

VILA-01 Adult Product Instruction Manual

Product Name: VILA-01

Charging type: USB to DC2.0

Main material: ABS, silicone, etc

Product function: 9×9 frequency conversion gears

Battery type: Rechargeable polymer potassium battery

Noise detection:S 60dB

Charging/battery life:>60min/70min

Battery capacity: 450mAh

Net weight of the product: approximately 200g

Product size: 159.5*74.4*54.1mm

Remote Control

Usage Instructions

This product includes a main unit and a remote control.

Main Unit:

1. Power On/Off Operation:

Press and hold the S1 button on the main unit for 3 seconds to turn the device on or off.

2. Gear Adjustment:

When the main unit is powered on, press the S1 and S2 buttons to adjust the vibration gears.

3. Pairing Procedure for Main Unit and Remote Control:

Press and hold the P2 button on the remote control for more than 5 seconds. The red and blue indicator lights on the remote will flash alternately. Then short press the S2 button on the main unit. The main unit will automatically identify and save the remote control ID code, and the pairing is completed.

Charging Instructions

This device comes with a USB to DC2.0 charging cable as standard.

Two red LED indicator lights flash simultaneously during charging, and both turn off automatically when fully charged.

Routine maintenance

1. Do not clean with gasoline or acetone detergent, as it may corrode the product.
2. If not used for a long time, please charge it at least once within three months.
3. When the battery is depleted, please charge it promptly to prevent battery aging and ensure battery life.
4. Please store the device in a cool and dry place.

Safety Reminder

1. All functions of the product are blocked during the charging process.
2. Ensure that the product is kept away from high temperature or humid environments.
3. Avoid prolonged compression of the product.
4. Please place the product in a clean place.
5. The charging cable is lost, please contact the after-sales customer service.

Important Safety Warnings

1. This product is intended for use by **adults aged 18 and older only**. Minors are strictly prohibited from using this product.
2. For personal private use only. Do not share with others to prevent cross-infection.
3. Do not use on broken, inflamed, irritated skin or mucous membranes.
4. Pregnant women, postoperative patients, people with cardiovascular diseases, epilepsy and chronic physical diseases shall consult a doctor before use.

5. Stop use immediately if you feel pain, irritation, discomfort or allergic reactions, and seek medical attention if necessary.
6. Do not apply this product to the head, neck, around the heart, eyes or other dangerous sensitive body areas.

Electrical & Charging Safety

1. Do not use while charging to avoid electric shock, overheating or safety hazards.
2. Only use the original matching charging cable and power adapter. Unauthorized accessories may cause damage, short circuit or fire risk.

3. Keep the product and charging equipment away from water, humid environments, bathtubs and showers. Do not plug in or unplug with wet hands.
4. Do not disassemble, modify or repair the product privately. Stop using immediately if the device is damaged, overheated or has abnormal odors.
5. Store and charge in a cool dry place. Charge the product regularly during long-term idle storage to prevent battery leakage and aging.

Cleaning & Material Instructions

1. Clean thoroughly before and after each use. Cut off the power supply before cleaning; do not soak the charging port.
2. Use only clean water or dedicated mild cleaning solution. Do not use alcohol, disinfectant, petroleum jelly or oil-based lubricants, which will damage the product material and cause skin allergies.
3. It is recommended to use water-based lubricants. Silicone-based or oil-based lubricants are not allowed.
4. Store in a cool, dry and dark place. Keep away from children and pets. Avoid long-term contact with other silicone products.

Prohibited Regulations

1. Do not use continuously for a long time to prevent local physical discomfort.
2. Do not use while driving, operating machinery or in any scenario requiring concentrated attention.
3. This product is an adult personal care product, not a medical device, and cannot be used for disease diagnosis or treatment.

Waste Disposal

This product contains a built-in lithium battery. Do not discard it randomly. Please dispose of it in accordance with local electronic waste recycling regulations.

FCC Requirement

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device,

pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection

against harmful interference in a residential installation. This equipment generates, uses, and can

radiate radio frequency energy, and if not installed and used in accordance with the instructions,

may cause harmful interference to radio communications. However, there is no guarantee that

interference will not occur in a particular installation. If this equipment does cause harmful

interference to radio or television reception, which can be determined by turning the equipment off

and on, the user is encouraged to try to correct the interference by one or more of the following

measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to

which the receiver is

connected.

- Consult the dealer or an experienced radio/TV technician for help.

—The device has been evaluated to meet general RF exposure requirement.

The device can be used in portable exposure condition without restriction.
