to connect.

c. Once connected, enjoy your audio experience.

NOTE:
Make sure the speakers are not connected to another device. If they are, please disconnect the existing device before pairing.
In Bluetooth mode, when the AUX cable is plugged in, the speakers will automatically switch to AUX mode.
Keep the speakers and your device within 10 m / 32.8 ft for optimal Bluetooth performance.
