Subject: Request for Confidentiality
Date: 13th March 2026

FCC ID: 2BUOQ-TD1

To Whom It May Concern,

Pursuant to the provisions of the Commission's rules Title 47 Sections §0.457 and §0.459, we are requesting the Commission to withhold the following attachment(s) as confidential documents from public disclosure indefinitely.

These documents contain detailed system and equipment descriptions and are considered as proprietary information in operation of the equipment. The public disclosure of these documents might be harmful to our company and would give competitors an unfair advantage in the market.

In addition to the above, we also request that the internal photos be granted Long-Term Confidentiality. The internal components are not accessible to users, the PCB is coated with conformal coating and epoxy resin, and the top and bottom are permanently sealed.

- ✓ Schematic
- ✓ Block Diagram
- ✓ Layout Diagram
- ✓ Parts List (BOM)
- ✓ Operational Description
- ✓ Tune-up Procedure
- ✓ Internal Photos

In addition to above mentioned documents, in order to comply with the marketing regulations in Title 47 CFR §2.803 and the importation rules in Title 47 CFR §2.1204, while ensuring that business sensitive information remains confidential until the actual marketing of newly authorized devices, we request Short Term Confidentiality of the following attachment(s);

- ✓ External Photos
- ✓ Test Setup Photos
- ✓ User Manual

~~For 45 days, Pursuant to Public Notice DA 04-1705.~~

OR

For 180 days pursuant to KDB 726920 D01.

It is our understanding that all measurement test reports, FCC ID label format and correspondence during the certification review process cannot be granted as confidential documents and this information will be available for public review once the grant of equipment authorization is issued.

Justification for Confidentiality

The above exhibits contain detailed system architecture, circuit implementation, component selection, and internal construction information that are considered proprietary and business-sensitive. Public disclosure of these materials at this stage could result in significant competitive and commercial harm for the following reasons:

1. Pre-Market Product The product has not been released to the market. Disclosure of internal photos, schematics, and construction details prior to commercialization may expose confidential design information to competitors, resulting in an unfair competitive advantage.

2. Protection of Design The requested exhibits reveal internal circuitry, layout, design strategies, and implementation methodologies that are treated as confidential by our organization and are not publicly disclosed under normal business practices.
