1 . product picture :

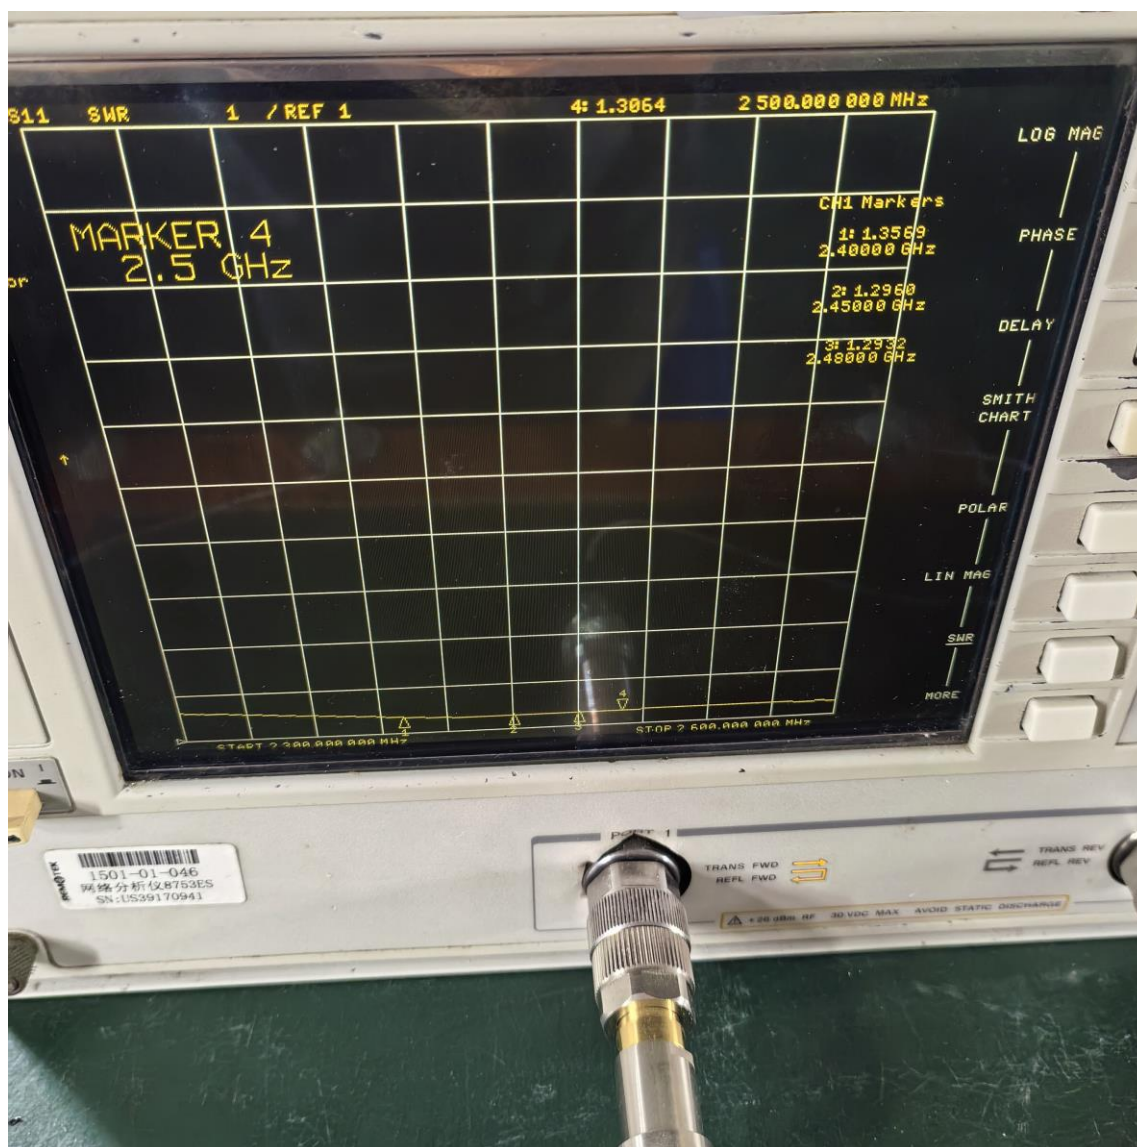

2 . technical parameter

model	adhesive rod antenna ZJTX-096C
frequency range	2400-2500MHZ
standing wave ratio coefficient	<2
input impedance	50 Ω
gain	2.5 dBi
Polarization Form	vertical polarization
radiation direction	omnidirectional
Input Interface	SMA-J elbow
Antenna housing	black
Antenna size	Φ8X50
working temperature	-20°C~80°C
