Before Device Installation

Wall-Mounting Tips

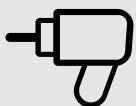

Take the height of all device users into consideration. It is recommended to install the device at an eye-level height.

Ensure sufficient space for both horizontal and vertical mounting orientations.

Do not drill holes above wall studs, electrical wires, or pipes.

Before installation, unplug the device from the power socket and keep it away from water sources.

Download Vcivik app on your mobile phone

To share your schedule with compatible calendar devices worldwide, please first download the free Vcivik app on your mobile device.

Search for "Vcivik" in the App Store (iOS) or Google Play (Android) to download the Vcivik app.

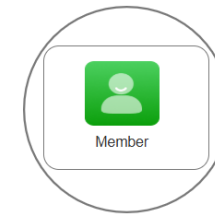

Bind and Connect Devices

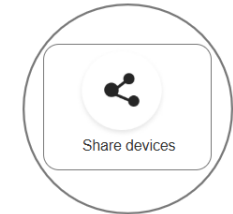

To synchronize your schedule with the Calendar, you need to connect the Vcivik app to the Calendar device. Follow the steps below for connection:

Download the "Vcivik APP" through your rmobile phone

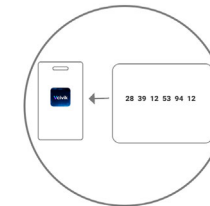

Open the device's member management

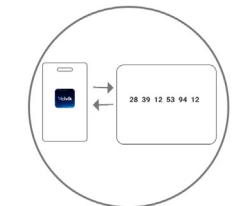

Open Share Device

View the device sharing code; this code is valid for 12 hours.

