

A technical line drawing of a circular mechanical component, possibly a watch movement or a small engine. The drawing shows a complex internal structure with various gears, levers, and a central shaft. A red diagonal line is drawn across the entire drawing, indicating that this component is not to be used or is obsolete. The drawing is labeled with 'D' at the bottom.

A circular diagram with a dashed red border. Inside the circle, the text "NEURALEONE" is at the top, "CEI" is on the right, and "CEI/NEI JOINT VENTURE" is at the bottom right. On the left side, the text "POCS NEURALEONE" is written vertically. At the bottom center, the text "IC:35680-NEURALEONE" is written.
