

Model: A171

Made in China

IMPORTANT PRODUCT INFORMATION

 Safety Information

Read all safety information before using the device.Failure to follow these safety instructions could result in fire,electric shock,or other injury or damage.

Operation Requirements

- Use the equipment under the allowable humidity and temperature conditions
- Do not aim the device at strong light (such as light and sunlight) when focusing as this may shorten the lifespan of CMOS sensor and causing the picture to be too bright or flicker.
- This product does not have an on/off button. To cut off power, unplug the power cord.
- Do not use this device in an environment with excessively high or low temperatures. Do not expose the device to strong sunlight or an overly humid conditions.
- The suitable temperature for the device and accessories is 0° C to 45° C (32° F to 113° F).
- Please put the device in a normal temperature and well-ventilated environment when using.
- Do not overload wall outlets. Overloaded outlets, extension cords, or damaged wires can cause fire or electric shock.
- Comply with local laws and regulations, and respect others' privacy and legitimate rights.

Child Safety

- Follow all child safety precautions. Children's play equipment or its accessories may pose hazards.
- The device and its accessories are not suitable for children. Children's use should be supervised by adults.

Safety Information

- Install your power adapter into an easily accessible socket located near the equipment and close to a power outlet.
- Do not expose your device or AC adapter to liquids. In the event of exposure to liquid, do not use any external heat sources (such as a microwave oven or hair dryer) to dry your device or AC adapter; simply allow them to air dry. Do not plug your device back in until it is completely dry.
- Stop using your device or AC adapter if they become damaged.
- Only use attachments/accessories specified by the manufacturer.
- When supplying, please place the device in an environment that has a normal room temperature and good ventilation.
- Please ensure you use only the adapter offered by the manufacturer. Using an unauthorized adapter may be dangerous and violate the Terms of Use and product warranty.
- This adapter is for indoor use only. The rated output voltage/current is 5Vdc/2A. The plug considered as disconnect device of adapter.
- This adapter is an optional accessory.

This product complies with the radio interference requirements of the European Community.

Declaration of Conformity

Hereby, Shenzhen Lingzhi Wujie Technology Co., Ltd. declares that this device is in compliance with the essential requirements and other relevant provisions of Directive 2014/53/EU,2011/65/EU(RoHS) (EU)2015/863.For the declaration of conformity, visit the Web site: <https://www.navohome.com>

RF exposure information :

The Maximum Permissible Exposure (MPE) level has been calculated based on a distance of d=20 cm between the device and the human body. To maintain compliance with RF exposure requirement, use product that maintain a 20cm distance between the device and human body.

Frequency bands and power as below:

Function	Frequency	Operation Frequency	Maximum Power
BT	2.4GHz	2402-2480 MHz	EIRP 20 dBm
Wi-Fi	2.4GHz	2412-2472 MHz	EIRP 20 dBm

Your product is designed and manufactured with high quality materials and components, which can be recycled and reused.

This symbol means the product must not be discarded as household waste, and should be delivered to an appropriate collection facility for recycling. Proper disposal and recycling helps protect natural resources, human health and the environment. For more information on disposal and recycling of this product, contact your local municipality, disposal service, or the shop where you bought this product.

Sensor Name	Function description	Sensing capabilities
Microphone	The function of microphone is to record the voice command of users to realize the functionality of voice control.	5 meters in circle.
CMOS Image Sensor (CIS)	Core purpose: Capture external scene images/videos to support security functions (motion detection, abnormal behavior recognition, evidence recording);Security relevance: Trigger encrypted video recording and remote alerts when suspicious activities are detected; image data is encrypted during transmission/ storage to prevent tampering or leakage	Resolution:8MP(3840×2160), 4MP(2560×1440) Frame rate: 15fps; Sensitivity: 0.1Lux (color mode), 0.01Lux (IR night mode); Dynamic range: 79dB@8MP,74.2dB@4MP Output format: H.265/H.264 encoded video, JPEG image; Transmission security: The CMOS sensor is connected to the main controller through I2C and MIPI with a fixed communication protocol, which does not concern transmission security; for security, each device uses a unique secret key with AES-128 encryption during data transmission.

Notice (United States Of America)

FCC Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: (1) Reorient or relocate the receiving antenna. (2) Increase the separation between the equipment and receiver. (3) Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. (4) Consult the dealer or an experienced radio/TV technician for help.

FCC Radio Frequency Exposure Statement

The device has been evaluated to meet general RF exposure requirements. The device can be used in fixed/mobile exposure condition. The min separation distance is 20cm.

Notice: Shielded cables
All connections to other computing devices must be made using shielded cables to maintain compliance with FCC regulations.

Notice (Canada)

This device complies with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes: (1) l'appareil n'a pas de produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

This Class B digital apparatus complies with Canadian ICES-003. Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada. IC RF Statement:

When using the product, maintain a distance of 20cm from the body to ensure compliance with RF exposure requirements. Lors de l'utilisation du produit, maintenez une distance de 20 cm du corps afin de vous conformer aux exigences en matière d'exposition RF.

Statement of Compliance For Austrailan Cyber Security

We, Shenzhen Lingzhi Wujie Technology Co., Ltd. declare under our sole responsibility that the above referenced product complies with the Cyber Security (Security Standarrds for Smart Devices) Rules 2025 and relevant standards. For the Statement of Compliance, please visit: <https://www.navohome.com>
Please find our Vulnerability Disclosure Policy in website: <https://www.navohome.com/privacy>

All vulnerability report forms are to be submitted via our official website at: <https://www.navohome.com/report>
