

INSTRUCTIONS

MODEL:LA01

POPMART SMART ACCESSORIE.

I. Product specifications.

MODEL: LA01 COLOUR: black

Net Weight: 17.8 Horn: 0916BOX

LED light:RGB three-color light. Charging method: Type C

Bluetooth chip: BlueLink AB202X. Voice chip.:Jiqi KC7082

Motherboard memory: Control memory 2K.

Appearance dimensions: 41*37*14:5mm

Battery: Polymer lithium battery 602530. Capacity: 400mAh

Control chip: Shengsi Micro MC32P7351C 8-bit MCU.

Base casing material: PC + ABS, injection-molded, black, matte finish.

Casing material: PC, injection-molded, black semi-transparent, polished window area, matte finish for other areas.

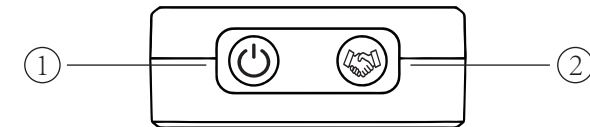

II. Functional List

After manually turning on the power switch, two or more POPM ART dolls equipped with LA01 smart accessories connect via 433 signal communication. The signals exchange handshakes, the colorful lights flicker, and a voice greeting is issued (the voice phrases are temporarily set to five and play in sequence). Different devices, based on 433 communication, successfully pair and greet each other within the effective communication range (about 5 meters). After the greeting, the Bluetooth interaction app's pre-set business card is automatically activated, which can be viewed and selected within the app's management interface.

III. Key Function Descriptions

① Power button

② Friendship button.

Boot up

Long press the power button for 1 second.

The blue power indicator light will stay on for 1 second before turning off.

Simultaneously, a voice prompt will play:

“Ding! Your quirky companion has joined!~”

To turn off

Long press the power button for 1 second.

The power-off blue light will flash 3 times, after which the device enters a low-power mode.

Unbind

Hold the Power button and the Buddy button down simultaneously for 2.5 seconds.

The green light will blink 3 times.

Charge

The red light blinks while charging.

Once fully charged, the green light stays on continuously.

Low power

A yellow light flashes rapidly when the battery level is low, followed by automatic shutdown.

Mutual effort

When a friend request is received and the red light is flashing, press the friend button briefly to respond. After pressing the button, the blue light will remain on for 15 seconds. No voice message will be played. “If a device nearby that has sent a friend request receives this response, the blue light will also remain on for 15 seconds in response. At the same time, a voice message will be played: ‘Hi, you look particularly charming today!’ ”

Say hello

No need to press a button. When it encounters a similar friend, it automatically greets them with a flashing three-color light. Simultaneously, it randomly plays the following two voice clips: “Wow, it’s another happy day meeting you.” “With a glance, I’ve confirmed that you’re someone who appreciates my cuteness.”

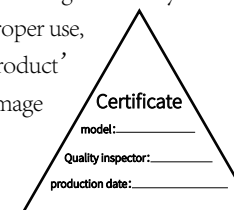

IV. Warranty card/certificate of conformity.

Warranty card

Customer Information	Full name:	Distributor's signature.		
	Telephone:			
	Address:			
Model				
Name of the sales entity.				
Address of the sales unit.				
Handler				
Date of purchase.	Year	Month	Day	

Hint:

1. If this product exhibits a quality issue within seven days of purchase, and there is no visible damage or if the user has not attempted to repair it themselves, you can exchange the entire unit at the store where it was purchased, provided you have the warranty card. 2. This product is covered by a free warranty for one year from the date of purchase. Show the warranty card when seeking repairs. The following conditions do not fall under the scope of the free warranty: A. Failure to present the warranty card or purchase receipt. B. Damage caused by unforeseen circumstances. C. Damage resulting from improper use, maintenance, or storage. D. Natural aging of the product's appearance due to prolonged use. E. Faults or damage caused by use in special environments.

Warning

- Not suitable for children under the age of 3 due to the presence of small parts.
- Regularly inspect the charger's wires, plugs, casing, and other components to ensure they are undamaged. If any damage is found, discontinue use until it has been properly repaired.
- It features a built-in 3.7V/300mAh lithium battery. This battery cannot be removed or replaced by individuals. If it is damaged, please contact the service provider for repairs.
- Chargers are not toys. The main unit can only be charged using the recommended charger. Chargers should be used by adults or under adult supervision (recommended specifications: 5V-800mA).
- Do not use this product when it is exposed to direct sunlight.
- This product contains electronic components and should not be exposed to water or used in humid environments. Clean the surface stains with a dry cloth.
- If you will not be using the device for an extended period, please make sure to complete at least one charge and discharge cycle within one month to prevent the lithium battery from depleting.
- To ensure the safety of children, the machine is designed to prevent use while it is charging. Usage instructions: Please refer to the “User Manual” included in the box. Discard the product carelessly, as this may have an impact on the environment. Please properly recycle the packaging box and the User Manual, as they contain important information that must be retained for future reference.

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 0cm between the radiator and your body.
