

Instruction Manual

01

Getting to Know Your Device

Power Button

Press and hold to turn on/off.

Camera Button

Press to open the camera / take a photo.

Volume +/- Buttons

Increase/Decrease volume

AI Button

Short press to generate target content

Back Button

Back / Exit

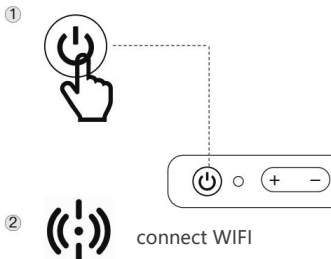

Charging/Data Port

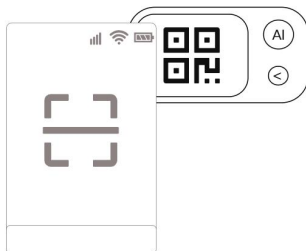

SIM & Memory Card Slot

02

1. Power on and connect to a network (SIM card or Wi-Fi).

2. A pairing QR code will appear. Scan with the "Oroa" app or skip.

03

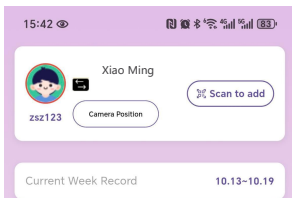

Device Activation & Binding

To bind your device, use the "Oroa " app and follow these steps:

1. Scan the QR code below with your phone to download the "Oroa" app and log in.

2. Open the "Oroa" app, log in, go to the Homepage, then scan to bind.

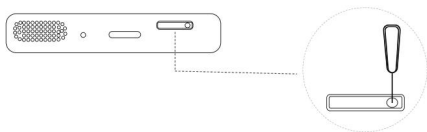

04

SIM/Memory Card Installation

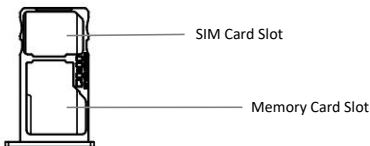

Connectivity: Use Wi-Fi or insert a SIM card.

Steps:

1. Eject the card tray with the provided pin.

2. Place your card in the tray and push it back in firmly.

Safety Information

Important Safety Instructions

1. Operating Temperature: Use between 32°F and 95°F. Avoid extreme temperatures to prevent malfunction. Note: Battery performance declines below 41°F.

2. Environment: Avoid areas with high/low temperatures, high humidity, or strong electromagnetic fields.

3. Battery Safety (Non-removable): Do not disassemble, modify, crush, puncture, short-circuit, or expose to liquids. Such misuse may cause leakage, overheating, fire, or explosion.

4. Hearing Protection: Use at a moderate volume to protect your hearing.

5. Child Safety:

Contains small parts. Keep children from striking, dropping, or pulling the device to avoid choking hazards.

Children under 3 must be supervised by an adult during use.

6. Device Care: Avoid moisture, deformation, exposure to extreme heat, or physical damage.

7. If Problems Occur: In case of impact, leakage, foreign object entry, or if the device is damaged, swollen, overheated, emits smoke, burns, or has an unusual odor, power off and discontinue use immediately.

8. Airplane Safety: Power off the device before boarding. Using it during flight is prohibited by law as it may interfere with aircraft systems and cellular networks, and may lead to legal penalties.

9. Regulatory Compliance: Use only where permitted by local regulations. Power off in restricted areas (e.g., hospitals, gas stations) or where use may cause interference or danger.

Product Safety Guideline

1.Child Supervision Requirements: This product contains small parts that pose a choking hazard. Children under three years of age are strictly prohibited from accessing or operating the device unsupervised. An adult must provide continuous supervision during use.

2.Device Condition Maintenance:

Regularly inspect the product's casing, ports, and components.

If you discover a cracked housing, loose structure, functional failure, or any other abnormality, immediately cease using the product. Do not resume use until the device has been thoroughly repaired and confirmed to be safe.

3.Environmental Disposal Obligation: Do not dispose of this product with ordinary household waste. Improper disposal may lead to environmental contamination by hazardous substances. Please comply with local regulations and hand over the product to an authorized recycling facility for environmentally sound processing.

4.Focused Use Safety Guidance: Using this product can easily distract your attention from the surrounding environment.

Always use the product in a safe, stable, and unobstructed fixed location (e.g., a secure indoor area).

It is strictly forbidden to use the product while in motion (such as walking, going up or down stairs), near hazardous areas (e.g., the edges of bodies of water, construction sites, traffic intersections), or in any environment that requires a high level of alertness.

5.AI Function Service Notice and Disclaimer:

The image recognition and content generation functions provided by this product are based on artificial intelligence technology. The output may contain inaccuracies, omissions, or errors, and the accuracy, completeness, and reliability of the content cannot be guaranteed.

The generated content is solely the result of technical processing and does not represent any views or positions of our company.

User Acknowledgment: Please strictly treat this service content as auxiliary reference information only.

It is absolutely prohibited to use it as a direct basis for decision-making or as a guide for actions involving personal safety, health, critical operational procedures (such as medical, cooking, or equipment operation), or risk assessment.

Our company shall not be held legally liable for any adverse consequences or losses arising from the user's reliance on the aforementioned service content for judgment or operation.

Product Warranty Card

This product is covered under the national "Three Guarantees" policy from the date of purchase. Our company provides a one-year warranty service for the product.

This warranty does not cover the following circumstances:

1.**Expired Warranty:** The product is beyond the return, replacement, or warranty period.

2.**Missing Proof of Purchase:** A valid purchase receipt or invoice cannot be provided.

3.**User Damage:** Malfunctions resulting from misuse, improper storage, or accidents (e.g., impact, physical deformation, liquid exposure).

4.**Unauthorized Repair:** Damage caused by disassembly or repair attempts by non-authorized personnel.

5.**Environmental Non-Compliance:** Damage caused by use or storage outside specified environmental limits (temperature, humidity, strong electromagnetic fields).

6.**Force Majeure:** Damage caused by natural disasters such as fire, flood, or earthquake.

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Specific Absorption Rate (SAR) information:

This device meets the government's requirements for exposure to radio waves. The guidelines are based on standards that were developed by independent scientific organizations through periodic and thorough evaluation of scientific studies. The standards include a substantial safety margin designed to assure the safety of all persons regardless of age or health. FCC RF Exposure Information and Statement the SAR limit of USA (FCC) is 1.6 W/kg averaged over one gram of tissue. Device types: device has also been tested against this SAR limit. This device was tested for typical body-worn operations with the back of the device kept 0mm from the body. To maintain compliance with FCC RF exposure requirements, use accessories that maintain an 0mm separation distance between the user's body and the back of the device. The use of belt clips, holsters and similar accessories should not contain metallic components in its assembly. The use of accessories that do not satisfy these requirements may not comply with FCC RF exposure requirements, and should be avoided.
