

Declaration on Indoor Access Point (6ID) Operation

Date: 2026-08-17

Industry Canada

Certification and Engineering Bureau

Building 94, 3701 Carling Ave, Nepean, ON K2K 2Y7, CANADA

FCC ID: 2BUWU-CW32R

IC: 35239-CW32R

To Whom It May Concern:

We, fuenfeinhalb Funksysteme GmbH /Chemnitzer Strasse 78A, 01187 Dresden, Germany, attest that this low power indoor client device complies with the following requirements of FCC part 15.407 and RSS-248 for 6G band:

Protocol attestation statement:

- 1) The device will only associate and connect with a low-power indoor access point or subordinate device and never directly connect to other client devices.
- 2) The device will always initiate transmission under the control of a low-power indoor AP or subordinate except for brief transmissions before joining a network. These short messages will only occur if the client has detected an indoor AP or subordinate operating on a channel. These brief messages will have a time-out mechanism such that if it does not receive a response from an AP it will not continually repeat the request.
- 3) Transmissions will be lower or equal to the power advertised by the indoor low power access point or subordinate and never above the maximum output power allowed by the FCC grant for equipment class 6XD.

Statement acknowledging device restrictions:

- 1) This device is prohibited for control of or communications with unmanned aircraft systems, including drones.

Sincerely,

By:
