Indicator light

Indicator light

●Key function operation

●Power on: Open the charging compartment and take out the earphones to automatically turn on. The main ear white and orange lights alternate flashing, while auxiliary ear no light. After connection, the lights stop flashing. 2. Press and hold the MFB button for 3 seconds to manually turn on the device, white light on 1 second.

●Shutdown: 1.The earphones will automatically shut down when placed in the charging compartment. 2. Press and hold the MFB button for about 4 seconds, and the orange light will flash on 1 second before turning off.

●Pairing: After the headphones are turned on, they automatically enter pairing mode (waiting to be connected to the phone), and the main ear white and orange lights alternate flashing, while auxiliary ear no light.

●Answer: When receiving an incoming call, double click the MFB button on the left and right ears.

●Hang up: During a call, double click the MFB button on the left and right ears.

●Reject: When receiving an incoming call, press and hold the MFB button for 2 seconds on either ear.

●Play/Pause: Click the MFB button on either side of the ear.

Previous song: Press and hold the MFB button for 2 seconds on the left ear.

Next tack: Press and hold the MFB button for 2 seconds on the right ear.

●Volume increase: Single click on the MFB button on the right ear.

●Volume reduction: Single click on the left ear MFB button.

Voice Assistant: Three clicks the MFB button to enter the voice assistant, then three clicks to exit.

●Reset the earphones: When the phone is not connected and turned on, five clicks the MFB button on the left and right ears to reset the earphones to their factory settings. After a successful reset, the white and orange lights flash simultaneously three times.

●Low battery alarm: When the earphone battery is low,a low telegram alarm sound is prompted every 5 minutes (The orange light flashes once every 5 seconds.)

●Charging: Place the earphones into the charging compartment and charge them in the compartment. (1-30% red light on, 31-70% orange light on, 71-100% green light on) The charging compartment indicator light stays on for 30 seconds and goes off. During earphone charging, the orange light stays on and the fully charged light goes off. Charge the charging compartment (red light flashing at 1-30%,orange light flashing at 31-70%, green light flashing at 71-100%).The indicator light of the charging compartment is flashing, and the green light is always on when fully charged.

FCC STATEMENT

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
-- Reorient or relocate the receiving antenna.
-- Increase the separation between the equipment and receiver.
-- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-- Consult the dealer or an experienced radio/TV technician for help.

This device and its antenna(s) must not be co-located or operation in conjunction with any other antenna or transmitter.

Radiation Exposure Statement
The device has been evaluated to meet general RF exposure requirement in portable exposure condition without restriction.