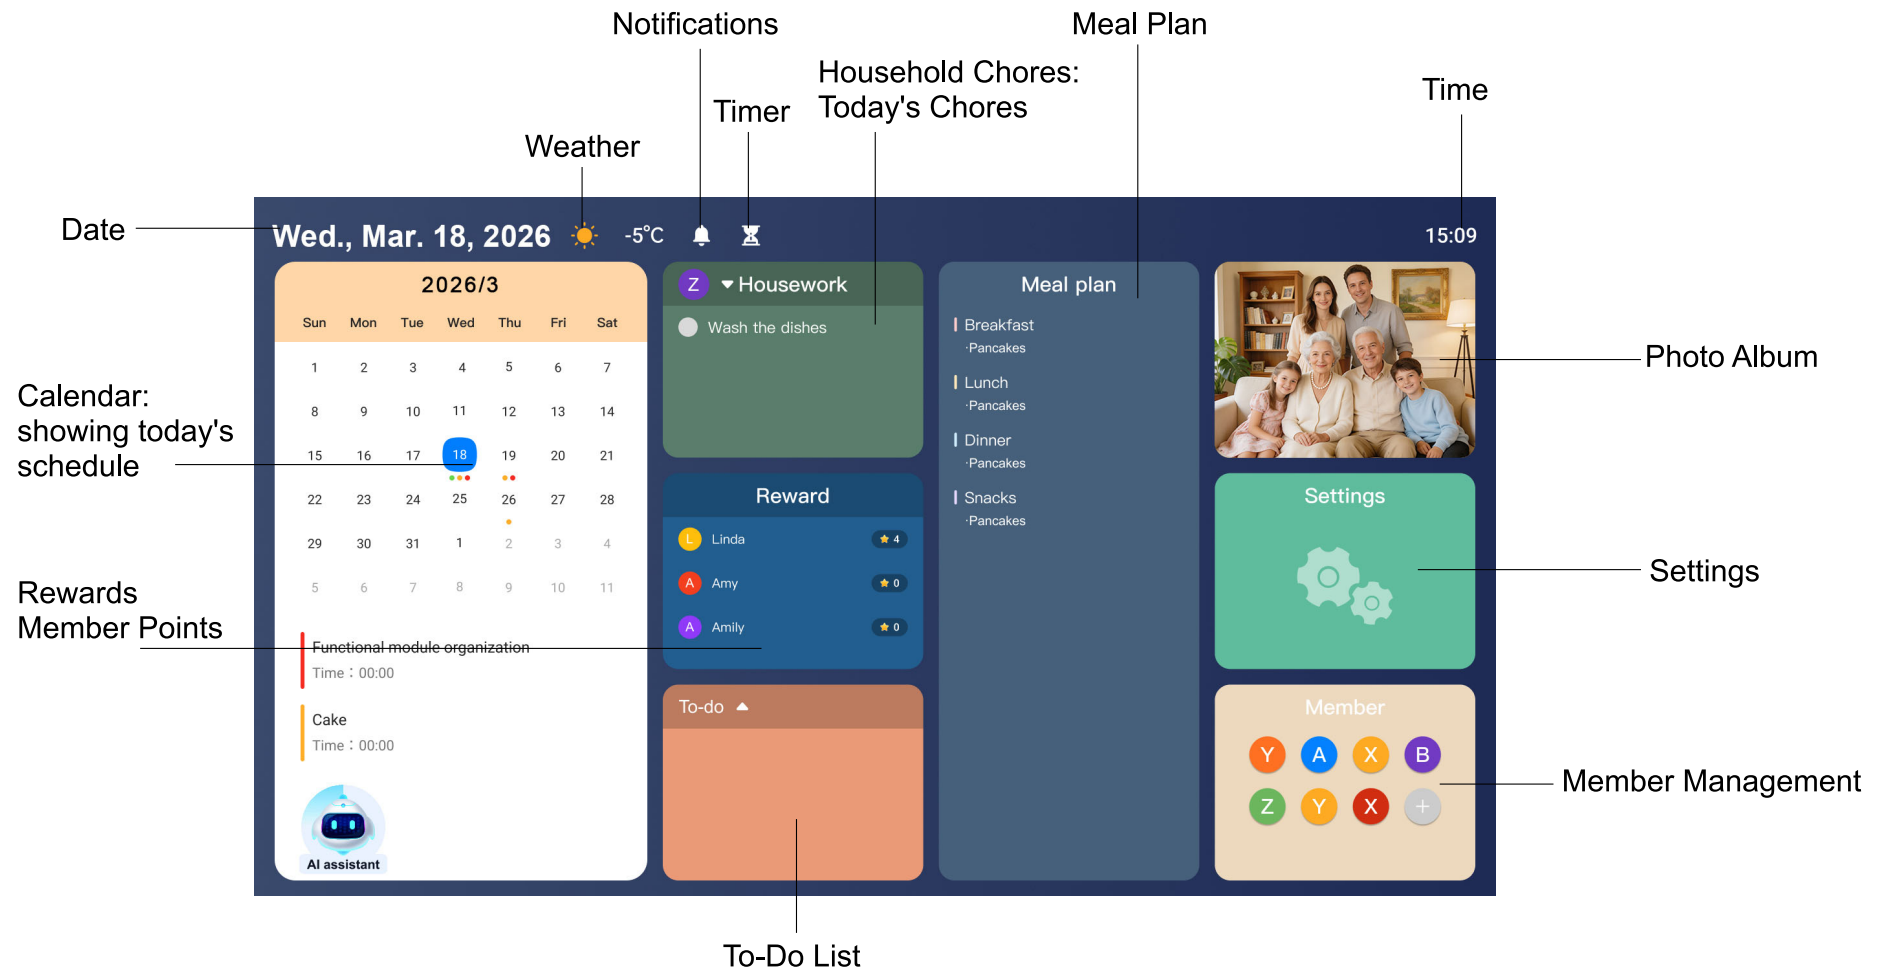

Enter the device code in the "Vcivik APP" to bind the device

You can now synchronize your mobile phone with the calendar

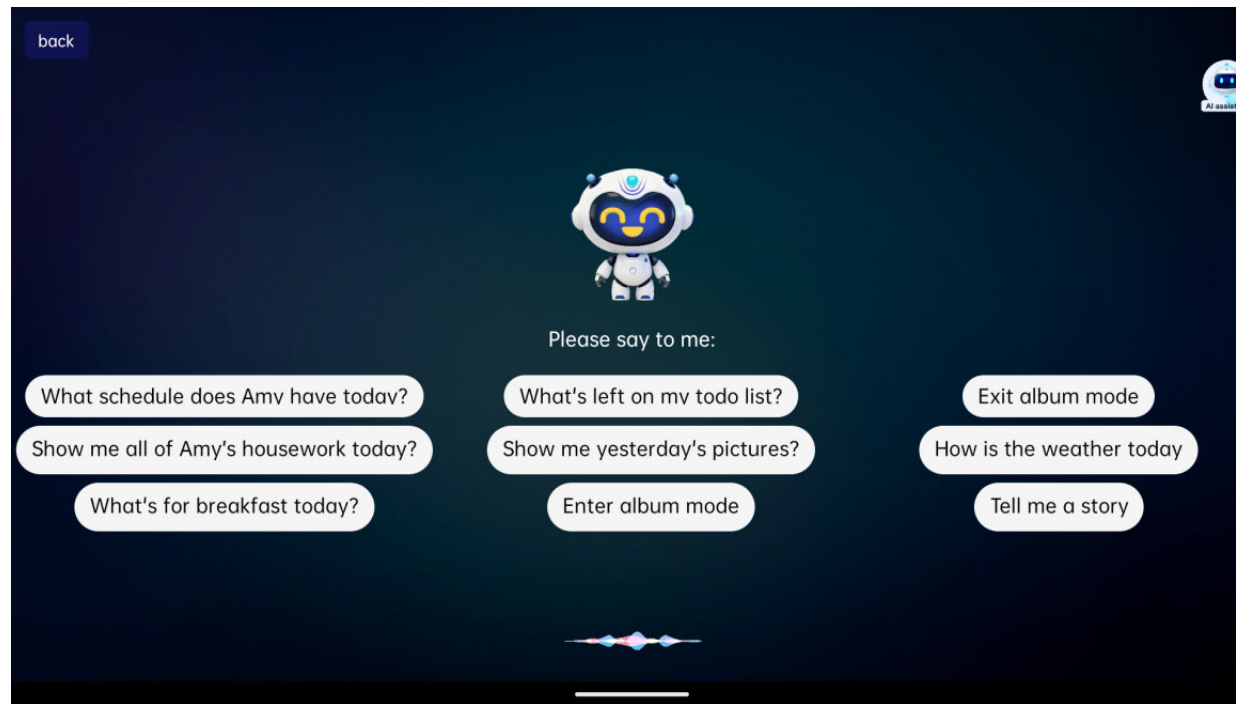

Functions on Device Home page:

The home page serves as the main dashboard for family collaboration and management, integrating eight core modules: Calendar, Chores, Rewards, To-Do List, Meal Planning, Photo Album, and Member Management. Users can quickly view the current month's dates, to-do lists, chores, member rewards, and daily meal plans.

Voice Wake-up Interface

Once you have completed the basic setup and entered the main interface of the digital calendar, you can use the voice assistant to wake up your device. Simply say: "Hi, Viki!" The device will then display the following windows and features:

A series of common voice command cards will typically be listed at the bottom of the window to guide new users:

