GENERAL INFORMATION

Thank you for purchasing the **Smart Miblu 0018** digital fan by **MAN**. This device has been designed to provide efficient and comfortable ventilation, including remote control technology through a mobile application.

TECHNICAL SPECIFICATIONS

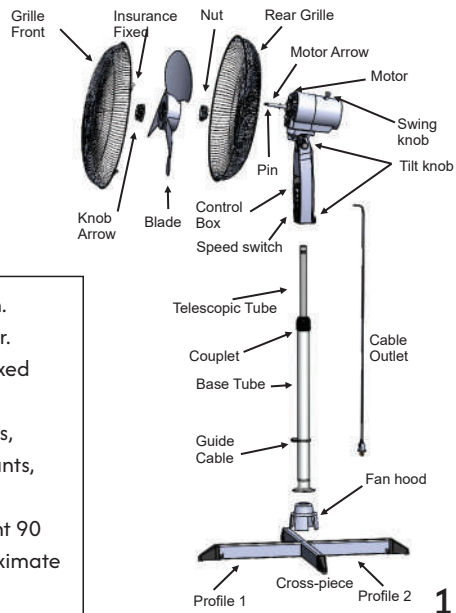

PARAMETER	VALUE
Model	SMART MIBLU 0018
Brand	MAN
Voltage	120 V ~ 60 Hz
Power	120 W
Control	Digital panel and mobile app
Timer	1-8 hours
Material	ABS Plastic / Steel
Speed Levels: 3 (Low, Medium, High)	

FAN COMPONENTS

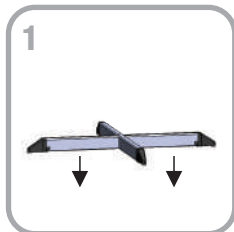

The fan includes the following essential parts for its proper functioning:

- Base:** Provides stability to the unit.
- Base tube:** Connects the base with the head.
- Head with safety grill:** Protects the blades during operation.
- Blades:** Generate airflow.
- Digital control panel:** For easy and intuitive operation.
- Integrated Bluetooth control:** Allows connection with the "MAN Control" app.
- User manual:** Contains all the information required for installation and operation.

- 18" (45 cm) fan.
- 3-speed selector.
- Oscillating or fixed operation.
- For use in homes, offices, restaurants, gyms, etc.
- Air displacement 90 m³/min. (approximate airflow rate)

ASSEMBLY INSTRUCTIONS

Place the fan base on a flat, stable surface to ensure proper operation.

Secure the base tube to the base, tightening it firmly.

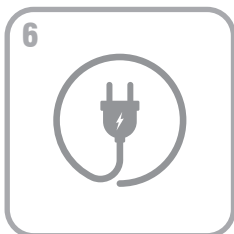

Mount the fan head onto the extension tube, ensuring it fits properly.

Install the blades on the motor shaft and tighten with the provided nut.

Close and secure the protective grill.

Finally, connect the power cord to a 120 V~ / 127 V~ outlet.

BASIC OPERATION

1 To turn the fan on or off, press the power button on the control panel.

2 To adjust the air speed, use the "Vel +" or "Vel -" buttons.

3 To activate lateral oscillation, press the "Osc" button.

4 Set the timer by pressing "Timer" (1–8 hours).

5 Night mode reduces fan noise and airflow intensity for enhanced comfort.

USE VIA DIGITAL CONTROL (APP)

To begin, download the app by scanning the QR code shown. You only need to use your phone's camera or a QR code reader app to access the download link directly.

PLAY STORE

APP STORE

Requirements

- Android 8.0 or iOS 13 or higher smartphone.
- A 2.4 GHz Wi-Fi network connection is required.

Pairing Process

1. Turn on the fan.

2. Press the "POWER" button on the panel for about 1 second until the icon flashes.

3. Open the MAN Control app and create an account if needed.

4. Select "Add Device" → "Fan".

5. Follow the on-screen instructions to connect via Bluetooth.

Functions Available in the App

Remote ON/OFF control

Speed adjustment

Custom timer

Weekly scheduling

Oscillation ON/OFF

Energy-saving mode

APP SECURITY

The application includes data encryption to protect your personal information at all times.

Communication between your device and the app uses secure HTTPS protocols.

The app complies with the Federal Law on Protection of Personal Data for user safety.

MAINTENANCE AND CLEANING

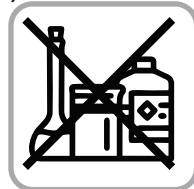

1. Unplug the power cord before cleaning the unit. To remove the front grille, pull the retaining band down (if necessary, use a flathead screwdriver to pry between the band and the latches) until it unfastens, then slide it up until the locking mechanism is released. To remove the fan blades, loosen the knob by turning it in the "remove" direction, and then remove the blades. Remove the rear grille by loosening the nut. Clean the grilles and blades with a cloth dampened with mild soap. Do not use abrasive scouring pads that could damage the unit's finish. For reassembly, follow the assembly instructions on the first page.

A)

2. Never use solvents, as they will damage the fan components. Examples include alcohol, gasoline, and aerosol sprays. Clarify references to section A and B, add subtitles or labels.
3. No oil needs to be added to the motor. It has a permanent lubrication system.
4. For fan repairs, please visit an Authorized Service Center for specialized technical assistance.

B)

SAFETY PRECAUTIONS AND WARNINGS

1. Indoor use only.
2. Never immerse the fan in water.
3. Do not insert objects into the grille openings or cross guard.
4. Do not make contact with the moving blade.
5. Children should be supervised to ensure they do NOT play with the device.
6. The device should not be used by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience or knowledge, unless they have received supervision or training.
7. Remove hot objects from near the fan.
8. Unplug the fan by pulling the plug, not the cord.
9. Never use a damaged power cord.

10. Be careful not to trip over the power cord.
11. Always tighten the knobs once you have located the angle for the direction of the air.
12. Use authorized service centers for any repairs.
13. If the power cord is damaged, it must be replaced by the manufacturer or its service agent or by qualified personnel to avoid risk.
14. Place the device on a flat surface.
15. Always disconnect the fan from the power outlet before cleaning.
16. Do not use the fan without its blade grilles.
17. Separate the fan from the curtains to avoid damage.

WARRANTY

WARRANTY POLICY

Industrias Man de México, S.A. de C.V. guarantees this product for a period of **one year from the date of delivery** against manufacturing and operational defects in all parts. This warranty includes free repair or replacement of the product, as well as necessary parts, labor, and diagnostics.

The product may be repaired by the manufacturer during and after the warranty period.

Warranty procedure:

To claim the warranty, **completely free** of charge, customers have two options:

1. **Go directly to the point of sale**, presenting the product along with the **invoice, receipt, or proof of purchase**.

2. **Request service online by visiting:**

<https://manindustries.us/policies/terms-of-service>

There, you must complete the **warranty form**. One of our technicians will assist you shortly.

SCOPE OF WARRANTY

Industrias Man de México, S.A. de C.V. undertakes to replace any defective part or component free of charge to the consumer. This warranty also covers transportation costs associated with service delivery, provided that service is provided within our authorized service network.

WARRANTY EXCLUSIONS

This warranty will not be valid in the following cases:

- If the product was used under conditions other than those specified as normal.
- If the instructions in the included user manual were not followed.
- If the product was altered or repaired by persons not authorized by the manufacturer, importer, or responsible distributor.

This warranty is valid only with proof of purchase.

FCC Statement

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
