Safety and Effective Usage Guide

Note: Please read this information before using the Bluetooth headphones. If the user makes any modifications or alterations to this Bluetooth headset without permission, they will lose the right to continue enjoying the services provided by the device.

① Electromagnetic Interference: Electronic Devices: To avoid electromagnetic interference or compatibility issues, please turn off your Bluetooth device in the designated areas as per the clear instructions. Aviation: After boarding the plane, please follow the instructions of the flight attendants to turn off your Bluetooth headphones. Using Bluetooth headphones during flight is strictly prohibited as it may cause interference to the aircraft communication system.

② Safety Matters: Storage: We recommend that you place the Bluetooth headset in a location free from compression when it is not in use. Compression may cause damage to the product or pose a risk to your safety. Children: Do not allow children to play with Bluetooth headphones. Some of the small components can be detached and might be swallowed, posing a danger.

LED indicator light status

Headphone case indicator light	• Charging the earphone case (not fully charged): White light flashes
	• The earphone case is fully charged: White light remains on constantly
	• Charging the earphone (not fully charged): White light remains on constantly
	• Fully charging the earphone: Light goes out

Product Operating Instructions

1. Turn on the machine
Method 1: Open the upper cover of the earphone case, then the earphones will automatically turn on.
Method 2: Long press the earphone function button with your finger for about 5 seconds, and the earphone will turn on.

2. Power off
Method 1: Put the headphones back into the earphone case and turn off the earphones.
Method 2: While both headphones are powered on, press and hold the headphone function key for approximately 5 seconds, then the headphones will turn off.

3. Pairing
Step 1: Open the cover of the earphone case and take out the left and right earphones. The earphones will automatically turn on and join the team.
Step 2: Open the Bluetooth list of the smart device, search for "Lenovo TA210" and connect (it supports single ear use).

Touch operation instructions

Music playback mode —— Left/right earphone operation
① Previous song: Double-click the function key of the left earphone (L)
② Next song: Double-click the function key of the right earphone (R)
③ Pause/Play: Click any of the earphone function keys

Speakerphone —— Left/Right Earphone Control (When receiving a call)
① Answering: Click on any of the earpiece function keys
② Reject: Press any of the earphone function keys three times
③ Hang up: While in a call, click any of the earpiece function keys

Activate the voice assistant (Voice assistants are supported by smart devices)
Left/Right Headphone Controls:

Long press any of the earphone function keys for about 3 seconds to activate the voice assistant.

Product Specifications

Product Name	Lenovo True Wireless Bluetooth Headphones
Product model	TA210
Headphone size	21mm×30mm×23mm
Rated capacity of the earphone battery	25mAh
Headphone rated input	5V === 25mA
Bass speaker size	13mm
Bluetooth version	Bluetooth V5.4
Working distance	≥10M
Earphone case size	63mm×44mm×26mm
Battery capacity of the earphone case	200mAh
Headphone case rated input	5V === 200mA
Signal-to-noise ratio	≥90dB
Microphone sensitivity	~42dB33dB
Frequency response	20Hz~20KHz

FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Note: The Grantee is not responsible for any changes or modifications not expressly approved by the party responsible for compliance, such modifications could void the user's authority to operate the equipment.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

Product Cautionary Notes

Safety Information
Before using this product, please read the safety instructions and follow all regular safety precautions. Any operation that does not conform to this manual may cause damage to the product.

