

## 智能遥控打窝船

### 双仓版/使用说明书

使用本产品前请仔细阅读说明书并妥善保管。并正确使用。船仪支持2.4G 接收，无发射功能

#### 产品特色介绍

- **材质过硬**  
船体采用ABS工程塑料，无毒、无味、 耐腐蚀、 硬、 刚的特性,有超强的抗冲击性和耐酸性不易磨损,抗划痕性强,能长期保持如新的色泽,还具有很好的抗化学污染性,更易于清洁!
- **专用数码自动调速装置**  
专用电池和专用数码自动调速装置,彻底解决多条传统航行时恒压干扰,遥控距离近、失控脱局等麻烦
- **抗风性强**  
整体流线船体设计,整船做了防水处理,能有效防止各类浪涌溺水现象,3-4级风周常行驶!
- **续航能力强**  
超续航, 续航能,可连续航行2小时左右!
- **操控能力强**  
操作简便、 稳定性强、 无级变速,前进、 后退、 左右转弯灵活自如!

#### 配件介绍

- **马达**  
转弯半径\*\*\*\*\*  
转弯半径0.8-1.0米
- **电池**  
电源: 7.4V X 5200mAh维护电池、可连续工作2小时以上、  
在这种情况下可以另加一组电池、续航时间更持久、  
报警设置: 缺电报警设置,确保遥控船安全返航;  
(本机内置一电池)
- **夜航灯**  
夜间指示灯帮助钓鱼者在夜间操作时能辨别航行方向,并起到诱鱼的效果。
- **遥控器**  
遥控距离\*\*\*\*\*  
遥控距离400米左右。
- **船体**  
动作: 前进、 后退、 左右转弯,能避免因拖带投放鱼饵、 控制灵敏精准,并可抗击3-4级风浪。

#### 船体介绍

#### 单手遥控器按键功能说明

##### 遥控器与船体配对:

- 配对时船体必须放在平地上,长按遥控器OK键的同时打开开关电源键,再打开船体开关大概1秒钟遥控器发出“滴滴滴”3声,方可松开OK键,配对成功。

##### 正常遥控模式:

- 使用遥控杆控制马达转速,遥控杆上下调节马达前进后退转速,左右调节马达直线行驶,分二种模式:遥控杆上下位置:船体在中位时,此时船体为停止状态,向左或向右推动遥控杆,此时船体左右马达到停止转动,左或右马达到比例从0%(马达到能推动最小转速) ~ 100%加速转动,主要用于原地打转。
- 当向上或向下推动遥控杆,左右马达到转速比例从0% ~ 100%转动,此时向左或向右偏航打转,左右马达到转速会相等。
- 例如:当遥控杆在中位,向上推动遥控杆到80%位置,此时左右马达到转速在80%,如果将遥控杆偏向右偏,此时右马达到转速还是80%,左马达到转速可以从80%减小到0%,主要用于控制偏航打转。

##### 定速巡航模式:

- 当遥控杆在中位向前或向后行驶性按一下遥控器上定速巡航键,松开遥控杆后,船体按当前设定转速行驶,当船在停止模式时,定速巡航键没有功能。当在定速巡航模式时,前进杆向左或向右移动,此时可以微调左右马达到转速,例如:向左推动遥控杆,此时右马达到转速会加1级性,遥控杆不松,当右马达到转速加到最大时没有方法在加大转速时,左马达到转速会减1,在定速巡航模式,在按一下定速巡航键,会解除定速巡航模式。

##### 电压提示:

- 当遥控器电压低于2.3v时,遥控器上LED指示灯表示遥控器电池低电压。

#### 人机工学单手遥控器

- **流线型船体**
- 航行更平稳
- 抗风浪性更强
- **7.4Vx 5200mAh大容量电池**
- 续航时间更长

#### 电池使用与充电说明

● 锂电池密封舱盖打开

● 锂电池与船身电源连接

● 锂电池放进电池仓内

#### 保养维护

##### 遥控器

在长时间不使用时应取出电池。

##### 马达

每次使用完检查马达是否有障碍物。

##### 船体

1. 使用完毕后请擦拭水分保持船体的干燥和清洁。
2. 电池在长时间不使用时请取出并充电存放。
3. 不要将腐蚀性液体和物体一起存放。
4. 请勿靠近高温物体。
5. 不用时,请将打窝船放置在配套袋子中存放起来,以防沾土。

##### 使用后收纳

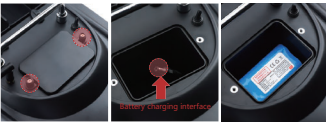

使用后收入收纳袋时,需擦干船体,或者将遥控器和电池一起放入收纳袋,避免长时间船体上的水分挥发或者渗入到电池及遥控器内部。

取出电池

                                                                                                                                                                                                                                               |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |                                                                                                                             |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |

