2

CHARGING THE HEADPHONE CARGANDO TUS AUDIFONES

Charging: when charging, a green LED light will illuminate. The light will turn white when your unit is fully charged. The battery capacity is 200mAh.

Cargando: Durante la carga, se encenderá la luz LED verde. Cuando su dispositivo esté completamente cargado, el indicador se volverá blanco. La capacidad de la batería es de 200 mAh.

3

Using Your Headphones Usando Tus Auriculares

Power ON/Power OFF Your Headphones:

- Press and hold the power button for about three seconds to turn the headphones on. The headphones will automatically connect to the last paired phone.
- Once powered on, press and hold the power button again for about five seconds to turn off the headphones. The indicator light will briefly turn white and flash three times before turning off.

Encienda/apague sus auriculares:

- Mantén presionado el botón de encendido durante aproximadamente tres segundos para encender los auriculares. Los auriculares se conectarán automáticamente al último teléfono emparejado.
- Una vez encendidos, mantén presionado el botón de encendido nuevamente durante aproximadamente cinco segundos para apagarlos. La luz indicadora se volverá blanca y parpadeará tres veces brevemente antes de apagarse.

Pairing Your Headphones With a Bluetooth Phone:

Press and hold the power button for 5 seconds. When your headphones are ready to pair with a Bluetooth audio source, they will enter pairing mode, and the white light will flash rapidly.

Emparejando sus auriculares con un teléfono Bluetooth:

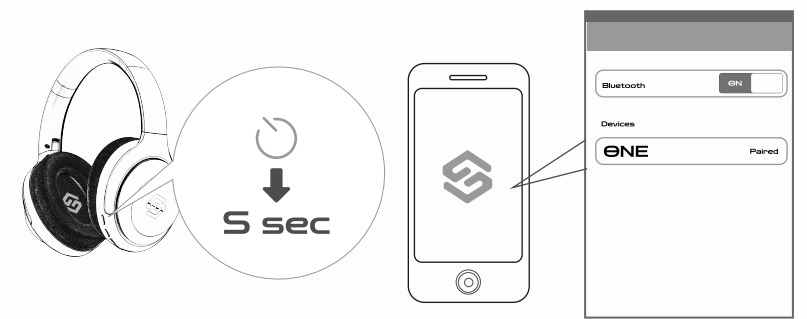

Mantenga presionado el botón de encendido durante 5 segundos. Cuando sus auriculares estén listos para emparejarse con una fuente de audio Bluetooth, entrarán en modo de emparejamiento y la luz blanca parpadeará rápidamente.

4

Pairing bluetooth device Vinculación de dispositivo bluetooth

-Go to the Bluetooth Manager of your Bluetooth device. Search Bluetooth devices and select "ONE" to start connecting.
-If required, enter the PIN code "0000" and confirm the entry.

-Vaya al Administrador de Bluetooth de su dispositivo Bluetooth. Busque dispositivos Bluetooth y seleccione "ONE" para iniciar la conexión.
-Si es necesario, ingrese el código PIN "0000" y confirme la entrada.

5

Listening To Music Escuchando Musica

Play/Pause

Press the Power button to get music from your audio source to play or pause.

Reproducir /Pausar

Presione el botón de Encendido para obtener música de su fuente de audio para reproducir o pausar.

Next /Previous Song

Press and hold the volume Up or volume Down buttons for two seconds to advance to the next song or go back to the previous one.

Cancion siguiente /Anterior

Mantenga presionados los botones para subir o bajar el volumen durante dos segundos para avanzar a la siguiente canción o para regresar a la anterior.

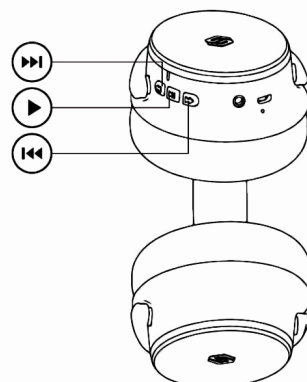

Increase/Decrease Volume

Press the volume Up or volume Down buttons to increase or decrease the volume.

Aumentar/Disminuir el volumen

Presione los botones para subir o bajar el volumen. Para aumentar o disminuir el volumen.

NOTE:
Music will automatically pause when a call is dialed out or when there is an incoming call. It will resume when the call ends.
NOTA:
La música se detendrá automáticamente cuando se marque una llamada o cuando haya una llamada entrante. Se reanudará cuando la llamada termine.

6

Free Hands Manos Libres

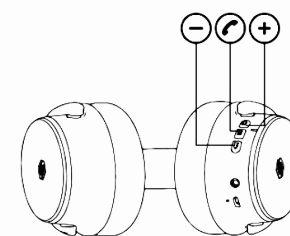

Using Your Headphones During Phone calls

FCC Caution:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception,

which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement.

The device can be used in portable exposure condition without restriction.
