Vienna Wireless Charging Pad Writing Pad

Instruction Manual

Whats Included:

- 1 x Writing Pad with Wireless Charging Pad
- 1 x Micro-USB to USB Cable

Functions:

1. Wireless charging pad surface
2. LED indicator / Micro-USB input port for the wireless charging pad
3. Phone stand

Tech Specifications:

1. USB Input: 5V/2A
2. Wireless Output: 5V/1A, 5W

Instructions:

1. Wireless Charging Mobile Phones and Other Electronic Devices:

- Ensure that your phone supports wireless charging. It will be listed in the manufacturer's specifications.
 - Connect the provided power cable to a power source and to the micro-USB port (2) on the bottom of the wireless charging pad writing pad. Once connected, the LED Indicator will turn RED.
 - Place the enabled device on the surface of the wireless charging pad (1).
 - The LED will turn BLUE to indicate that the phone is charging.
- ** If the LED indicator is flashing BLUE, an unknown object is being detected between the wireless charging pad and the phone by FOD (Foreign Object Detection), or the device is not compatible with wireless charging. The device will not begin to charge until the object is removed.

Note: In order to charge devices, use only the accessory cable or the cable included with your own device by the manufacturer.

Safety Precautions:

WARNING – When using this product, basic precautions should always be followed, including the following:

1. Read all the instructions before using the product.
2. Charge the power bank fully before initial use. The unit's full performance is achieved only after 2 or 3 completed charge and discharge cycles.
3. To reduce the risk of injury, close supervision is necessary when the product is used near children.
4. Do not expose the device to moisture.
5. Do not use the device in excess of its output rating.
6. Overload outputs above rating may result in a risk of fire or injury.
7. Do not use the device if damaged or modified.
8. Damaged or modified batteries may exhibit unpredictable behavior resulting in fire, explosion, or risk of injury.
9. Do not disassemble the device. Take it to a qualified service person when service or repair is required. Incorrect reassembly may result in a risk of fire or injury.
10. Do not expose the device to fire or excessive temperature. Exposure to fire or temperatures above 212°F may cause an explosion.
11. Have servicing performed by a qualified repair person using only identical replacement parts. Avoid overheating: Do not place anything between the phone and the charger, especially magnetic devices.

FCC Statement:

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesired operation.

Warning:

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment complies with FCC radiated exposure limits set forth for an uncontrolled environment. This equipment can be used in portable exposure conditions.

Note:

This equipment has been tested and found to comply with the limits for a Class B digital device pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