⚠Warning
(1) Except for the operation methods specially indicated in the manual, do not attempt to disassemble or replace any parts inside the product.
(2) This product is equipped with a built-in rechargeable battery. Do not squeeze the product or place it in areas prone to falling. Do not subject it to impact, squeezing, puncturing, short-circuiting of the battery. If abnormal phenomena such as excessive temperature, deformation and bulging, leakage occur, please stop using the product. Do not place the device near heat sources or exposed fire sources, or other places that may generate high temperatures. Do not place the battery in open flames, direct sunlight, heaters, stoves, etc. in high-temperature and high-pressure environments. Do not immerse the battery in water. After using the headphones, do not place the headphones in humid, dusty, oily, steam-filled, sunexposed, high-pressure environments, etc., to avoid damaging the headphones and the battery. The rechargeable battery has a limited number of charging and discharging cycles and will eventually age. If there is an abnormality with the battery, a new battery can be replaced, but do not attempt to replace the battery yourself, as this may cause the battery to explode or leak the liquid inside. Batteries other than those specified by Lenovo or batteries that have been disassembled and modified are not covered by the warranty. Improper battery replacement may pose a risk of explosion. Only the same type or equivalent type of battery can be replaced through the service provider.
(3) After the product is no longer in use, do not throw it into the fire. The proper disposal of waste should be carried out in accordance with the classification of garbage. Please use this product reasonably and correctly to avoid causing any harm or environmental damage.
(4) During the use of the headphones, due to long distances, the presence of obstacles in the middle, or a series of interferences such as radio signals, Bluetooth signals, WiFi signals, etc., when using the headphones to listen to music, watch videos, or play games, there may occasionally be situations like lag, voice synchronization issues, or disconnection. If such a situation occurs, please reconnect the headphones or move away from the interference sources.
(5) When charging, please use a charging device with a DC output voltage of 5V/1A. It is necessary to select a charging device that has obtained the CCC safety certification from a reputable manufacturer. Do not use fast charging devices as they may cause excessive battery load and result in battery damage. Do not charge for longer than the specified charging time. Do not use it while charging to avoid damage.

Warranty in effect

If the product is within the warranty period from the date of your purchase and malfunctions or gets damaged due to quality defects under normal usage conditions, we will, depending on the circumstances, repair, replace or refund it free of charge. Unless otherwise stipulated by relevant laws, the replacement product or component may not be new, but it will have good performance and will be at least functionally equivalent to the original product or component. The warranty period starts from the date of the first purchase of the product, based on the invoice date. If there is no valid invoice, the warranty period starts from the date of product manufacture plus three plus (30) days. If the invoice date is later than the actual delivery date of the product, the warranty period starts from the actual delivery date. The starting date of the warranty period should not be later than sixty (60) days after the date of product manufacture. The repaired or replaced product continues to enjoy the warranty during the remaining warranty period, but the minimum period should be no less than thirty (30) days. To apply for warranty, please contact the product seller or call Lenovo service hotline, and follow the instructions we provide. When applying for warranty, you need to provide an accurate, complete and clearly filled valid sales invoice.

The above warranties do not apply to any faults or damages resulting from the following causes: (a) misuse, abuse or improper transportation, maintenance or storage, such as but not limited to use in inappropriate temperature, humidity or other improper environmental conditions; (b) force majeure or unexpected events, network or power outages, etc. that are beyond our reasonable control; (c) unauthorized repair or modification by non-Lenovo personnel; (d) any third-party products or services; (e) use of the product for purposes other than those specified or intended; or (f) use in any other manner contrary to the product's instructions. Normal wear and tear or aging of the product during use, scratches, abrasions, and problems caused by the use of paints, solvents or other chemical substances are not covered by the warranty. If the original identification label of the product is changed or damaged, this warranty will be void. The integrity and completeness of the product and its accompanying materials are not covered by the warranty. You must inspect the product on the spot upon receipt and raise objections to any non-compliance.

The following is our complete guarantee for the product, and it is only applicable within the jurisdiction of the Chinese mainland. This guarantee grants you specific legal rights. According to the law, you may also have other rights. Any content in this document does not affect the consumer rights that you cannot exclude or limit according to the law.

Product warranty information

Product Name	Warranty scope	Component Name	Warranty period (months)	Warranty type
Lenovo True Wireless Bluetooth Headphones	Main components Random data	The entire machine Attachment	12 N/A	Send for repair Not applicable

Notes and explanations
(1) This table does not provide a description of the product specifications and configurations. The actual specifications and configurations of the product shall prevail.
(2) When returning the product, you should properly package it and cooperate with the logistics provider for inspection. It is recommended to use the original packaging of the product. If the returned product is not within the warranty scope, we will contact you to handle it in the manner you confirm. Please ensure that your contact information is accurate and your communication is unobstructed. If the repaired or replaced product fails to be returned to you within two (2) months due to your reasons, it is considered that you agree to have us handle it in an appropriate manner.

Warranty card

When purchasing the product, please fill in the following information completely and clearly, and affix the seal of the seller to ensure your legitimate rights and interests.

User Information	User Name	E-mail
	Postal Address	
	Contact Number	Postal code
Product Information	Product Name	Product barcode / number / batch number
	Product model	
Seller Information	Name	
	Address	
	Contact Number	Postal code
	Sales Date	Invoice date
Note	Note: (1) This form should be stamped and confirmed by the seller. (2) For products that are subject to the relevant "three guarantees" regulations, this warranty card is equivalent to the "three guarantees certificate" and the maintenance record. The authorization service provider's maintenance certificate shall prevail. After applying for the service, please keep it properly.

Hazardous Substances Declaration

In order to comply with the relevant regulations and requirements of the "Administrative Measures for the Restriction of the Use of Hazardous Substances in Electrical and Electronic Products" (Order No. 32 of the Ministry of Industry and Information Technology of the People's Republic of China), the hazardous substances in this product are classified by components and the following statement is made:

Component Name	Harmful substances					
	(Pb)	(Hg)	(Cd)	(Cr(VI))	(PBB)	(PBDE)
Printed circuit board assembly	×	○	○	○	○	○
Shell and accessories	○	○	○	○	○	○

This table is compiled in accordance with the provisions of SJ/T 11364.

○ : It indicates that the content of this harmful substance in all homogeneous materials of this component is below the limit requirements stipulated in GB/T26572.

× : It indicates that the content of this harmful substance in at least one homogeneous material of this component exceeds the limit requirements stipulated in GB/T26572.

The harmful substances contained in this product are caused by the current technical limitations, where there are no alternative substances available for substitution. It complies with the requirements of the "Measures for the Restriction of the Use of Hazardous Substances in Electrical and Electronic Products" of China, and is within the scope of exemption from the EU RoHS regulations. Special considerations have been made during the product design to ensure that the appearance components are manufactured using non-toxic and harmless environmentally friendly materials. Under normal usage conditions by consumers, they will not come into contact with harmful substances and will not cause harm to the human body.

In the People's Republic of China, the symbols "Environmental Protection Use Period" (EPUP) will be printed on electrical and electronic products for sale. The numbers within the circle represent the normal environmental protection service life of the product.

Legal Notice

1. Before installing and using the product, please carefully read this document, especially the relevant safety instructions. Please properly keep this document for future reference.
2. The illustrations and functional descriptions in this document are provided for explanatory purposes only and are for reference only. The product is based on the actual physical appearance. Some components, functions and features mentioned in this document are for illustration purposes only and may only be applicable to certain specific models of the product. Unless otherwise explicitly stated, any content in this document is not a description of the specific specifications and configurations of the product. To understand the product specifications and configurations, please refer to the relevant specification documents of the product or consult the product seller. The product application and content may be updated from time to time. At such times, the actual situation may differ from this document.
3. The nominal storage capacity only represents the specifications. The actual available capacity for the user is lower than the nominal value. The technical performance indicators mentioned are based on specific environments and may vary depending on the settings and environment in other operating conditions.
4. Some products (specifically according to the product description) require network support to achieve all functions and may need to be used in conjunction with smart devices such as mobile phones. The software and Internet services mentioned are used in accordance with relevant licenses and/or service agreements. The use of network functions may consume data traffic and incur service fees, which are charged by your network service provider according to their standards.
5. Some network-based functions of the product may be supported by third-party network services. Such third-party services include their content not provided, guaranteed and supported by Lenovo, and may be terminated or changed at any time. The use of third-party services is subject to the terms and privacy policies of the third-party services, which may be different from Lenovo's regulations. Before using the related functions and services, please carefully read the terms of the third-party service. The third-party services and their contents are not controlled by Lenovo, and Lenovo assumes no responsibility for them.
6. If you use the software, peripherals or accessories provided with this product on other products, or use software, peripherals or accessories not recommended or permitted by the product specification documents on this product, you are responsible for their compatibility, reliability and legality by yourself.
7. None of the contents of this document constitutes any modification to Lenovo's product warranty policy.
8. This product is not designed for use in organ transplantation or other life-support systems. In such applications, if the product malfunctions, it may result in personal injury or death. The parts of this document that belong to the licensor (if any) are subject to the terms of the license. Without the prior written authorization of Lenovo, no person may copy, transcribe, delete, or compile any part of this document into a machine-readable format, or store it in any retrievable system, transmit it over a wired or wireless network, or translate it into any language in any form.
