

Letter of Authorization

Company: Cardiac Design Labs Private Limited

Address: 184/2, Opp Forum Value Mall, Whitefield Main Road,
Whitefield Bangalore -560066.

Product Name: Padma Rhythms

Model Number(s): PR01

Product Description: The Padma Rhythms is a wearable device that is designed to continuously capture and store ambulatory 2 channel ECG and transmit it continuously or whenever available to an android or iPhone phone app. The patch lasts for up to 5 days and stores ECG data in its on-board memory. There is a provision for a patient trigger button which can be used by patients to register the time period during which the symptomatic events were experienced. The Padma Rhythms App uploads the ECG to the cloud server, where ECG Vitals viewer can be used to directly access the recorded data for later analysis and evaluation. The recording and transmission will continue and automatically end when the test duration is completed. The device has LED indicators to show for device status. The recorded data will remain in the memory card even when the battery has died. The memory is erased/re-written each time a new patient test is created.

We authorize MiCOM Labs Inc., 575 Boulder Court, Pleasanton, California 94566, USA, to act on our behalf on all matters concerning the certification of above named equipment.

We declare that MiCOM Labs Inc. is allowed to forward all information related to the approval and certification of equipment to the regulatory agencies as required and to discuss any issues concerning the approval application. Any and all acts carried out by MiCOM Labs on our behalf shall have the same effect as acts of our own.
