

Osmile ED1000

4G Calling / SOS /
Wrist Watch
Quick User Guide

Osmile GPSKD1000T is an auxiliary tool designed to help parents locate their children and provide emergency assistance. It does not assume any legal responsibility related to children getting lost or safety issues.

Step 1: Charge the watch for three hours

Upon receiving the watch, please charge it for three hours. The watch charging cable has a magnetic suction function; correct charging is shown in the illustration

Step 2. Installing a Nano SIM Card

- Use the removal tool to take out the SIM card tray.
- Place the SIM card into the tray with the chip facing up and the notch facing outward. Insert the tray into the watch.
- Push the tray in until it clicks into place.
- Restart the watch: Go to the settings interface, select "Power Off," then press and hold the SOS button for about 5 seconds to restart.

1. Use the auxiliary tool to first remove the SIM card slot.

2. Place the SIM card into the SIM card slot.

3. Push the SIM card slot into the watch; it will click into place once fully pressed in

The arrow below indicates the power button. When the watch is powered off, press and hold for 5 seconds to turn on the smartwatch.

SOS Button
Power Button

Important Notes:

1. You can set up to three SOS emergency contact numbers.
2. The first GPS positioning must be done outdoors.
3. Please turn off the LBS (base station positioning option).
4. Please turn off Wi-Fi.
5. Do not wait until the battery is completely drained before charging. Please charge the watch daily.

Step 3: Install the Mobile App and Bind the Watch

1. Download the App: Download the "Osmile APP: Osmile GPS Tracker".
2. Register the App:
 - Language: Please select the language of your region.
 - Region: Please select your region.
 - Shared Access: The account username and password can be shared among family members (so that everyone can track the watch).

Osmile GPS Tracker

Step 4: After logging into the App, press "Me"

Step 5: Press "Device List"

Step 5: Add a New Device

P.S. After binding the device, please restart the smartwatch and log in to the app again.

OSMILE Reminder:

The warranty period is not a trial period. Once the SIM card is inserted and the watch connects to 4G, the device will be automatically registered by OSMILE and cannot be returned.

For detailed instructions, please scan the QR code to download the manual.

Step 6: Scan the Registration Code to Bind the Watch

Align the watch screen with the registration code to scan.

FCC Warning

15.19 Labeling requirements.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

15.21 Information to user.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

15.105 Information to the user.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Absorption Rate (SAR) information:

This device meets the government's requirements for exposure to radio waves. The guidelines are based on standards that were developed by independent scientific organizations through periodic and thorough evaluation of scientific studies. The standards include a substantial safety margin designed to assure the safety of all persons regardless of age or health.

FCC RF Exposure Information and Statement

The SAR Next-to-mouth limit of USA (FCC) is 1.6 W/kg averaged over one gram of tissue. The SAR Wrist-worn limit of USA (FCC) is 4.0 W/kg averaged over ten gram of tissue. This device was tested for typical Next-to-mouth operations with the device kept 10mm from the mouth and 0mm from the Wrist. To maintain compliance with FCC RF exposure requirements, use accessories that maintain an appropriate separation distance between the user's body and the device. The use of belt clips, holsters and similar accessories should not contain metallic components in its assembly. The use of accessories that do not satisfy these requirements may not comply with FCC RF exposure requirements, and should be avoided. Use only the supplied or an approved antenna.
