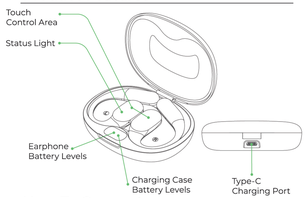
Product Features



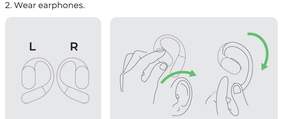
How To Connect

Notes:
1. Turn on Bluetooth on your phone. Bluetooth

2. Ensure that your phone/computer or other devices are not connected to other audio devices and that the earphones are not connected to other devices.
3. Ensure the earphones' status lights are flashing and have sufficient battery.
4. Placing both earphones back into the charging case and reopening it can solve 90% of pairing problems.

First-time Connection

1. Open the charging case. This will power on the earphones and activate pairing mode automatically. Take the earphones out of the charging case to begin using them.
2. Wear earphones.



3. Turn on Bluetooth on your phone. Find the name " **G07S** " on the Bluetooth device list. Select to initiate active pairing.
4. When you hear the voice prompt "**Connected**," it means the connection is successful.

Note:
If the earphones have been connected to your device before, they will automatically reconnect when you use them again with the Bluetooth setting turned on. This saves time and hassle of having to manually connect the earphones each time you use them.

Instruction warning

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions may cause harmful interference to radio communications. However, there is no guarantee that interference wil not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be detemined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures.

-Reorient or relocate the receiving antenna.

-Increase the separation between the equipment and receiver.

-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions.

(1)This device may not cause harmful interference.

(2) This device must accept any interference received,
including interference that may cause undesired operation.

FCC Radiation Exposure Statement

This device complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. The device can be used in portable exposure condition without restriction.