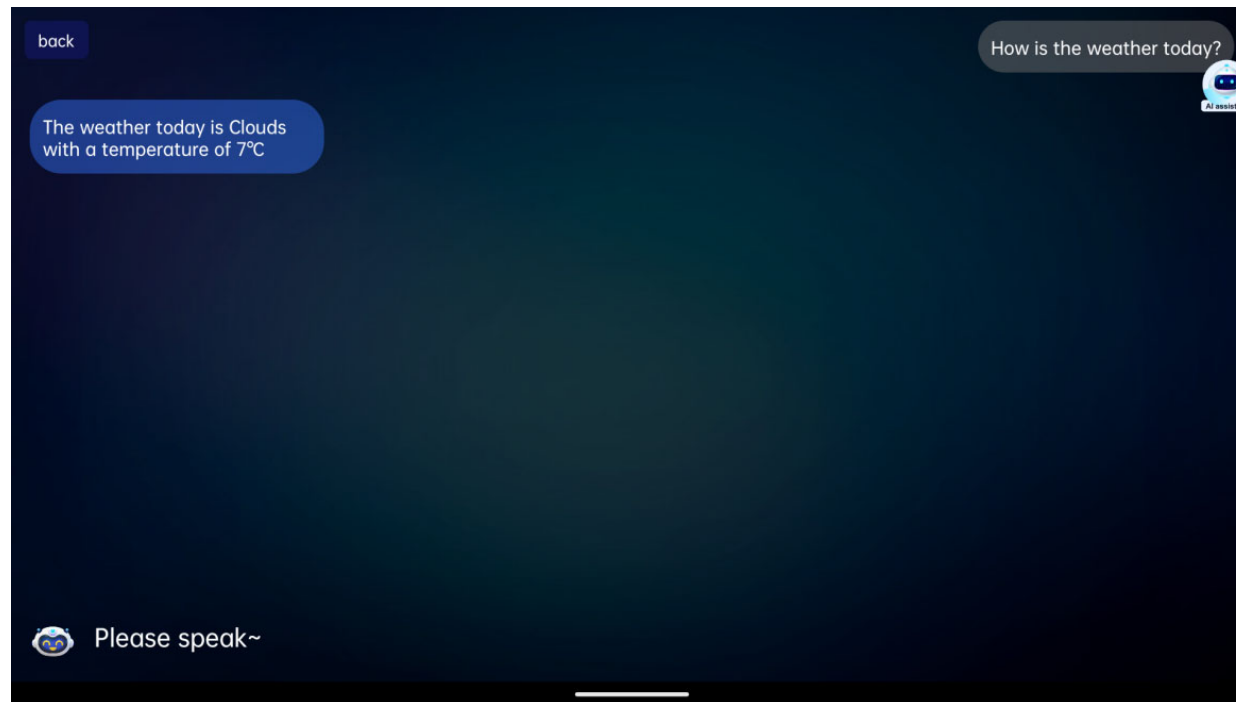

AI Voice Interaction Mode

Experience seamless AI Voice Conversation with Viki. You can ask the AI assistant questions ranging from general knowledge to real-time data.

"Hi, Viki! How is the weather like today?"

"Hi, Viki! Tell me a story.."

"Hi, Viki! How many ounces are in a cup?"

The assistant stays active for 15 seconds after replying, allowing you to ask follow-up questions. It will auto-exit after 15 seconds of inactivity. To re-activate, say 'Hi, Viki!'

Voice Command Interaction

Truly Hands-Free Experience. Stop tapping and start talking. Our digital calendar eliminates the need for manual input, letting you control everything with simple voice commands:

Manage Tasks: Create to-do lists and reminders instantly.

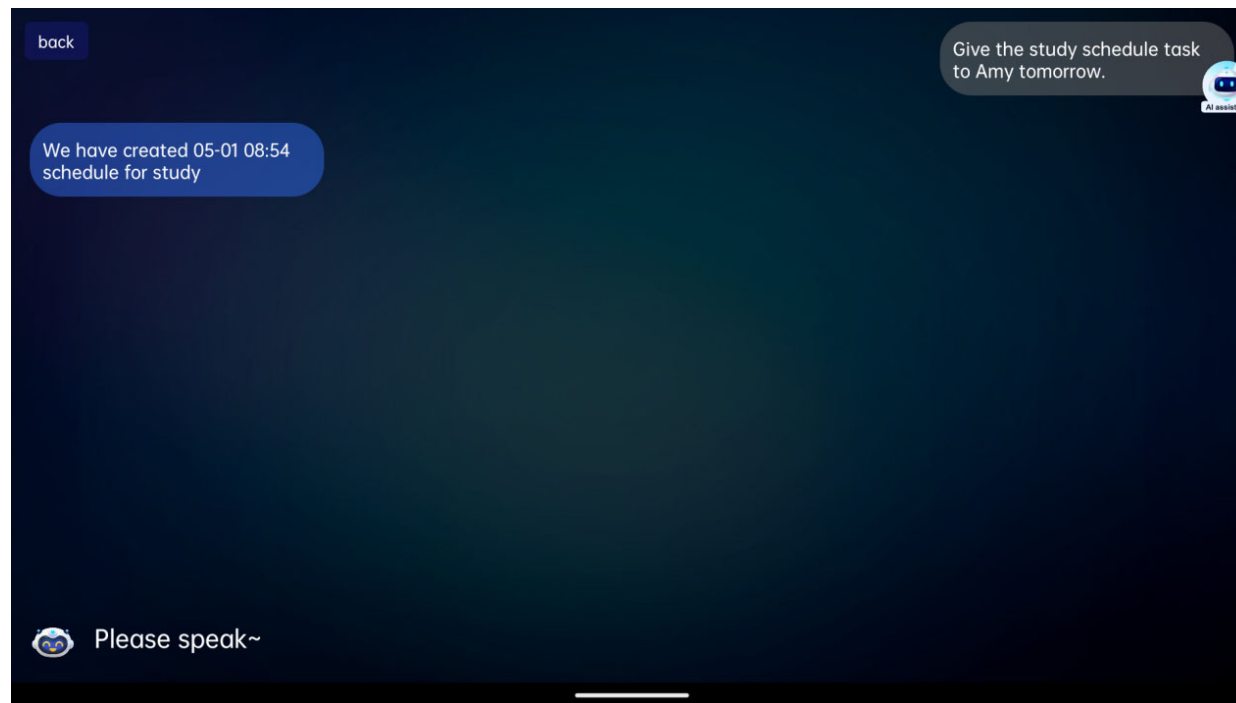

Timers & Alarms: Stay on schedule with voice-set alerts.

Kitchen Companion: Easily look up and follow recipes.

Memories: Open and browse your photo gallery with ease

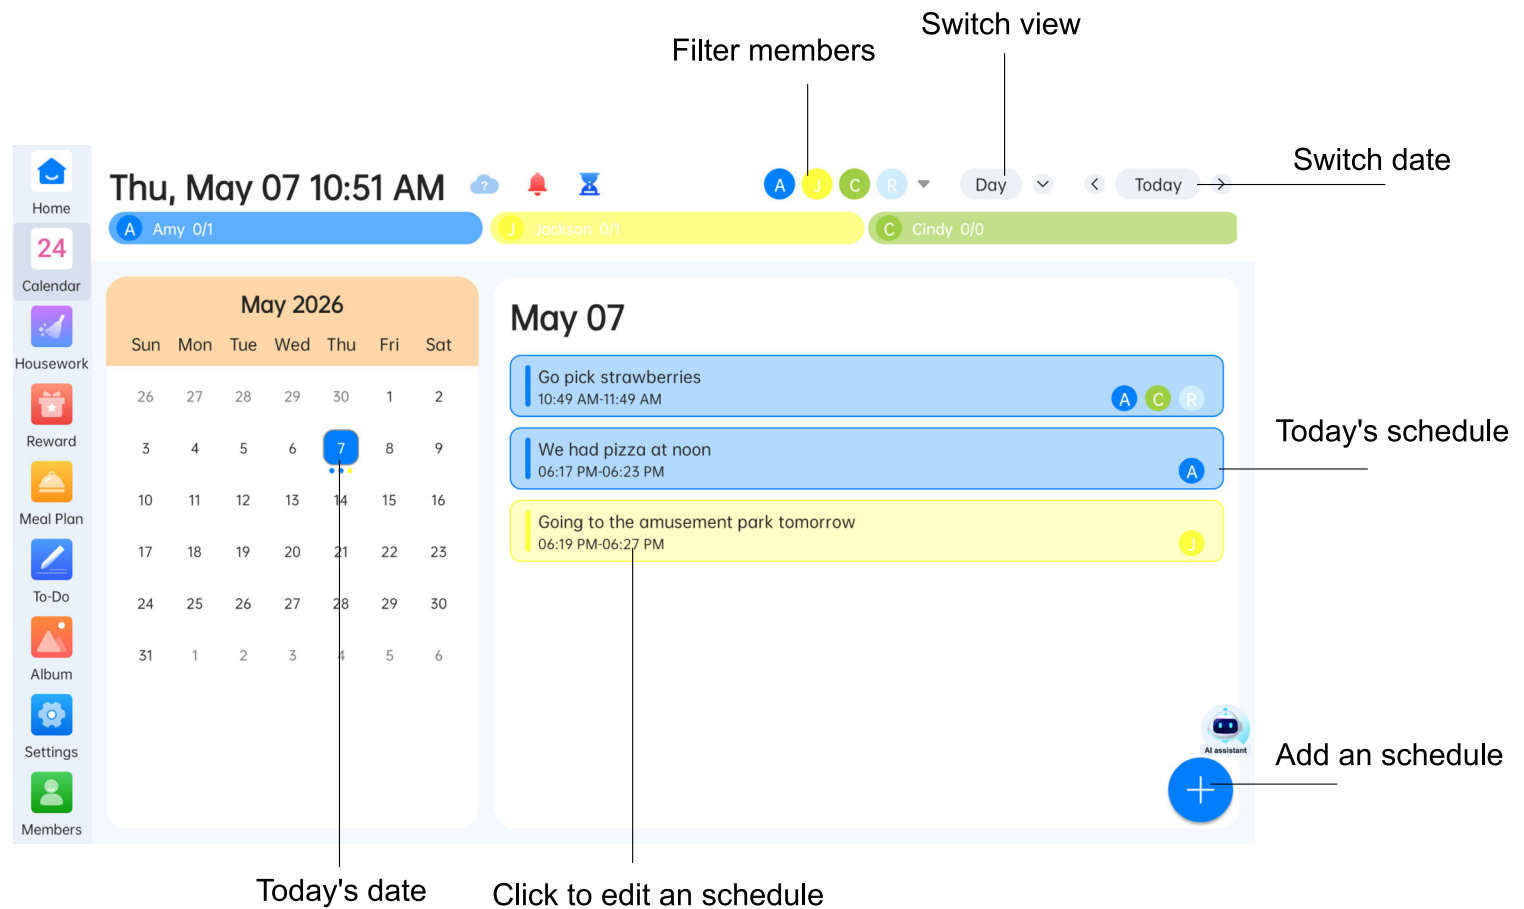

For a complete list of supported voice commands, please tap the link below:

Calendar Features

The Calendar module is a time management and event reminder tool that helps you record and keep track of important dates, daily schedules and countdown events.

Introduction to Household Functions

The Household Chores module is a task allocation and progress tracking tool within the Family Collaboration Dashboard, designed to create, assign and track the completion of daily household chores. It displays all household tasks in a list format, links them to family members, and tracks each person's progress in real time.

Introduction to Meal Planning

The Meal Planning module is a dietary planning and menu management tool within the Family Collaboration Dashboard. It helps family members organize daily meals (breakfast, lunch, dinner) in advance, as well as manage snacks and dining out. It supports a weekly view to display the menu and allows you to add specific dishes.

Introduction to the Rewards Feature

The Rewards Module serves as the Incentives and Redemption Centre within the Family Collaboration Dashboard. It enables parents to create reward tasks (via the 'vcivik' mobile app), whilst family members earn stars (points) by completing household chores. Once they have accumulated enough stars, they can redeem them for corresponding rewards. This module links household chores with positive incentives, fostering a sense of responsibility and purpose among family members.

Introduction to the To-Do List Feature

The Rewards Module serves as the Incentives and Redemption Centre within the Family Collaboration Dashboard. It enables parents to create reward tasks (via the 'vcivik' mobile app), whilst family members earn stars (points) by completing household chores. Once they have accumulated enough stars, they can redeem them for corresponding rewards. This module links household chores with positive incentives, fostering a sense of responsibility and purpose among family members.

The screenshot displays the 'To-Do' section of the Family Collaboration Dashboard. The interface includes a sidebar with navigation icons for Home, Calendar, Housework, Reward, Meal Plan, To-Do, Album, Settings, and Members. The main content area shows a list of tasks categorized by color: 'Purchase daily necessities' (blue, 3 items), 'Spring outing' (yellow, 1 item), and 'Family chores' (pink, 0 items). A task list on the right shows 'buy strawberries' (unchecked), 'shampoo' (checked), and 'toothpaste' (unchecked). A '+Add Sub-Tasks' button is at the bottom. Annotations with leader lines point to various elements: 'Number of sub-tasks in the to-do list' points to the '3 Items' badge; 'Add a to-do item' points to the bottom '+' button; 'Show / Hide Redeemed Rewards' points to the 'Show Completed' toggle; 'This status indicates the task is complete' points to the checked 'shampoo' checkbox; 'This status indicates the task is incomplete' points to the unchecked 'toothpaste' checkbox; and 'Add a sub-task to the to-do list' points to the '+Add Sub-Tasks' button.

Introduction to the Photo Album Feature

The Photo Album module serves as the family media centre within the Family Collaboration Management Panel, enabling parents to upload photos and videos from their mobile devices (via the vcivik app) to shared devices, where they can be viewed by all family members at any time. It supports both individual and batch uploads of photos, whilst videos can only be uploaded individually; these can be displayed in a loop as a digital photo frame to showcase family memories.

