**Item 1.** The device is able to install software/program installation?

☒ Yes, go to Item 2.

☐ No. In this case, the rest of the items do not apply. The device cannot support installation of Kaspersky cybersecurity or anti-virus software.

**Item 2. Technical Requirements for Kaspersky Cybersecurity Software:**

| # | General Requirements (For all Devices)                                     | Yes / No or N/A | Comments |
|---|----------------------------------------------------------------------------|-----------------|----------|
| 1 | Internet connection for activation and updates (For all Operating Systems) | YES             | WLAN     |

| # | General Requirements (For Windows Devices)                                                                                                                                                 | Yes / No or N/A | Comments |
|---|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------|----------|
| 1 | Storage: 1500 MB free space on the hard drive                                                                                                                                              | N/A             |          |

**After reviewed the technical requirements, is the device capable of supporting the installation of Kaspersky software?**

☒ Yes, go to Item 3.

☐ No. In this case, the rest of the items do not apply. The device cannot support installation of Kaspersky software

**Item 3. Connectivity Capabilities:**

| # | Physical Interface | Purpose                               | Justification <sup>1</sup>                                     |
|---|--------------------|---------------------------------------|----------------------------------------------------------------|
| 1 | USB Type-C port    | Battery charging or data transmission | -Limited to power supply-<br>Data transfer capability disabled |
| 2 |                    |                                       |                                                                |

| # | Wireless Interface | Purpose                                                          | Justification <sup>1</sup>                                              |
|---|--------------------|------------------------------------------------------------------|-------------------------------------------------------------------------|
| 1 | Wi-Fi              | It can be connected to the network for file or video downloading | -Built-in firewall that blocks software downloads                       |
| 2 | Bluetooth          | Only pairing function is supported                               | -No file transfer capability -<br>Pairing limited to authorized devices |

After the review of this items, the device:

☐ Cannot support installation of any cybersecurity or anti-virus software on the covered list.

☒ Potentially can operate with any cybersecurity or anti-virus software on the covered list – additional third- party proof is provided to demonstrate compliance with requirements as of 2.911(d)5(i),(ii) – “Proof of Compliance with Covered List Software Requirements” of this document applies

<sup>1</sup> The justification field is used to justify why the software cannot be received through that interface. Check the annex for more indications.

