2 Label example

The following figures show examples of the label that will be placed on the HNT 200 product family, one with the CRUUS-logo and one without it:

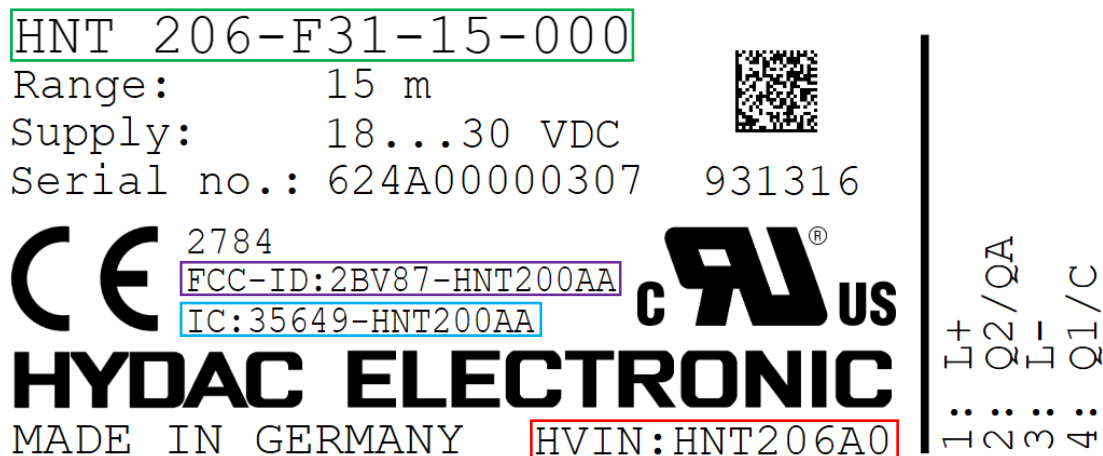

Figure 1: Label of the HNT 200 product family with CRUUS-logo

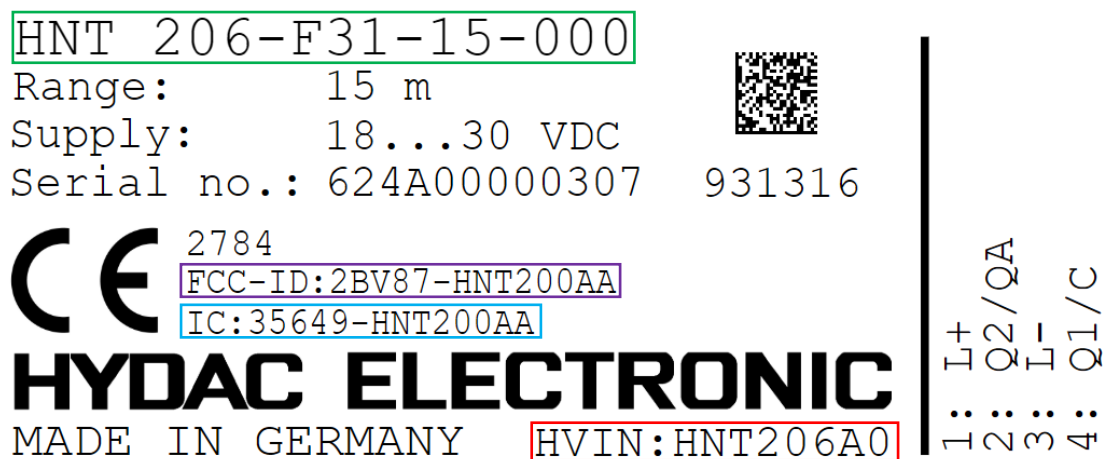

Figure 2: Label of the HNT 200 product family without CRUUS-logo

The FCC-ID is marked with a purple box, the ISED-ID is marked with a blue box. The model name is marked with a green box and the HVIN is marked with a red box. All boxes are for indication purposes only; they will not be present on the actual label.

3 Label location

In the following figure, the **red box** indicates the **location of the label** on the HNT 200 product family:

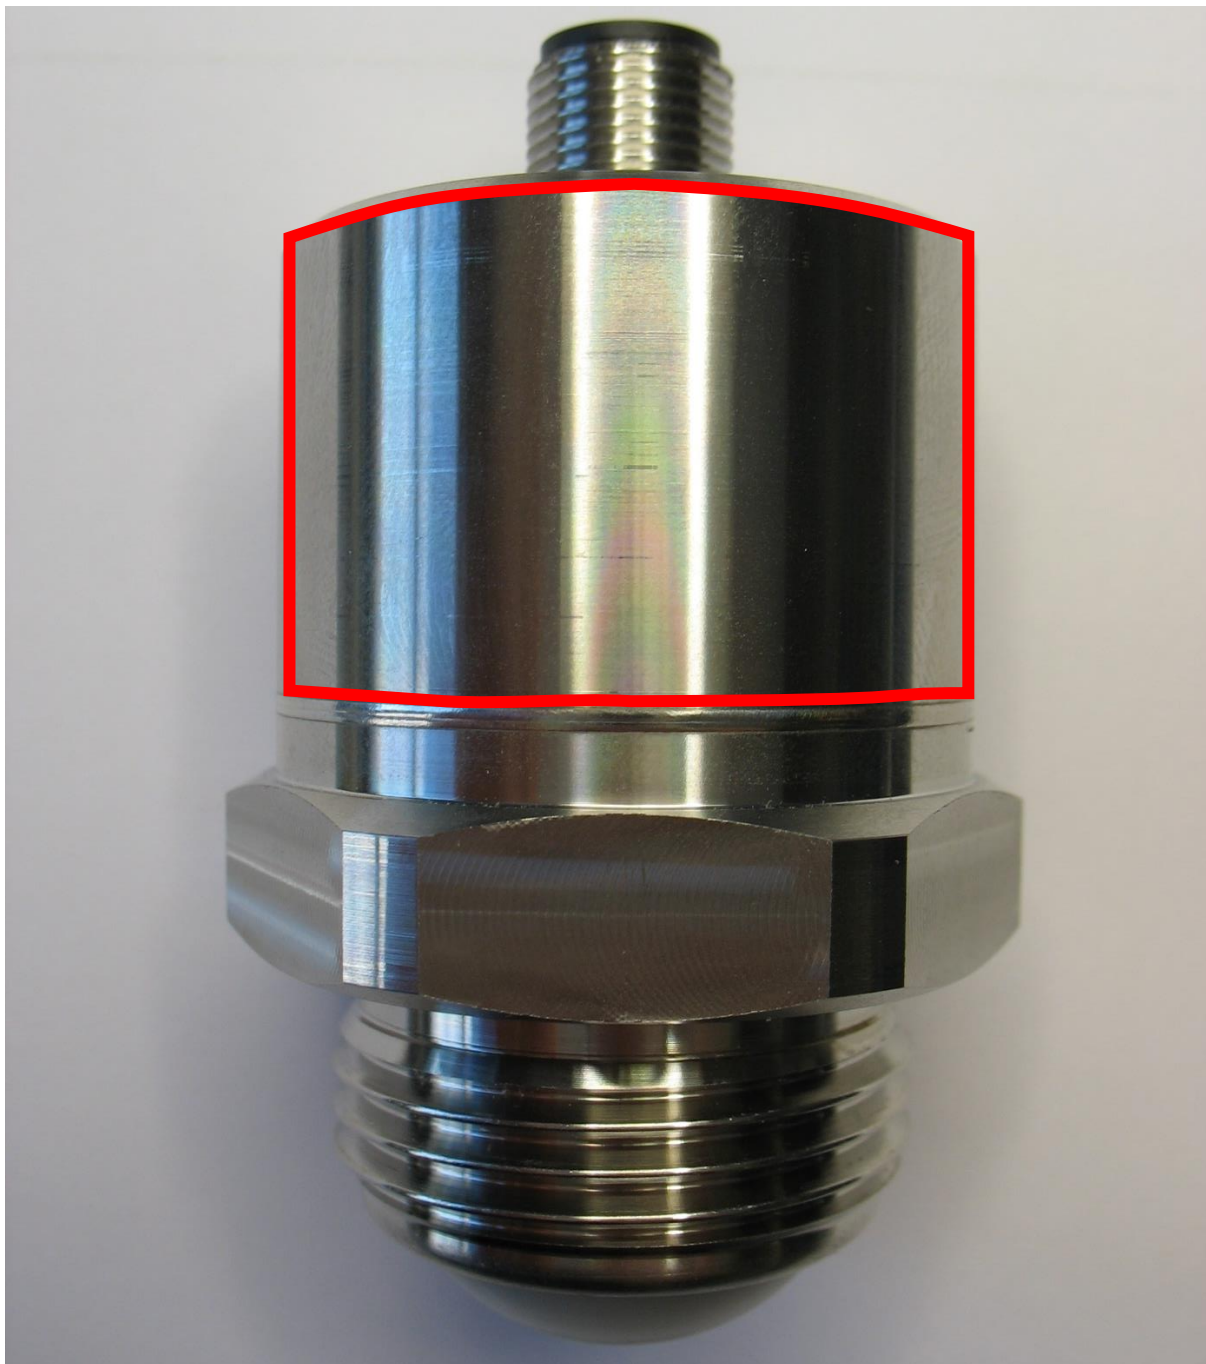

Figure 3: Location of the label on the HNT 200 product family

The label is applied using laser engraving.
