

E-Label Declaration

2.935 Electronic labeling of radiofrequency devices

- (a) Any radiofrequency device equipped with an integrated electronic display screen, or a radiofrequency device without an integrated screen that can only operate in conjunction with a device that has an electronic display screen, may display on the electronic display the FCC Identifier, any warning statements, or other information that the Commission's rules would otherwise require to be shown on a physical label attached to the device.

Information	On E-label	In Manual
FCC ID number	Yes	No
15.19 statement This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation	Yes	Yes
FCC Class B user manual statement	No	Yes
caution to the user that changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment	No	Yes

NR5331

Legal and Regulation

Model Name: NR5331
Product Name: 5G NR Indoor Product
US Importer: Zyxel Communications, Inc., 1130 North Miller Street Anaheim, CA 92806-2001

FCC ID: 2BV36NR5331
IC: 2468C-NR5331
Contains FCC ID: XMR2024RG620TNA
Contains IC: 10224A-023RG620TNA

FCC Warning Statement
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) This device must accept any interference received, including interference that may cause undesired operation.

ISED Warning Statement
Operation shall be limited to Indoor use only./Le fonctionnement doit être limitée à une utilisation à l'intérieur seulement.
CAN ICES (B) / NMB (B)

- (b) Devices displaying their FCC Identifier, warning statements, or other information electronically must make this information readily accessible on the electronic display. Users must be provided with prominent instructions on how to access the information in the operating instructions, inserts in packaging material, or other easily accessible format at the time of purchase. The access instructions may also be provided via the product-related Web site, if such a Web site exists; the packaging

material must provide specific instructions on how to locate the Web site information, and a copy of these instructions must be included in the application for equipment certification

The instruction on how to access the information is described in the Quick Start Guide in packaging.

- (c) Devices displaying their FCC Identifier, warning statements, or other information electronically must permit access to the information without requiring special codes, accessories or permissions and the access to this information must not require more than three steps from the device setting menu. The number of steps does not include those steps for use of screen locks, passcodes or similar security protection designed to control overall device access

The instruction on how to access the information is described in the Quick Start Guide in packaging. No special accessories plug-ins are required to access the information. To access the e-label information, user can type a web address "<http://192.168.1.1/legallInfo>" to see the e-label information.

- (d) The electronically displayed FCC Identifier, warning statements, or other information must be displayed electronically in a manner that is clearly legible without the aid of magnification;

Yes

- (e) The necessary label information must be programmed by the responsible party and must be secured in such a manner that third-parties cannot modify it.

The e-label information is pre-programmed by the grantee. The user cannot modify the e-label information.

- (f) (f) Devices displaying their FCC Identifier, warning statements, or other information electronically must also be labeled, either on the device or its packaging, with the FCC Identifier or other information (such as a model number and identification of a Web page that hosts the relevant regulatory information) that permits the devices to be identified at the time of importation, marketing, and sales as complying with the FCC's equipment authorization requirements. Devices can be labeled with a stickon label, printing on the packaging, a label on a protective bag, or by similar means. Any removable label shall be of a type intended to survive normal shipping and handling and must only be removed by the customer after purchase.

The FCC ID is present on the product packaging.
