Desktop Computer Speaker

Model name: RSP-C08

Impedance : 4Ω

Distortion: $\leq 1\%$

Response frequency: 100 - 20KHz

Signal to noise ratio: $\geq 80\text{dB}$

Power Input:DC 5V/1A

Power Output: 5W x 2

Battery Capacity: 3600mAh/3.7V

- Please connect this product to PC/Laptop for power supply or a 5W charger for charging.
- Please do not disassemble this product or you will invalidate the warranty.
- Avoid water/moisture/over-heated environment.

- **Connect to computer/laptop**

1. Power on and connect the speaker to PC case or laptop via included USB-C cord.
2. The speaker prompts "PC mode", and the connection is complete.

***PLEASE NOTE:**

- 1) Audio playback may be delayed by up to 10 seconds on some devices while drivers initialize.
- 2) Please use **USB-C data and charging cord** for connection.
- 3) For better stability, we recommend connecting the speaker to the back of your PC case.
- 4) The included adapter allows connection to laptops without a USB-A port or phones.

- **Connect to Bluetooth devices**

1. Power on the speaker, it will prompt "Bluetooth mode".
2. Enable Bluetooth on your device, and select "RSP-C08" to pair.

*PLEASE NOTE:

For optimal audio performance, maintain a distance within 10 meters (33 feet) between devices and minimize physical obstructions.

Issues

Solutions

.....

No Sound in PC Mode

- 1) Wait 10 seconds for the system to recognize the driver.
- 2) Fully charged the speaker via a 5W wall charger.

Pair Failure in Bluetooth Mode

- 1) Ensure no other Bluetooth devices are connected.
- 2) Delete "RSP-C08" from your paired devices list and retry.

Distortion or Static Noises

- 1) Lower the volume on the speaker to 70%-80%.
- 2) Move electromagnetic sources away from the speaker.

FCC Compliance Statements

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
(2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.

-- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-- Consult the dealer or an experienced radio/TV technician for help.
The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction
