

Xband User Manual

Product Name: Xband

Product Model: B-xbandV9

Thank you for choosing the Xband Smart Watch Band! This user manual provides important safety information, installation instructions, usage guidelines, and maintenance tips. Please read it carefully before use and keep it for future reference.

1. Package Contents

Xband Smart Watch Band × 1

Tool Kit × 1

Quick Start Guide × 1

2. Product Overview

The Xband (Model: B-xbandV9) is a premium replacement strap designed for compatible smartwatches. It features quick-release pins for easy installation, durable materials for daily wear, and ergonomic design for comfort.

Key Features:

- Quick-release mechanism for fast band swapping
- Skin-friendly material (fluoroelastomer)
- Water-resistant (5ATM)
- Compatible with 20mm interfaces

3. Safety Information & Warnings

Do not wear during high-impact activities if the band material is not designed for it.

Avoid prolonged exposure to extreme heat (>60°C/140°F), chemicals, or solvents.

Keep away from sharp objects to prevent scratches or damage.

This product is not a medical device. Do not use for diagnostic or therapeutic purposes.

Small parts may pose a choking hazard — keep out of reach of children.

If irritation occurs on skin, discontinue use and consult a doctor.

4. How to Install / Attach the Band

Remove the original band from your smartwatch

Attach the Xband:

1. Test the length of the strap to ensure it fits your wrist, and trim it to the desired length using the notches as a guide.
2. Use a tool to attach the strap to the buckle
3. Press the quick-release button on the strap and attach it to the watch head.

5. Wearing Instructions

Wear the band snug but comfortable — not too tight to restrict blood flow.

Position the watch face-up on the top of your wrist, about one finger-width below the wrist bone.

Adjust the buckle or holes for a secure fit.

For exercise: Tighten slightly for stability; for all-day wear: Loosen for comfort.

Clean sweat or dirt after workouts to maintain hygiene.

6. Maintenance & Care

- **Cleaning:** Wipe with a soft, damp cloth and mild soap. Dry thoroughly. Avoid

harsh chemicals, ultrasonic cleaners, or machine washing.

- **Storage:** Store in a cool, dry place away from direct sunlight.
- **Water Resistance:** Suitable for sweat and light splashes (do not swim or shower with it).
- **Lifespan:** Normal use under proper care ensures long-lasting performance.

7. Compatibility & Disclaimer

Compatible only with designated smartwatch models (please check your watch's band width and connector type, 20mm quick-release).

Incompatibility or improper installation may damage your device — use at your own risk.

The manufacturer is not responsible for damage caused by misuse, unauthorized modifications, or third-party accessories.

8. FCC / Regulatory Information

This device complies with FCC Rules .

FCC Compliance Statements

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Caution: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
