Date: 2026-05-28

We, PSG TECHNOLOGIES (S) PTE. LIMITED, declare that our product: SDX Ultra, FCC ID: 2BVXV-P1X19N for professional installation and following KDB 353028 (c) Professional installation requirements below.

1. Professional installation must be justified.

Description: This product will not be sold directly to the general public through retail stores. It will only be distributed and sold by our authorized distributors and resellers. The installation person needs to get the Peplink certified to install the product.

2. Professional installation does not permit use of any antenna with the transmitter; the permitted types of antenna specified as below.

Description: Not Applicable. The product is a wired device and does not contain any RF wireless features or transmitters.

3. The applicant should address the following items when justifying professional installation.

- (1) To qualify for professional installation, the applicant must explain why the hardware is not readily available to average consumer.

Description: The product will not marketed to or sold directly to the general public, therefore the hardware is not readily available to average consumer

- (2) Marketing—Device cannot be sold via retail to the general public or by mail order; it must be sold to authorized dealers or installers only.

Description: This product will not be sold directly to the general public through retail stores. It will only be distributed and sold by our authorized distributors and resellers.

- (3) Filing must show that intended use is not for consumers and general public; rather device is generally for industrial/commercial use.

Description: This product will not be sold directly to the consumers and general public.

PSG TECHNOLOGIES (S) PTE. LIMITED

- (4) Explain what is unique, sophisticated, complex, or specialized about the equipment that REQUIRES it to be installed by a professional installer?

Description: The equipment shall be installed by a person who have completed the Peplink training program.

- (5) Installation must be controlled.

Description: The equipment shall be installed by a person who have completed the Peplink training program.

- (6) Installed by licensed professionals (e.g., device sold to dealer who hire installers).

Description: The device is sold only to our authorized distributors, resellers and installation of the product may only be performed by personnel who have obtained our professional training certification as described below.

- (7) Installation requires special training (e.g., special programming, access to keypad, field strength measurements made).

Description: Particulars of the abovementioned professional training certification can be found here:
