PASSWORD RESET INSTRUCTIONS

The default combination is 0-0-0. To set your own combination,please follow these steps:

1. Confirm the dials are at the 0-0-0 position.
2. Press down the reset button with a tool, such as ballpoint pen,until you hear a 'click' sound.
3. Set your desired personal combination by turning the dials,(for example, 8-8-8).
4. Push the Pushing towards to the direction of arrow and the reset button will pop up with "Click" sound to complete the setting.

Please write down your new combination and put it in a safe place.

⚠ To reset your lock, please set it to its current combination and then repeat the steps above.

1. INSTRUCTIONS FOR GOOGLE'S FIND HUB

TO START:

The first time to use this device, just open the suitcase and locate the back of the device, pull out the battery label to power on.

REPLACING THE BATTERY

open the suitcase and locate the back of device, and use pen or tool to pull the lock button to unlock, then insert one piece of CR2032 coin battery

POWER ON:

Press and hold the button for 5 seconds. The device will beep to indicate it's powered on.

Pairing with Android™ Devices

1. Ensure your Luggage and Android device are close to each other, verify the connection to Wi-Fi or mobile network.
2. A pop-up notification will appear on your Android device stating a new device has been found.
3. If the pop-up does not appear:
   - Open the Settings app.
   - Navigate to Google services > All Services > Devices.
   - Ensure Scan for nearby devices is enabled.
   - You will see a list of devices under Available devices nearby.
4. Tap the luggage name, once it appears on the list.
5. Follow the on-screen instructions to complete setup. (You may be prompted to enable Bluetooth, Location, and other features if they are not already turned on.)
6. Your Luggage is now paired with your Google Account and can be used with the Find Hub app.

Unpairing from Android Devices

1. Open the Find Hub app.
2. Select your Luggage.
3. Tap the Settings button.
4. Tap Remove from Find Hub and follow the on-screen prompts.

Reset:
1. When on, press the button 4 times quickly
2. After hearing a tone, press and hold the button for about 8 seconds until another tone sounds
3. Factory reset complete.

2. DEVICE OPERATION INSTRUCTIONS

POWER OFF / SLEEP MODE

When powered on, press the button 5 times within 2 seconds.
The device will beep and enter sleep mode.

ENTER IDENTIFICATION MODE

Quickly press the button 6 times within 2 seconds on the device.

RE-ENABLE FIND MODE

If pairing mode times out, press the button once to re-enable.

SWITCHING BETWEEN FIND HUB AND FIND MY CONNECTIONS

" Remove Item " in the Find Hub App, then reset the device . Afterward, connect to the Find MY App.
Reset device:
1. When on, press the button 4 times quickly
2. After hearing a tone, press and hold the button for about 8 seconds until another tone sounds
3. reset complete.

Note:
If you dismiss the Fast Pair™ pop up twice or frequently pair and unpair a tag, you might trigger the banning logic, which prevents unnecessary Fast Pair pop ups. To resolve this, you can either wait for five minutes for the Fast Pair to pop up to be re-enabled or reboot your phone.
If any Find Hub network accessory separated from its owner is seen moving with you over time, you'll receive unknown tracker alert on your phone which tells you how to find it, disable it.

Risk of fire and burns. Do not recharge, disassemble, heat (-20°C ~ +70°C) or incinerate.

FCC COMPLIANCE

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) This device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- If the equipment is connected to an outlet, connect it to an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

PRECAUTIONS

⚠ WARNING
- **INGESTION HAZARD**: This product contains a button cell or coin battery
- **DEATH** or serious injury can occur if ingested.
- A swallowed button cell or coin battery can cause **Internal Chemical Burns** in as little as **2 hours**.
- **KEEP** new and used batteries **OUT OF REACH Of CHILDREN**.
- **Seek immediate medical attention** if a battery is suspected to be swallowed or inserted inside any part of the body.

FCC Regulatory Compliance
This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.
If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
-- Reorient or relocate the receiving antenna.
-- Increase the separation between the equipment and receiver.
-- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure statement
This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.
This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