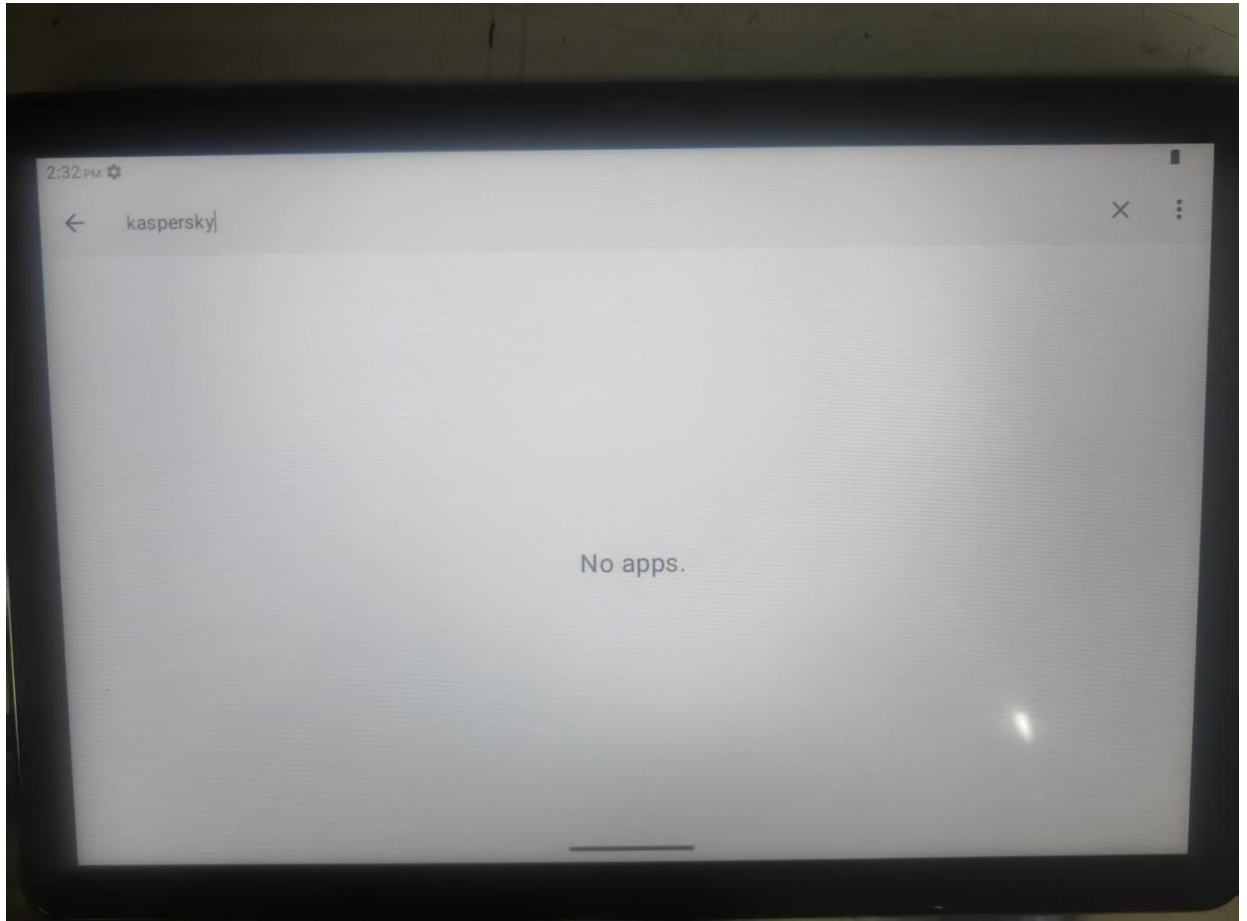

### Proof of Compliance with Covered List Software Requirements

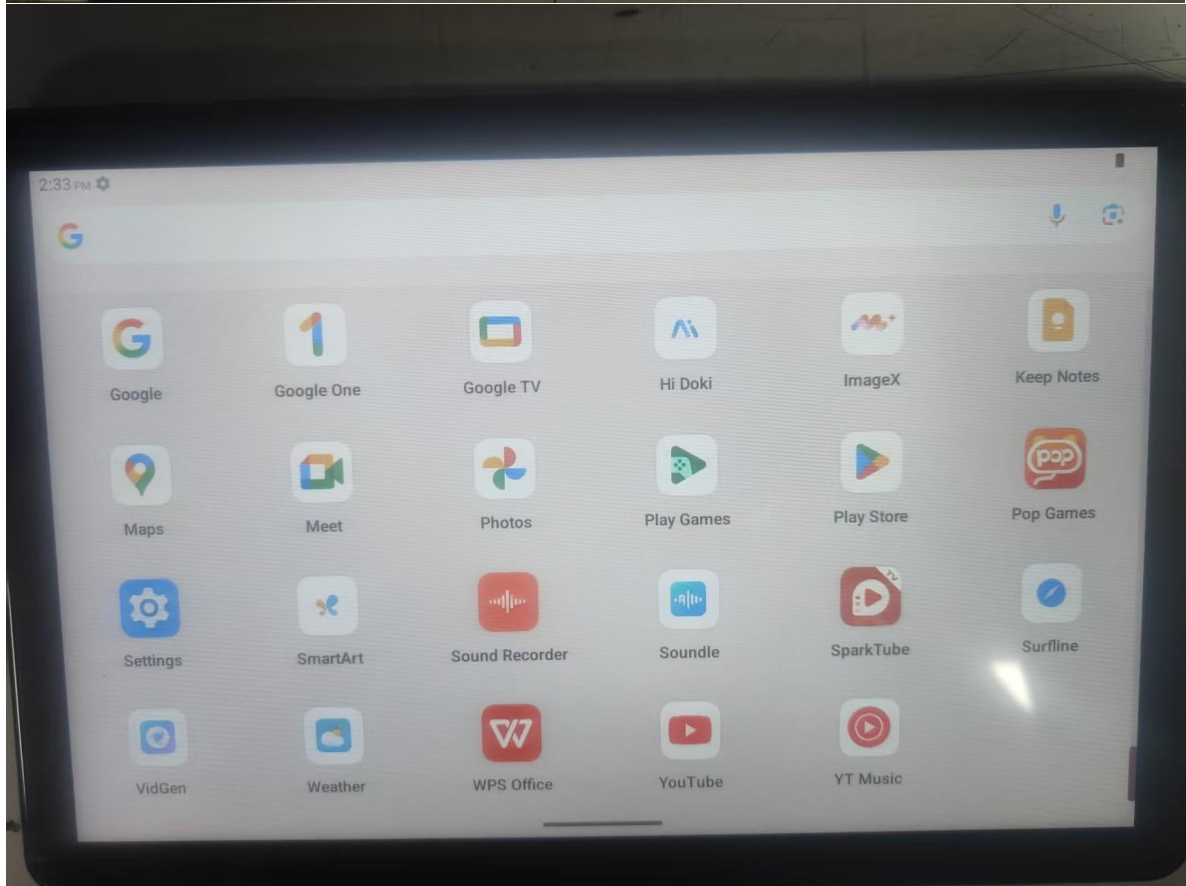

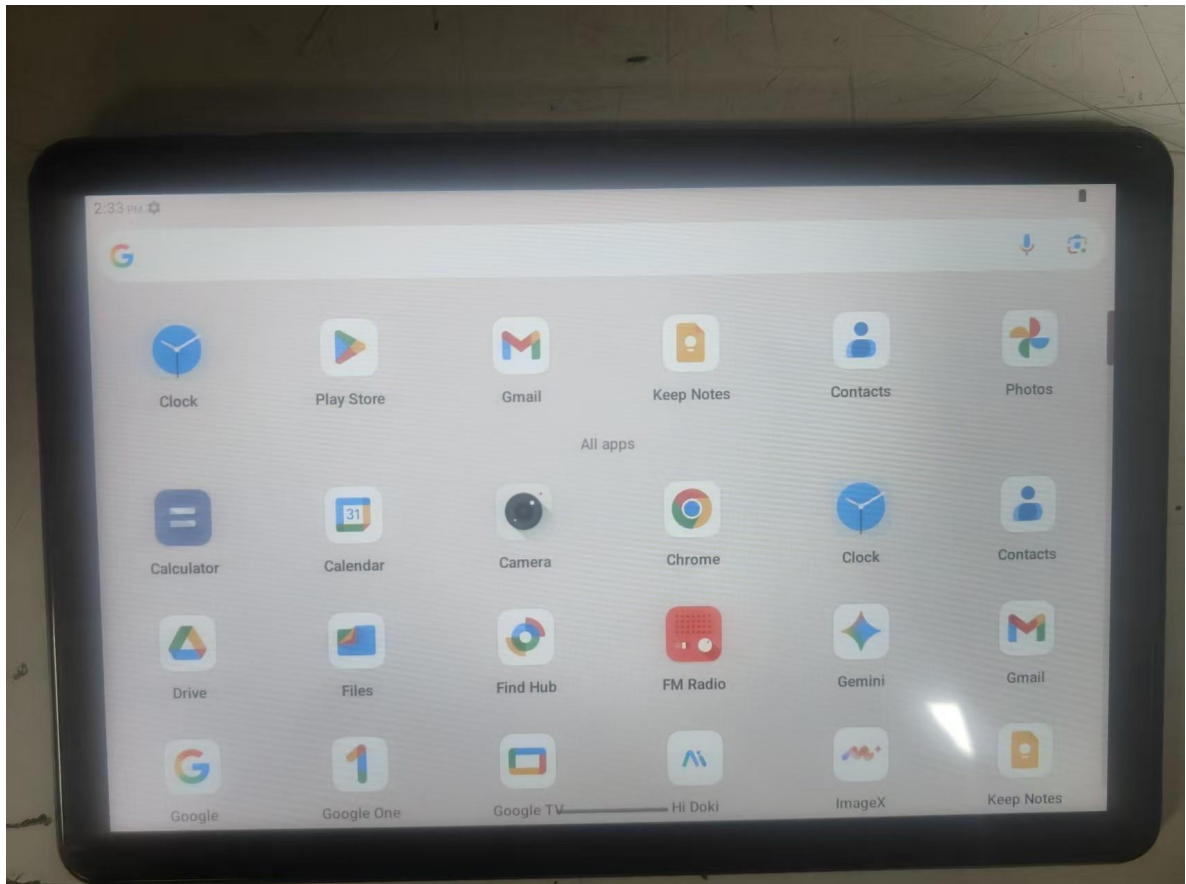

1. Did a test Firm or third party (other than the certification body and applicant) provide a list of software installed on the device