Please retain packaging for future reference as it contains important information. All materials for fastening or packing purposes are not part of the toy and should be discarded for children's safety.

FOR BEST PERFORMANCE:
Do not use rechargeable batteries.
Do not mix battery types. Do not mix old and new batteries.
Do not use alkaline, standard carbon zinc or rechargeable batteries.
Do not dispose of batteries in fire, they may leak or explode.
Remove batteries from toy when not in use.
Non-rechargeable batteries are not to be recharged.
Batteries are to be inserted with the correct polarity.
Exhausted batteries are to be removed from the toy.
The wiring terminals are not to be short-circuited.
Only batteries of the same or equivalent type as recommended are to be used.
Dispose of batteries properly, be environmentally aware: do not burn or bury old batteries.

Rechargeable batteries are to be removed from the toy before being charged.
Rechargeable batteries are only to be charged under adult supervision.
The battery charger is to be regularly examined for damage to the cord, plug, enclosure and the parts, and in the event of such damage, may cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
• Reorient or relocate the receiving antenna.
• Increase the separation between the equipment and receiver.
• Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
• Consult the dealer or an experienced radio/TV technician for help.
Caution: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

We are continuously improving our products, therefore contents and components may differ slightly from images shown on packaging.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference and, (2) this device must accept any interference received, including interference that may cause undesired operation.
Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
• Reorient or relocate the receiving antenna.
• Increase the separation between the equipment and receiver.
• Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
• Consult the dealer or an experienced radio/TV technician for help.
Caution: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
