Equipment Authorization Division

Subject: Request for Long-Term Confidentiality

FCC ID: 2BU6D00STELLER

To Whom It May Concern,

Pursuant to 47 CFR § 0.459, Lodi Group Holdings PTY LTD hereby requests long-term (permanent) confidentiality for the following exhibits submitted in support of the above-referenced FCC application:

Block Diagram

Schematics

Operational Description

Parts List / BOM

Tune-Up Procedure

These documents contain proprietary and confidential technical information, including detailed design architecture, circuit implementation, and operational characteristics of the device. Public disclosure of this information would result in competitive harm and would reveal trade secrets of Lodi Group Holdings PTY LTD.

The requested exhibits are not routinely available to the public and are essential to maintaining our competitive position in the marketplace. Therefore, we respectfully request that these materials be withheld from public inspection for the life of the equipment authorization.

Should you have any questions regarding this request, please contact us.

Sincerely,

Lodi Group Holdings PTY LTD

Name of Authorized Signatory: Nicholas Heaney

Title: Head of Technology