It has super strong anti-rusting and abrasion resistance. It has good anti-chemical pollution and is easier to clean.</li><li><b>Dedicated digital automatic frequency regulating device</b><br/>Special circuit and dedicated digital automatic frequency remote control device to completely solve multiple interference between multiple flights when passing through, remote control distance, out of control, and other troubles.</li><li><b>Strong wind resistance</b><br/>Single streamlined hull design, the entire ship is waterproof, which can effectively prevent various types of penetration and leakage. (3-4 winds are often driving).</li><li><b>Strong battery life</b><br/>Low noise, low energy consumption, can be sailed for about 2 hours in a row!</li><li><b>Strong battery life</b><br/>Simple operation, strong stability, and influence change, forward, backward, left and right turns are flexible!</li></ul></div> <div>Accessory introduction</div> <div><ul style="list-style-type: none"><li><b>Motor</b><br/>Turning radius ★★★★★<br/>Turning radius 0.8-1.0 =meters</li><li><b>Battery</b><br/>Power: 7.4V × 5200mAh exemption battery, can work continuously for more than 2 hours. Under the appropriate case, you can add a set of batteries, and the battery life is more long-lasting.<br/>Alarm setting: Power shortage alarm settings to ensure that the remote control ship is safely returned.<br/>(A set of batteries built in this machine)</li><li><b>Night light lamp</b><br/>The night navigation indicator help the fishingman can distinguish the voyage direction during the night operation and play the effect of temptation.</li><li><b>remote control</b><br/>Remote control distance ★★★★★<br/>The remote control distance is about 400 meters.</li><li><b>Hull</b><br/>Action: advance, push back, turn left and right, throw bait and drag bait. Controls sensitive and precise, and can fight 3-4 storms.</li></ul></div> | <div>Ship introduction</div> <div></div> | <div>Remote control key function description</div> <div></div> <div><b>Remote control and hull match:</b><ul style="list-style-type: none"><li>When pairing, the hull must be placed on the flat ground. Long press the remote control OK key and open the power button, and then open the hull switch for about 1 second of the remote control to emit "Dip" 3 sounds. You can release the OK key and successfully paired.</li></ul></div> <div><b>Normal remote control mode:</b><ul style="list-style-type: none"><li>Use the remote pole to control the motor speed, the remote pole: Adjust the motor up and down the forward speed of the motor. Right to move the remote pole. At this time, the right or left motor stops rotating. The left or right motor will rotate from 0% (the motor can promote the minimum speed of the ship) to 100%, it is mainly used for rotation in place.</li><li>When the remote rod is pulled up or down, the left and right motor speed rotates from 0% to 100% according to the proportion. For example: When the remote pole is in the middle, push up the remote rod to 80%. At this time, the speed of the motor is 80%. If the remote pole slowly deflates to the right, at this time, the motor speed is still 80%, 80% is small to 0%, which is mainly used to control the problem of bias.</li></ul></div> <div><b>Fixed speed cruise mode:</b><ul style="list-style-type: none"><li>When the remote control ship is turning forward or backwards, press the speed cruise button on the remote control. After loosening the remote rod, the ship is diving at the current setting speed. When the ship is stopped, the fixed-speed cruise keys have no function. When a fixed speed cruise mode, the remote rod is turned left or right. At this time, you can fine tune the left and right motor speed. For example: turn the left to the left. At this time, the right motor speed will add 1 to hold the long rod. When the right motor speed is added to the maximum, there is no way to increase the speed, the left motor speed will be reduced by 1. In the fixed-speed cruise mode, the fixed speed cruise mode is lifted at the fixed speed cruise button.</li></ul></div> <div><b>Voltage indication:</b><ul style="list-style-type: none"><li>When the remote control voltage is lower than 2.3V, the LED flashes on the remote control, indicating the low voltage of the remote control battery.</li></ul></div> | <div>Renmi Workers Study Survey Remote Control How</div> <div><div><div>Streamlined hull<ul style="list-style-type: none"><li>Sailing is more stable</li><li>Strongest anti-wind waves</li></ul></div><div>7.4V × 5200MA large capacity battery<ul style="list-style-type: none"><li>Fast charging</li><li>longer battery life</li></ul></div></div><div></div></div> <div>Battery use and charging instructions</div> <div><div></div><div><ul style="list-style-type: none"><li>Open the battery sealed cabin cover</li><li>Connect the battery with the hull power supply</li><li>Put the battery in the battery warehouse</li></ul></div></div> | <div>Maintenance</div> <div><b>remote control</b><br/>Please take out the battery when not in use for a long time.</div> <div><b>Motor</b><br/>Check whether the motor is wrapped in every time you use it</div> <div><b>Hull</b><ol style="list-style-type: none"><li>After use, wipe the water to keep the hull dry and clean.</li><li>Please remove and charge it when the battery is not used for a long time.</li><li>Do not store it with corrosive liquids and items.</li><li>Do not approach high temperature objects.</li><li>When not in use, put the nesting boat in the matching bag to store it to prevent dust from the dust.</li></ol></div> <div><b>Storage after use</b><br/>When you use the post-income storage bag, you need to dry the hull, or put the remote control and the battery in the storage bag together to avoid the water on the hull. Divident or penetration into the battery and remote control damage!</div> <div><div><div>Take out the battery</div></div><div><div>Check the motor</div></div><div><div>Check the hull</div></div></div> |

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception,

which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction
