

Part 5 ▶ Important Information

- 1、 Do not block the device's heat dissipation vents to ensure stable operation.
- 2、 Do not look directly into the lens, as strong light from the lens may cause eye injury.
- 3、 Do not place the device in direct sunlight, high temperature, humid or dusty environments.
- 4、 Use only the original power adapter to prevent damage to the device caused by unstable, excessively high or low voltage.
- 5、 Minors must use the device under parental supervision to avoid accidental injury or equipment damage due to improper use.
- 6、 This device only supports 2.4G Wi Fi and is not compatible with 5G Wi Fi. Please connect the device to a 2.4G Wi Fi network during use.
- 7、 Turning off the device after use can extend its service life. If not used for a long time, power off the device and unplug it, and power it on regularly for inspection to prevent internal components from being damaged by moisture.

Part 6 ▶ Product Information

Name	Tracing Projector
Mode	Y06
Projection Technology	TFT LCD
Aspect Ratio	16:9
Standard Resolution	1280x720
Light Type	LED
Whole Power Consumption	36W
Power Performance	15V 2.4A

Part 7 ▶ Accessory List

Tracing Projector

Stand

Power

The product is continuously upgraded and optimized. Slight differences may exist between the actual product and the instruction manual. Please refer to the physical product for details.

User Manual

Please read this manual carefully before using this product.

Part 1 ▶ Product Details

- 1、Base
- 2、Projector
- 3、Lens
- 4、Power
- 5、Handle LED
- 6、Air Inlet
- 7、Focus
- 8、Type-C Power
- 9、Adjust Brightness
- 10、Exhaust Vent
- 11、Tripod Hole

Part 2 ▶ Product Details

Please read this product manual carefully before using the product.

Part 3 ▶ Product Details

Please scan the code with Google Chrome to connect to the hotspot, or enter the URL in the address bar to connect the device.

Part 4 ▶ Product Details

Web-based Network Configuration Interface

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
