

CASEPLAY Art Panel Speaker Component Description

Art Panel Unit

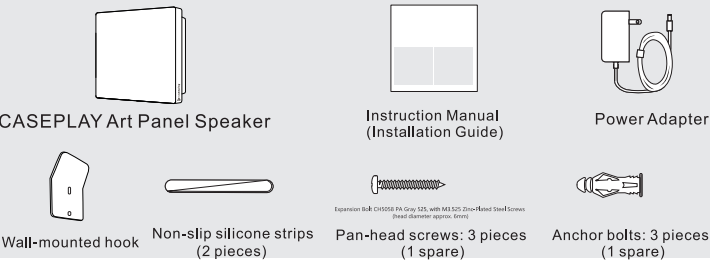

Speaker Unit

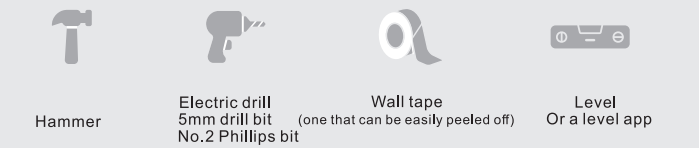

Before starting the installation work

Included contents

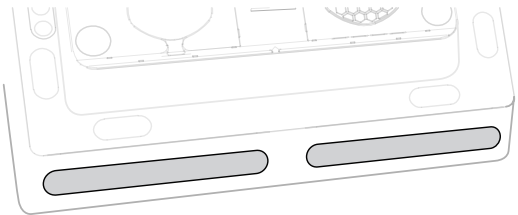

必要な工具

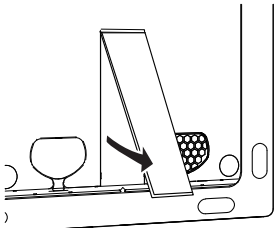

Precautions for wall mounting

- We recommend installing this product at a height that is out of reach of children.
- When installing this product, please ensure there is sufficient space around it.
- Please be careful not to damage pan-head screws, electrical wiring, pipes, etc. with the electric drill.
- During the installation work, do not connect this product to a power source. Also, perform the work in a dry location.

How to Use the Stand

1. Attach the non-slip silicone to the two recesses on the bottom of the CASEPLAY Art Panel Speaker. (Peel off the tape attached to the non-slip silicone and stick it so that it does not protrude from the recess.)

2. Open the stand and place the speaker in a stable location before use.

Basic Operation Instructions

- Use the power button to turn the power ON/OFF.
When the power is turned ON, a prompt tone saying "Power on Bluetooth mode" will sound.
When the power is turned OFF, a prompt tone saying "Power off" will sound.
- You can adjust the volume by pressing the volume buttons (⏮/⏭).
When the maximum volume is reached, a prompt tone will sound.
- By pressing both the (⏮) and (⏭) volume buttons simultaneously for 5 seconds or longer, this product will play the "Power off" prompt tone and reset automatically.
- When pairing 2 units simultaneously, please refer to the URL (※)
The maximum number of units that can be paired simultaneously is 2

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
-- Reorient or relocate the receiving antenna.
-- Increase the separation between the equipment and receiver.
-- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement:

This equipment complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum of 20cm separation between antenna and body.
