POWER BANK FUNCTION DESCRIPTION

1. Switch function
Click the switch button, the wireless function starts working;
double-click the switch, stop working.
2. Enable wireless charging
Once the product automatically detects and adsorbs the mobile phone, the initial indicator light turns green, signifying that the wireless charging function of the mobile power supply has been successfully activated.
3. Check the remaining battery
Click the button, if one white light is on, it means the power is within 25%, if two white lights are on, it means the power is within 50%, if three white lights are on, it means the power is within 75%, and if four white lights are on, it means the power is within 100%. When the last light of the battery indicator flashes, the battery is less than 5%, please charge it as soon as possible.

USER GUIDE

1. It can be used as a magnetic wireless power bank and is compatible with iPhone 12 and above series mobile phones.
2. It can be used as a universal wireless charging power bank and is compatible with mobile phones that support the Qi2 wireless charging protocol.
3. It can be used as a portable and compact power bank, supporting over 99% of mobile phone charging.
4. It can be used as a wireless charger. Place it on the desktop and charge it at any time.

FAQ

When the power bank cannot be charged:

- It can be used as a magnetic wireless power bank and is compatible with iPhone 12 and above series mobile phones.
- It's recommended to choose a suitable power adapter for charging.

When the power bank cannot charge other devices:

- The power bank is too low, please charge it before using it.
- If the internal circuit of the power bank is faulty, please contact the after-sales service department of the local dealer for help.

PRODUCT PERFORMANCE

- 25W wireless output, magnetic absorption wireless fast charge.
- PD35W fast charge.
- It can be charged and discharged at the same time, and the mobile phone and power bank can be quickly charged at the same time.
- Power indicator light, display power.
- High-quality semi-solid batteries, safe and worry-free.

PRECAUTIONS

- * If the battery is not replaced properly, there is a risk of explosion. If a battery pack of the wrong model is used for replacement, there is a risk of fire or explosion. Only batteries of the same type or equivalent type can be used for replacement. Only maintenance personnel can replace it, not ordinary personnel. Within 50%, if three white lights are on, it means the power is within 75%, and if four white lights are on, it means the power is within 100%.

power is within 100%. When the last light of the battery indicator flashes, the battery is less than 5%, please charge it as soon as possible.

- * The battery must not be exposed to environments such as direct sunlight, fire or similar overheating conditions.
- * If consumers charge with a power adapter, they should purchase a power adapter that has obtained CCC certification and meets the standard requirements for use.
- * Batteries must not be disassembled, impacted, squeezed or thrown into fire. If severe swelling occurs, do not continue to use. Do not place in a high-temperature environment. Do not use after soaking in water.
- * When in use, it should be placed in a location that is easy to dissipate heat. Do not use it on the bedside, bedding, in packages or in other environments that are difficult to dissipate.
- * Avoid erosion by rainwater or other liquids, and keep infants and young children away from playing with it.
- * During the use of this device, it may get slightly warm, but it is normal for it not to be hot to the touch.
- * Please always keep the product dry and do not clean or scrub it with chemical reagents.

MAINTENANCE

1. It is recommended that the following operations be performed when using this product for the first time:
 - 1) Fully charge the power bank to 100%.
 - 2) Then discharge the power bank to 0% (complete discharge).
 - 3) Lastly recharge the power bank from 0% to 100% (complete charge).

In wireless charging mode, only ordinary 5W charging can be performed. When you stop charging the power bank, it will restart automatically, and Wireless charging can enter fast charging mode.

SPECIFICATIONS

- Product Name: Portable power source
- Model: PB-67
- Capacity: 5000mAh 19.25Wh/3.85V
- Rated Capacity: 2500mAh (5V→3A)
- USB-C Input: 5V→3A/9V→2.22A
- USB-C Output: 5V→3A/9V→3A/15V→2.33A/20V→1.75A
- Wireless Output: 5W/7.5W/10W/15W/MPP 25W
- Material: Liquid silicone + ABS + PC + Aluminum Alloy
- Battery Type: Semi-Solid Battery
- Product Size: 101*68*11.5mm
- Net Weight: 150.5±2g

FCC Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment complies with the FCC radiation exposure limits set forth for an uncontrolled environment, This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
