WEEE

All products bearing this symbol are waste electrical and electronic equipment (WEEE as in directive 2012/19/EU) which should not be mixed with unsorted household waste. Instead, you should protect human health and the environment by handing over your waste equipment to a designated collection point for the recycling of waste electrical and electronic equipment, appointed by the government or local authorities. Correct disposal and recycling will help prevent potential negative consequences to the environment and human health. Please contact the installer or local authorities for more information about the location as well as terms and conditions of such collection points.
Your 1MORE retailer will advise you of the correct way of disposal in your country.

Tips

1. Please read this instruction manual carefully and retain for future reference.
2. Please fully charge the battery before first use.
3. If the headphones have been unused for more than 3 months, we recommend that you charge them. This will improve battery capacity.
4. Only use chargers that are FCC (Federal Communications Commission) approved.
5. In dry environments, static electricity may numb your ear. This is not related to the quality of the product.

Safety Information

1. Never disassemble the headphones. There are no user-serviceable parts inside.
2. Do not expose the headphones to temperatures below 32 °F (0 °C) or to temperatures above 113 °F (45 °C).

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
• Reorient or relocate the receiving antenna.
• Increase the separation between the equipment and receiver.
• Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
• Consult the dealer or an experienced radio/TV technician for help.
Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

RF Exposure Information

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

FAQ

1. Why the headphones cannot be turned on?
Check if your headphones have enough battery life. If not, please charge them for at least 30 minutes.
2. Why the headphones cannot play music after successfully connecting to my Android device?
After pairing successfully, on the Bluetooth menu of your device, tap the icon on the right of your device name and make sure the "Media Audio" option is on.
3. Why there is no sound from the headphones while making phone calls after successfully connecting to my Android device?
After pairing successfully, on the Bluetooth menu of your device, tap the icon on the right of your device name and make sure the "Phone Audio" option is on.
4. Why the Bluetooth connection is not stable and causes some interruptions?
1) Try shortening the distance between your headphones and device. Avoid solid barriers in between.
2) Please keep away from strong interference sources, such as Wi-Fi and GPRS.
3) Please make sure the Bluetooth antenna of your device is not blocked.
5. Why some control functions do not match those in the manual while using third party music/video player Apps?
Your operating system and the third party music/video player apps may have different settings for the control functions. We recommend that you use the music/video player apps that your device has originally provided.
