

1 DEVICE OVERVIEW

Glasses with Smart temples

1 - Front
2A, 2B - Microphone
3A, 3B - LED Indicator
4A, 4B - Button control

5A, 5B - Charging magnetic pins
6A, 6B - Speaker
7A - Right Smart Temple
7B - Left Smart Temple

Glasses with Classic temples

1 - Front
2A - Right Classic Temple
2B - Left Classic Temple

2 PACKAGING & ACCESSORIES

3 CHENGABLE TEMPLES

Remove the temples:

Lift the temple upward until it releases from the hinge slot.

Install the smart temples:

Align the connector and push the temple downward until it securely clicks into place.

4 POWER ON/OFF AND PARING

4.1 Power On/Off

4.2 Device Paring

Power on the smart glasses.
Enter Bluetooth pairing mode on your mobile phone.
Connect the smart glasses to your smartphone.

5 CALLS

Incoming call

To control phone calls, you can use either the left or right button.

6 MUSIC & VOLUME CONTROL

6.1 Music control

6.2 Volume control

7 VOICE ASSISTANT

AUDIO SMART EYEWEAR

USER MANUAL

Model: WL-01
Version: V1.0
2025, December

8 SAFETY INSTRUCTIONS

WARNING – Risk of serious injury or legal consequences
Do not use the smart eyewear while driving, cycling, or operating machinery. Do not use the device in situations where distraction could cause injury.

Water resistance: IPX4 (tested according to IEC 60529). The device is resistant to splashes and sweat. Not suitable for immersion or water activities. Do not expose the device to heavy rain or high-pressure water. Do not disassemble the device. There are no user-serviceable parts inside. Use only approved chargers and charging accessories. Do not expose the product to fire, extreme heat, or direct flames.

CAUTION – Risk of product damage or malfunction:
Avoid exposure to water, moisture, sweat, steam, or liquids of any kind. Do not leave the glasses in hot environments such as parked vehicles. Keep the device away from saunas, heating appliances, or direct sunlight. Prolonged heat or humidity may damage the battery, electronics, or lens coating. Do not store other objects inside the protective case that may press against the lenses or frame.

NOTICE – Proper use information:
Use the product only as described in this user manual. Improper use may reduce product performance or lifespan.

9 PRIVACY & DATA NOTICE

The device does not automatically store or upload personal data. Audio functions operate in real time via Bluetooth connection. Users must comply with local laws regarding recording and privacy.

10 MAINTENANCE & CLEANING

CAUTION – Risk of damage:
Do not use alcohol, solvents, detergents, or abrasive cleaners. Do not use compressed air.

Cleaning Lenses:
Use a soft, dry microfiber cloth. If necessary, apply a small amount of lens-safe cleaning solution to the cloth (not directly to the lenses). Avoid paper towels or tissues, as they may scratch the surface.

Cleaning Frame, Sensors:
Gently wipe using a clean, dry microfiber cloth. If dirt persists, lightly dampen the cloth with clean water. Avoid touching sensor windows with fingers, as smudges may affect performance.

Storage:
When not in use, store the smart eyewear in the provided protective case to prevent dust, scratches, and accidental damage.

11 TROUBLESHOOTING

Device Not Turning On:
Ensure the device is charged (wait 10–15 minutes after connecting to charger). Confirm correct power-button operation. Check that the charging cable and adapter are functioning properly. Verify Bluetooth is enabled on your smartphone (if applicable). If the issue persists, contact customer support.

Poor audio quality
Check the distance between the glasses and your phone (recommended within 15 meters). Ensure there are no obstacles or strong interference nearby. Reconnect the device via Bluetooth. Restart the phone if the issue persists.

Over distance (more than 15m)
When the glasses are out of Bluetooth range (more than 15 meters), the headset enters the reconnection state. If the phone returns to the headset range within 5 minutes, it will automatically reconnect successfully. If not connected to the phone for 5 minutes, the headset enters the pairing state.

Reset procedure
2 clicks + long press 5S.

12 DISPOSAL & RECYCLING

WARNING – Battery safety:
This device contains a rechargeable lithium battery. Do not dispose of the battery in household waste or incinerate it. Do not attempt to remove or replace the battery yourself.

Battery Disposal:
Dispose of batteries at designated recycling or collection facilities. Contact an authorized service provider for battery-related service.

Electronic Waste Compliance:
Dispose of electronic devices in accordance with applicable regulations. Do not mix electronic waste with household waste. Follow local laws and recycling guidelines.

INTENDED USE
These smart glasses are intended for everyday lifestyle use, including audio playback, communication, and visual recording. Not Intended for Medical diagnosis or treatment / Industrial safety protection / Driving or operating heavy machinery.

SPORTS & ACTIVITY NOTICE
CAUTION

Water resistance: IPX4 (tested according to IEC 60529). Resistant to splashes and light sweat. Not suitable for immersion or water sports. Light sweating during everyday activities is acceptable. Avoid use during heavy sweating, water sports, swimming, showering, or intense physical activity.

TECHNICAL SPECIFICATIONS

Battery (x2)	85 mAh
Charge End Voltage	4.35 V
Discharge Cut-off Voltage	3.2 V
Bluetooth	6.0
Operating temperature	-10°C to 45°C
Weight	37 - 45 g

MANUFACTURER INFORMATION

Manufacturer:
Weilan Optical (Thailand) Co., Ltd.
Address:
868 Moo 2, Taiban Subdistrict, Mueang Samut Prakan District, Samut Prakan 10280, Thailand
Website:
www.weilanoptical.com

WARRANTY INFORMATION

12 months from date of purchase. For warranty service, please contact the authorized dealer or seller where the product was purchased. Proof of purchase required. Statutory rights apply.

REGULATORY COMPLIANCE

CE DOC

Hereby, Weilan Optical (Thailand) Co.,Ltd. declares that the radio equipment type WL-01 is in compliance with Directive 2014/53/EU.

The full text of the EU declaration of conformity is available at the following internet address: <https://www.weilanoptical.com>

Portable :

RF exposure information: The EIRP power of the device at maximal case is below the exempt condition, 20mW specified in EN62479: 2010. RF exposure assessment has been performed to prove that this unit will not generate the harmful EM emission above the reference level as specified in EC Council Recommendation(1999/519/EC).

Frequency Range:

BT: 2400-2483.5MHz (TX/RX)

Maximum Transmit Power:

BT: 10dBm

FCC STATEMENT :

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help.

RF warning statement:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