and after scan results with no evidence of Kaspersky software?

☒ YES

☐ NO

☐ N/A

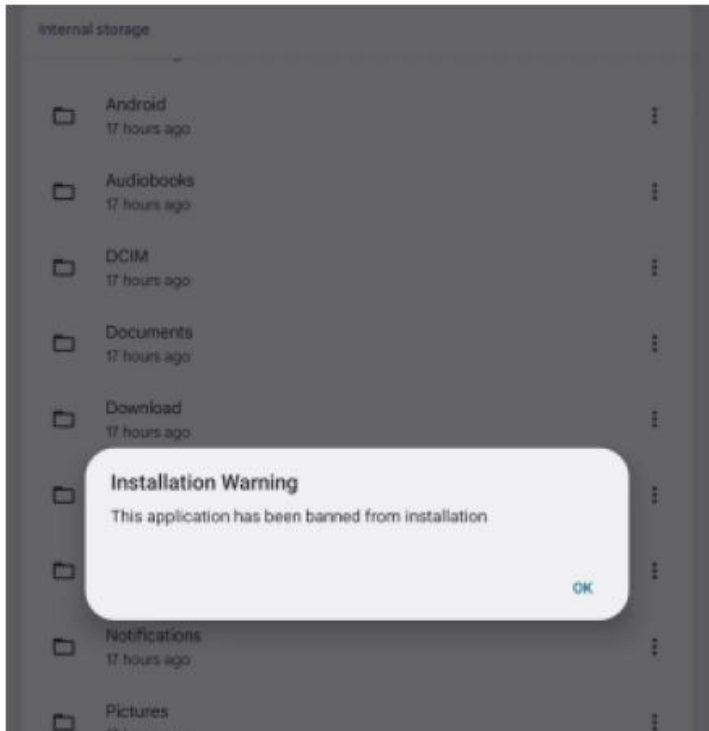

SHENZHEN STS TEST SERVICES CO., LTD.

2.Has other objective evidence been provided that no Kaspersky software is installed?

☒ YES

☐ NO

☐ N/A

If YES, provide:

SHENZHEN STS TEST SERVICES CO., LTD.
