

Solar String Lights

User Manual

Model: KN-B01

Thank you for purchasing Brightever Solar String Lights! If you have any questions about your order or are not completely satisfied with your purchase, feel free to contact our support team at

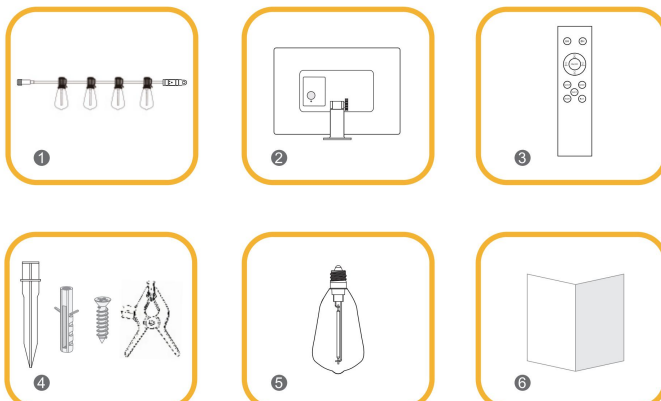

Warm Tips

1. First-use tip: Leave the lights in direct sunlight for a full day to charge completely.
2. Turn on the switch and test all bulbs. Reach out to us if anything doesn't work right.
3. Keep the solar panel away from bulbs/other lights—this lets it auto-switch on at night.
4. Wipe off snow, dust, or debris from the panel to keep the battery charging well.

Specifications

- Warranty: 1 Year
- Material: Metal+Plastic
- Package Contents: String Lights / Bulbs / User Manual / Solar Panel / Remote / Accessory Kit

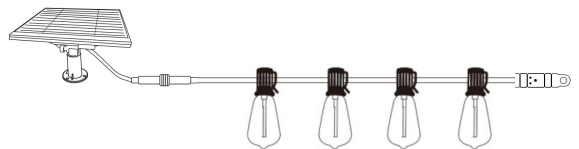

Package Includes

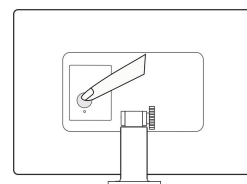

Installation Steps

Before starting the installation of the string lights, please ensure that all parts are present. If any part is missing or damaged, do not proceed with the installation.

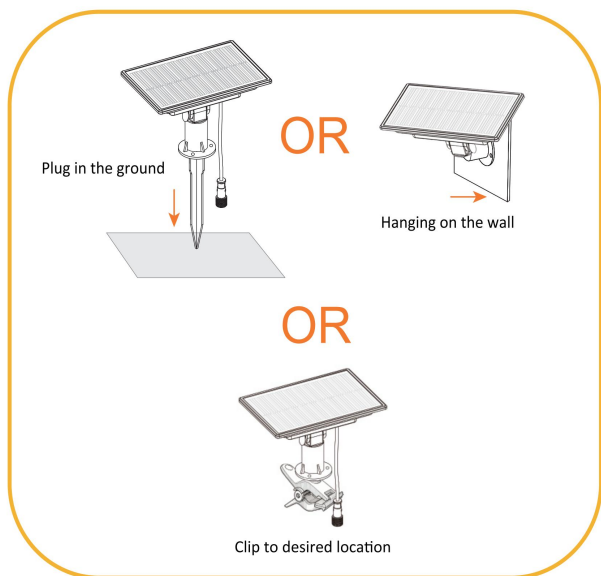

1. Confirm that the string lights are connected to the solar panel.

2. Press the button as indicated in the figure to check if the string lights can light up properly.

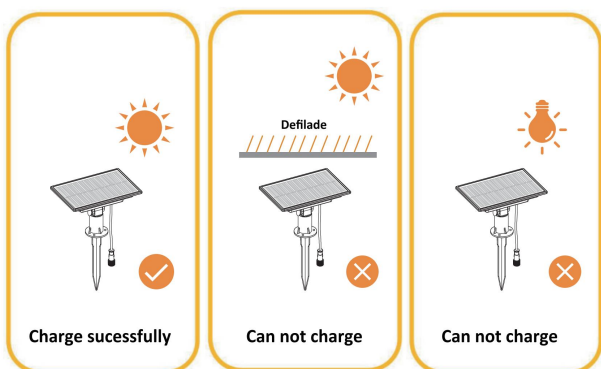

3. Install the panel in the ground or on the wall.

Troubleshooting

Problems and countermeasures

Problem	Probable Cause	Solution
String lights not bright	Power Switch was off	Turn on the switch
	The connection cable was not in contact	Reconnect the string light and solar panel
Short lighting time	The solar panel was shaded	Remove the cover
Other problems		Please contact us

Warranty Coverage

During the warranty services, we provide whether new replacement or refund for the failure to customers who use the products in accordance with the user manual.

Warranty Exclusions

This warranty does not cover damage caused by:

- Failure or damage due to improper use, repair or remodeling
- Failure or damage because of falling
- Failure or damage caused by fire, earthquake, flood, lightning or other natural disasters
- Failure or damage when used other than its intended use
- Failure or damage caused by the third-party products other than this product

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- ☐ Reorient or relocate the receiving antenna.
- ☐ Increase the separation between the equipment and receiver.
- ☐ Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- ☐ Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. The device can be used in portable exposure condition without restriction.
