Packing list

Product Schematic

Tips

1. Except for the operating methods specifically indicated in the manual, do not attempt to disassemble or replace any parts inside the product.
2. Do not place the product in water or any other liquid, as this product is not waterproof.
3. If any liquid accidentally enters the product, immediately disconnect it and remove the product.
4. To avoid electric shock, ensure your hands are dry when installing or removing the product.
5. Do not place this product near heat sources or expose it directly to fire.
6. Do not place this product in environments with strong electromagnetic fields, as this may cause product malfunction.

Product Specification

Bluetooth version: V6.0
Transmission distance: ≥10 metres
Speaker diameter: Φ13 mm
Speaker impedance: 32Ω
Music playback time: ≈10 hours
Battery capacity: 40mA / 3.7V

Charging compartment specifications

Battery capacity: 300mAh/3.7V
Charging time: about 1.5 hours
Rated input: 5V~300mA
(All technical information subject to actual performance)

For charging the charging compartment
Type-C charging cable connects the charging compartment to the 5V power adapter.
Warm reminder: headset battery power below 3.4V start broadcasting low battery reminder.
(Sound alert: "battery_low", every 1 minute to remind, please charge the headset in time)

Rated Input: 5V~40mA
(Headphone)

Rated input: 5V~300mA
(charging compartment)

FCC Caution:

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
-- Reorient or relocate the receiving antenna.
-- Increase the separation between the equipment and receiver.

-- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