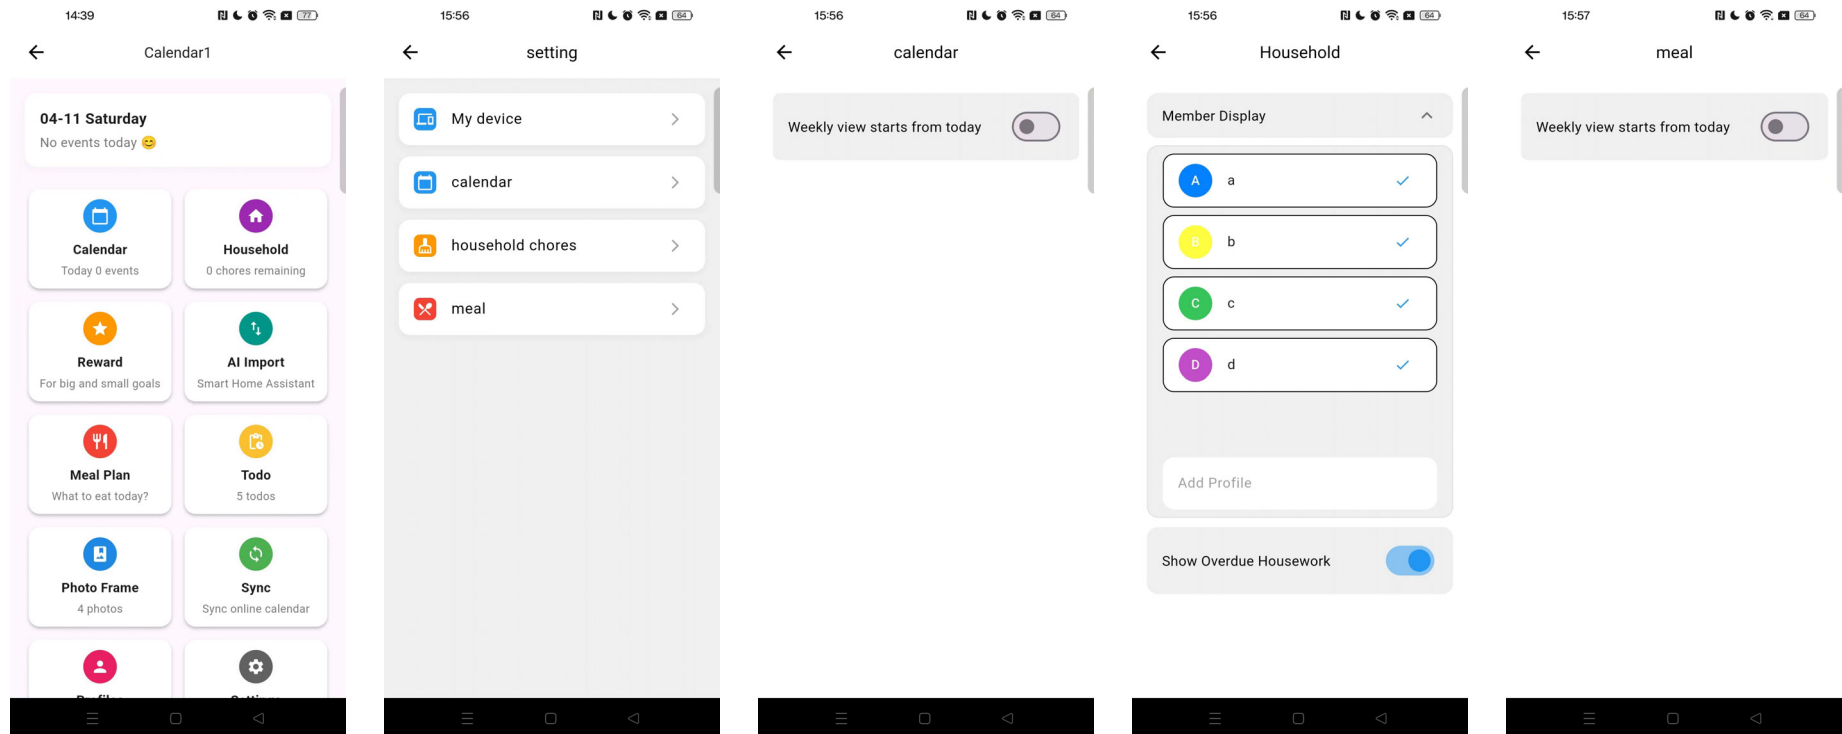

About the Settings Feature

The Settings module serves as the system configuration hub for the home collaboration management panel, allowing you to manage device networks, general settings, display effects, audio, customisation options for various functional modules, screen savers, and access help and ‘About’ information. It forms the cornerstone of the smooth operation of your home devices and a personalised user experience.

