

User Manual

C201 Smart Charging Cabinet

Packing List

Model Name: C201

- User Manual ×1
- 24V 4A Power Adapter ×1

Product Introduction

1 Introduction

This is an intelligent charging cabinet designed for 4G Mi-Fi devices. It features 12 power supply slots, enabling power supply and startup for Mi-Fi devices. It supports plug-and-charge functionality, keeping Mi-Fi devices operating stably for a fast and reliable internet experience.

This guide provides instructions for the installation and use of the device.

2 Product Appearance

Only the front view line drawing is shown here. The actual product appearance shall prevail.

3 Buttons and Interfaces

Buttons & Interfaces	Function Description
1. Power Button	I = On / O = Off
2. Adapter Port	Connect to the power port; use the adapter to connect a 24V 4A power supply

4 Operating Instructions

Connect the 24V 4A power adapter to the power supply, then turn on the power button (I for On / O for Off) to power on the device.

FCC Caution.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20 cm between the radiator & your body.
