

Manufacture Statement

Manufacturer Name	SHANTOU CITY DAYE PLASTIC TOYS CO.,LTD
Product Name	Jurassic Quetzalcoatlus Drone
Model Number(s)	T03299

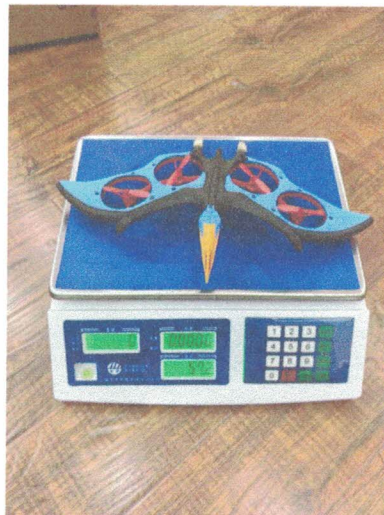

Date: 2026-8-28

This Manufacturer Statement is issued by **SHANTOU CITY DAYE PLASTIC TOYS CO.,LTD** in support of the Toy Drone Exemption Attestation submitted to Federal Communications Commission (FCC). All information below is based on the real situation of product design, hardware configuration, bill of materials (BOM) and internal test records of model T03299 Jurassic Quetzalcoatlus Drone.

1. Maximum Take-off Weight is equal to or less than 150 grams

The maximum take-off weight of the device is [57.2] g. It is reflected in the weight test record. Evidence as follows:

Product Weight (g): 产品重量(不包含遥控器)	57.2g	

2. Operation is limited to line-of-sight operations equal to or less than 100 meters

The operating range is limited to [30] meter. The proof is as follows as abstracted from the use

- guidance on where it is safe and permitted to fly.
- Keep the toy inline of sight, with a maximum operating distance of approximately 30 m (97 ft).

manual :

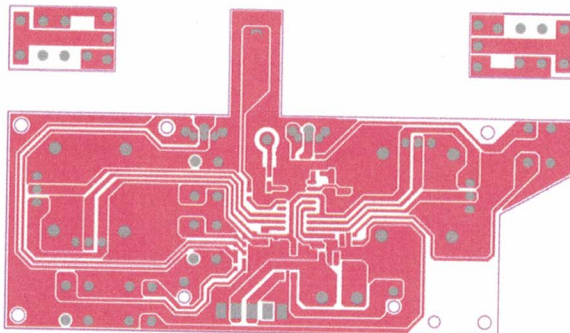

3. Maximum sustained altitude is equal to or less than 300 feet

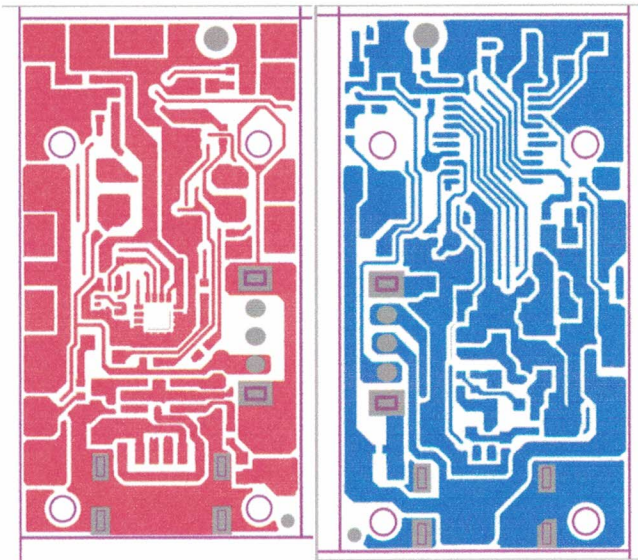

The maximum sustained altitude is [65.62]meters. The proof is as follows as abstracted from the IM:

- guidance on where it is safe and permitted to fly.
- Keep the toy inline of sight, with a maximum operating distance of approximately 30 m (97 ft).

