

WUHAN HAHA CONVENIENCE TECHNOLOGY CO.,LTD

Model Declaration Letter

We, the undersigning company

Company Name: WUHAN HAHA CONVENIENCE TECHNOLOGY CO., LTD

Address: Room 301, Building A, Wanjili Science and Innovation Center No. 8, East Lake High-Tech Development Zone, Wuhan City, Hubei Province, China

Hereby confirm that the following products:

Product description: AI vending machine

Model name: Max 620S, Cooler 620S, Max 620, Cooler 620, Max 660, Cooler 660, Max 660S, Cooler 660S, Plus 440, Cooler 440, Freezer 550, Cooler 550

All models share the same wireless module.

Plus 440 and Cooler 440 are identical except model name for marketing purposes, different customers have different model name.

Freezer 550 and Cooler 550 are identical except model name for marketing purposes, different customers have different model name.

Max 620S, Cooler 620S, Max 620, Cooler 620, Max 660, Cooler 660, Max 660S and Cooler 660S are identical except model name for marketing purposes, different customers have different model name.

Model Plus 440, Freezer 550, Max 620 and Max 660 are sold online, other models are sold offline.

The only difference between Cooler 440, Cooler 550 and Cooler 660 is that the Cooler 660 has a screen, while Cooler 440, Cooler 550 do not. The glass door heating of the Cooler 550 is powered by electricity, while the other two models use capacitors.

Plus 440, Cooler 440: 110-120V/60Hz, 2.9A

Freezer 550, Cooler 550: 110-120V/60Hz, 6A

Max 620S, Cooler 620S, Max 620, Cooler 620, Max 660, Cooler 660,

Max 660S, Cooler 660S: 110-120V/60Hz, 2.85A

The reason for the different ratings is that different series models use different compressors.
