Canada

Company Name: Birdie Scandinavia ApS  
FCC ID: 2BVDA-BI-M-B-PRO  
Models: BI-M-B-PRO, BI-M-B-PRO-Oak, BI-M-B-PRO-Walnut

We hereby request Family Certification for the above mentioned Models based on them being electrically identical.

Above models are identical in schematic, PCB layout, components and enclosure. The only difference is the decorative bird figure on top of the device, which contains no electronics. On BI-M-B-PRO the bird is made of plastic with the wings joined by a small screw. On BI-M-B-PRO-Oak and BI-M-B-PRO-Walnut the bird is made of oak or walnut wood with the wings joined by a wooden dowel and glue, and contains no metal parts. As the bird has no electrical function and the wooden versions add no metal, the tests were performed on the model BI-M-B-PRO.

Signed:

A handwritten signature in black ink, appearing to read 'Andreas K. Sørensen', written in a cursive style.

Printed name: Andreas Kofoed Sørensen
