

ABOUT TIKKI TOUCH LAMP

We believe small things can connect people in big ways. This belief inspired the creation of Tikki touch smart lamp. As an authorized technology partner of Totwoo, we weave cutting-edge innovation with our vision to bring you a unique way to connect.

This is why every beam of light crossing distances becomes a messenger of warmth. Even when embraces aren't possible, each glow whispers:

“I'm always with you.”

HOW IT WORKS?

Tikki touch Long Distance Lamp uses Wi-Fi and Bluetooth for a smooth setup — just pair it with our App to get started.

When you touch the lamp top, the other one's lamp — no matter how far away — lights up in response.

TOO LAZY TO READ?

Respect.

Skip the words, scan this code, and get started with our super short video.

You didn't scan the code?

Impressive.

Now enjoy the complete guide that clear and step-by-step.

Step 1: Plug It In-Connect the cable to the lamp

- Short press the lamp top on
- Long press(5-7seconds)reset network,
this step isn' t required yet.

LET'S GET STARTED

1. Stay close to your Wi-Fi, and turn on Bluetooth.
(Avoid 5G Wi-Fi.)
2. Download the app called Totwoo Lamp for iOS or Android.
(Tech collab with Totwoo, just go ahead and download)
3. Sign up to the Totwoo Lamp, create an account

1. Check “^ ^” on the lamp.

If it's still blinking, you can connect directly.

2. If it's not blinking,

Press and hold the top of the lamp for 5–7 seconds until the green light starts blinking.

3. Start to Setup as shown below

Tap : “Add Device”

Continue, accept
'Location' permission

Tap :Add

Input Wi-Fi network name and password, then Tap “Next”.

Wait for adding device

You can edit the lamp name and Tap “Done”.

NO PHONE NEEDED — JUST TAP TO CHANGE COLOR AND BRIGHTNESS

Setup Guide

FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
