Product Parameters:

Product Name:	Star Projector Night Light
Model:	CX-TKEBXK0001
Power Input:	5V2A
Power Output:	<1mW per beamlet
Classification of lasers:	Class 1
Work Temperature:	14℉-96℉(-10-40 ℃)
Laser color:	Green,515-535nm
Nebula color:	Colorful,450nm
Shell Material:	Flame Retarding VO Class ABS
Remote control type:	RF Remote Control (control distance of 30 meters)
Application:	Indoor(Home/Cafe/Bar/motor homes)
Certificate:	CE, FCC, RoHS, RCM
Timing:	Flexible timing
Control by:	Button control, remote control, music control (excluding intelligent voice)
Package weight:	1.82lb(830g)
Package dimensions:	8.66*9.05*5.51(22*23*14cm)

Important security information:

- 1.Do not disassemble the product under any circumstances.There are no repairable parts inside the product.
- 2.Children under the age of 16 should use this product under adult supervision.
- 3.Make sure your local power outlet matches the voltage required for your device (USB TypeC 5V/2A).
- 4.This product does not include a power supply and uses USB TypeC power supply.The data cable is included.Please confirm that the socket or power supply you are using is UL certified to avoid safety issues.
- 5.Do not operate this product when the power cord has been worn or broken.
- 6.This product includes a data cable,please do not wrap it around your neck. Do not put it in your mouth to avoid suffocation and power short circuit.
- 7.This product should be kept away from heat sources,such as radiators,heat registers,stoves or other electrical appliances that generate heat.
- 8.Do not soak the product in water to prevent electric shock!

WARNING

- **INGESTION HAZARD:** This product contains a button cell or coin battery.
- **DEATH** or serious injury can occur if ingested.
- A swallowed button cell or coin battery can cause **Internal Chemical Burns** in as little as 2 hours.
- **KEEP** new and used batteries **OUT OF REACH OF CHILDREN**
- **Seek immediate medical attention** if a battery is suspected to be swallowed or inserted inside any part of the body.

Battery type: CR2025
Nominal voltage: 3V

1.Remove and immediately recycle or dispose of used batteries according to local regulations and keep away from children.Do NOT dispose of batteries in household trash or incinerate.Even used batteries may cause severe injury or death.

2.Call a local poison control center for treatment information.Non-rechargeable batteries are not to be recharged.Do not force discharge,recharge,disassemble, heat above (manufacturer's specified temperature rating) or incinerate.Doing so may result in injury due to venting, leakage or explosion resulting in chemical burns.

3.Ensure the batteries are installed correctly according to polarity (+ and -).Do not mix old and new batteries,different brands or types of batteries,such as alkaline,carbon-zinc,or rechargeable batteries.Remove and immediately recycle or dispose of batteries from equipment not used for an extended period of time according to local regulations.

4.Always completely secure the battery compartment. If the battery compartment does not close securely, stop using the product, remove the batteries, and keep them away from children.

If you have any question after receiving the product, please contact our customer email service, we will reply to you within 24 hours.

FCC Caution.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

* RF warning for Portable device:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