4. No GPS/GNSS or equivalent system

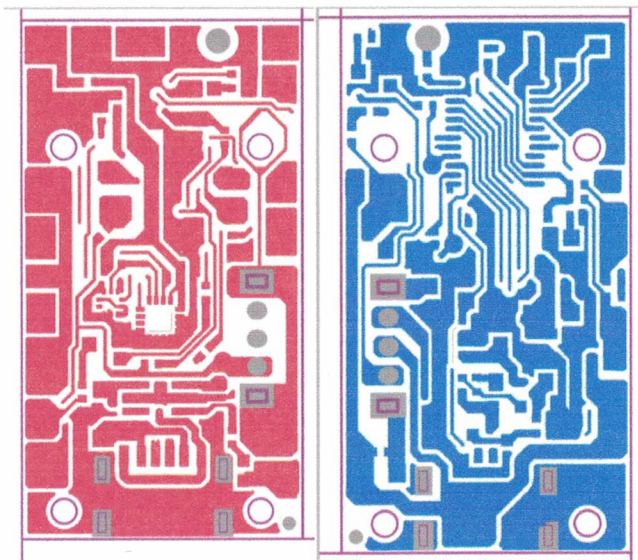

The device does not include GPS, GNSS, return-to-home, waypoint mission, subject tracking, or equivalent navigation functionality. The proof had been indicated in our circuit as follows:

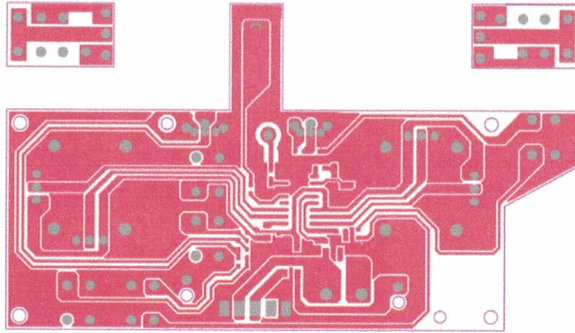

5. No connectivity or network capability

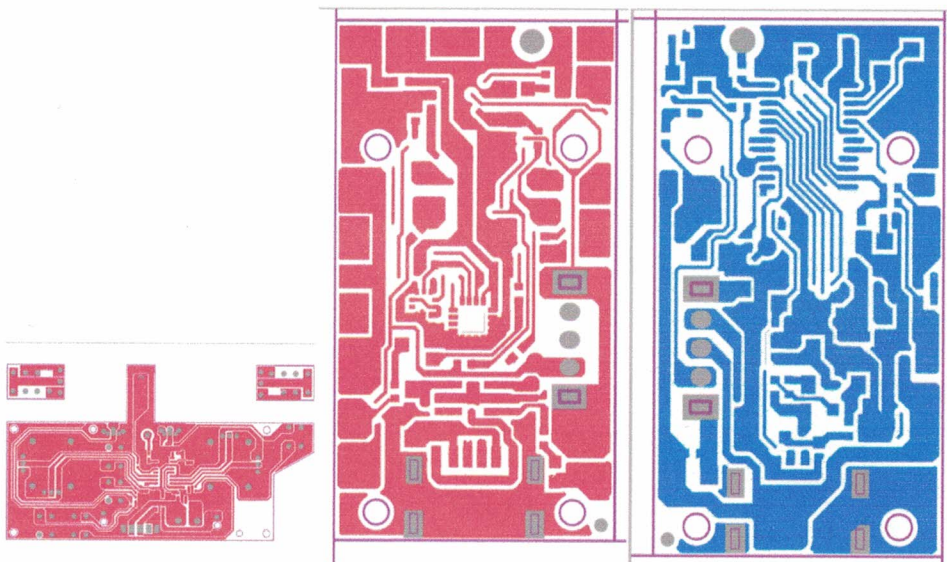

The device does not support Internet access, mobile apps, cellular networks, Wi-Fi networking, or other network capability. Communication is limited to a dedicated [2.4 GHz] RF command-and-control link between the controller and the drone. The proof is as follows:

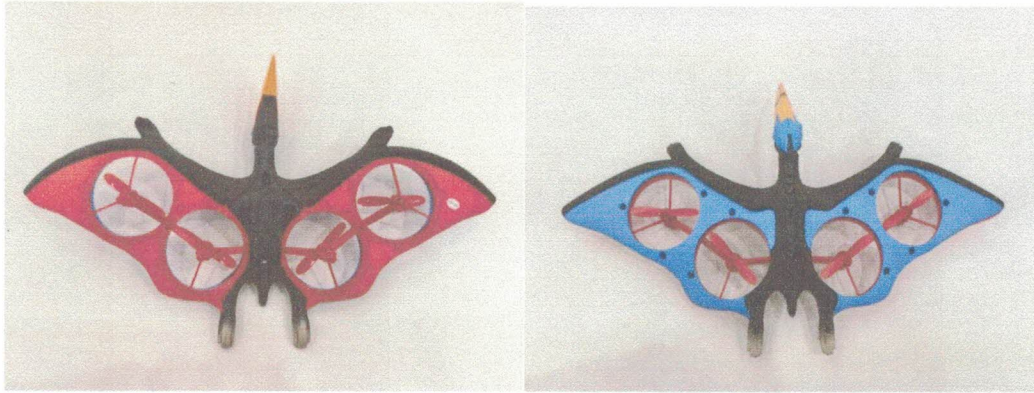

6. Radio frequencies and Wi-Fi channels are not modifiable or programmable and conform to FCC requirements

The operating radio frequencies and channels are fixed and are not user modifiable or programmable. Proved as follows:

7. No imaging or sensing capabilities

The device does not include photo/video camera, microphone, live video feed, onboard recording, data storage, or sensors capable of surveillance or data gathering. The proof is as follows:

8. Flight Time is equal to or less than 10minutes

The flight time is [7_] minutes on a full charge.

9. Maximum horizontal speed is equal to or less than 10 meters/second

The maximum horizontal speed is [4.5_] m/s.

10. Explicitly marketed as a toy for recreational use

The device is marketed as a toy for recreational use. The proof is as follows:

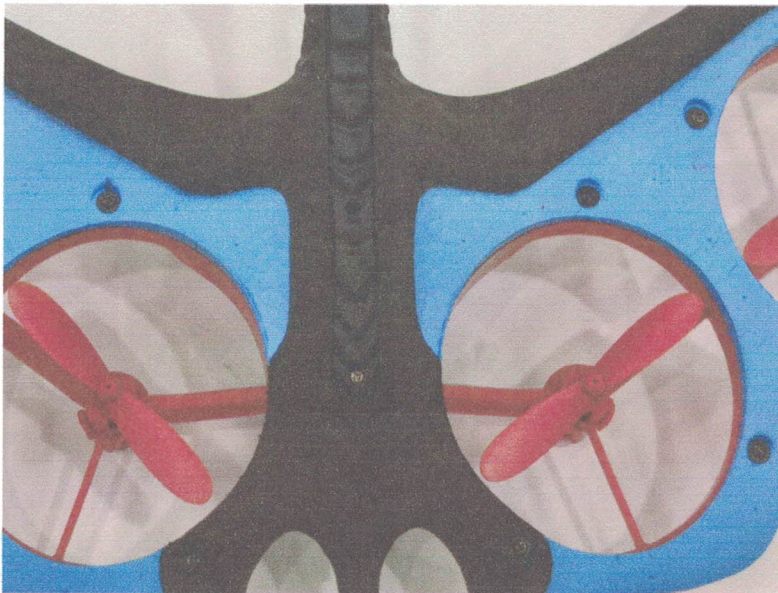

HANG CELL - PACKAGING
EXTERNAL

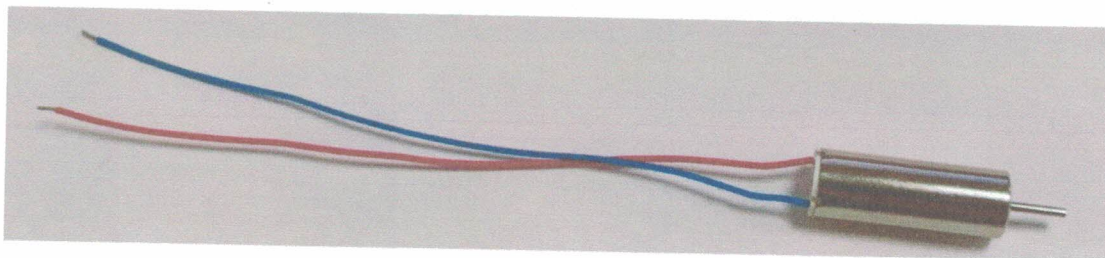

11. No modular payload interface

The device does not support modular payload attachment, airdrop or release mechanisms, searchlights, strobes, micro-FPV cameras, protection cages, or similar payload accessories. The proof is as follows:

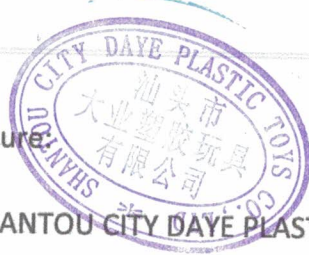

12. Does not contain brushless motors

The device uses brushed motors only and does not contain brush-less motors. The proof is as follows:

All statements contained in this Manufacturer Statement are true, accurate and complete to the best of our knowledge at the time of submission.