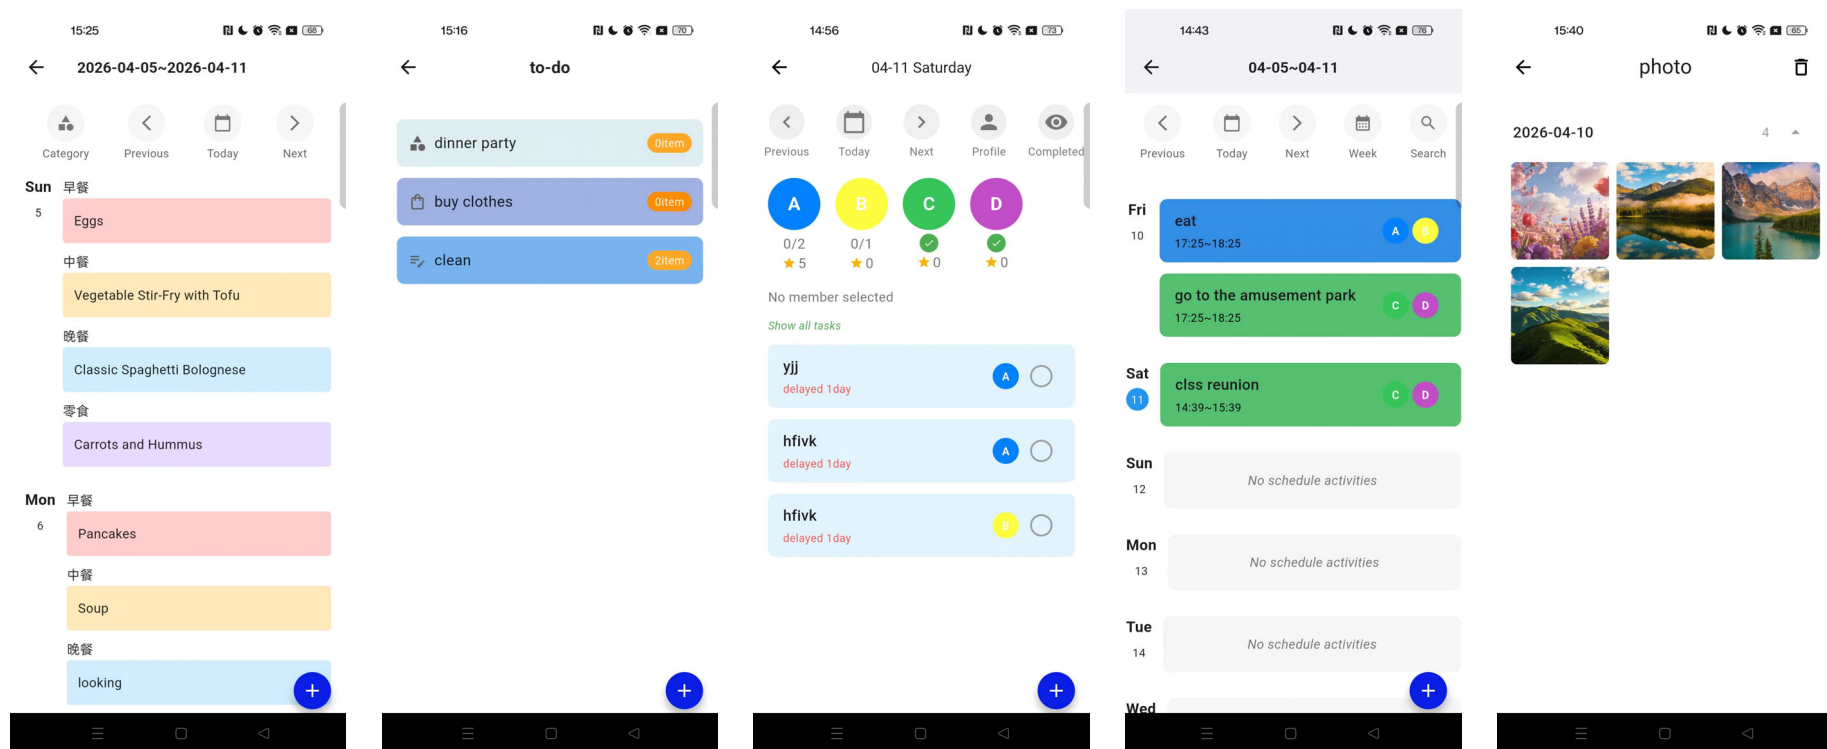

Introduction to Main Functional Pages on Mobile App:

Star Assignment:

Create rewards and set rules together.

When you have collected enough stars, you can redeem our pre-agreed rewards with them! Rewards can be items or a special experience.

Rewards are created by parents on the mobile app, and children can view their rewards and progress on the device

Factory Reset

Deletes all data from your frame. This will permanently delete all your photos/videos, contacts, and settings.

Warranty & Contact Us

Limited One-Year Warranty

We offer a one-year quality warranty on all products, valid from the date of purchase, and subject to the following terms and conditions:

If a quality defect is discovered within the warranty period, the manufacturer is responsible for repairing or replacing the device at no charge to the customer.

This warranty does not apply to damages caused by improper use, accident, exposure to water, or if the product was altered or repaired by anyone other than the Manufacturer's Service Center.

The manufacturer shall not be liable for any incidental or consequential damages arising from the use, misuse, or mounting of the photo frame.

All information in this manual is based on the latest information available at the time of publication. We reserve the right to make changes at any time without notice.

Help & About

User guide

Opens the quick start guide that is shown during initial setup of the frame

Check for Updates

Check for available software updates and download/install them on your frame.

Feedback

We strive to continuously improve our product and user experience, If you have any questions, comments, or suggestions, please reach out to us by email or through the support feature in the Vcivik app.

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by the manufacturer could void your authority to operate this equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

RF Exposure Information

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.
