PRIME012IN1 Quick Start Guide

Primebook

About the device

- ① Power
- ② Volume+
- ③ Volume-
- ④ Mic
- ⑤ microSD
- ⑥ Front Camera
- ⑦ Light sensor
- ⑧ Type-C Port
- ⑨ Speaker
- ⑩ Rear Camera
- ⑪ Flashlight
- ⑫ Pogo pin connector

Product SafetyInformation

- ⚠ Don't make or receive tablet calls while driving. Never text while driving.
- ⚠ Keep your tablet at least 5 mm away from your body while making calls.
- ⚠ Small parts may cause choking.
- ⚠ Your tablet can produce a loud sound.
- ⚠ To prevent possible hearing damage, do not listen at high volume levels for long periods. Exercise caution when holding your tablet near your ear while the loudspeaker is in use.
- ⚠ Avoid contact with anything magnetic.
- ⚠ Keep away from pacemakers and other electronic medical devices.
- ⚠ Turn off when asked to in hospitals and medical facilities.
- ⚠ Turn off when told to on aircraft and at airports.
- ⚠ Turn off when near explosive materials or liquids. Don't use at gas stations.
- ⚠ Don't use at gas stations.
- ⚠ Your tablet may produce a bright or flashing light. Don't dispose of your tablet in fire.
- ⚠ Avoid extreme temperatures.
- ⚠ Avoid contact with liquids. Keep your tablet dry.
- ⚠ To disassemble your tablet, contact an authorized service provider or follow the repair instructions.
- ⚠ Only use compatible accessories.
- ⚠ For pluggable equipment, the socket-outlet shall be installed near the equipment and shall be easily accessible.
- ⚠ Don't rely on your tablet as a primary device for emergency communications.

Checking the Battery Information

You can view measured state of battery health, battery manufacturing date, date of first use of the battery, and number of full charge/discharge cycles. Just open Settings, touch Battery and then touch Battery health.

Battery Maintenance Tips

Your device provides various options that help you conserve battery power and protect the battery. You can follow the tips below.

- *Reduce the screen backlight time.
- *Lower the screen brightness.
- *Reduce the screen refresh rate.
- *Turn Wi-Fi, Bluetooth, GPS and auto-sync off when not in use.
- *Turn on Dark mode.
- *Use the Optimize Battery Usage feature to save battery power. Open Settings, touch Battery and touch Optimize Battery Usage.
- *Enable the Power saver feature. Open Settings, touch Battery and touch Power saver.
- *Optimize the auto-start behavior, the secondary launch behavior, and the background running behavior of apps to save battery power. Open Settings, touch Battery and touch Apps AI-control.

*Automatically close the apps that have not been used for a long time. Open Settings, touch Battery and touch More Settings. Then touch Scenario AI-optimization and turn on the Optimize when app not in use toggle switch.

*Control the behavior of apps to reduce power consumption when the device is in a long standby period. Open Settings, touch Battery and touch More Settings. Then touch Scenario AI-optimization and then Sleep mode.

*To prevent overcharging the battery and shortening its lifespan, you can set the device to stop charging when the battery level reaches 80%. Open Settings, touch Battery, and then select 80% upper limit.

*To maintain battery health, charging automatically stops once the battery reaches full charge. If the device remains connected to the charging source, charging will resume when the battery level drops below 95%. During this cycle, the displayed battery level stays at 100%. This feature is enabled by default. To access this feature, open Settings, touch Battery, and then select Basic.

*To protect the battery, avoid charging the battery in high temperature environments.

*Unplug the charger after the battery is fully charged.

*To guarantee the charging performance, please use a compatible charger.

*If you use a power source like a computer instead of the charger, the charging may be slower because of the reduced electric current.

*If you use your device during charging, it may take longer to fully charge the battery.

Environmental protection claims Hazardous Substances Table

Part Name	Main board	Display	Plastic	Metal	Battery	Accessory
Plumbum (Pb)	x	o	o	o	o	o
Mercury (Hg)	o	o	o	o	o	o
Cadmium (Cd)	o	o	o	o	o	o
Hexavalent chromium (Cr+6)	o	o	o	o	o	o
Polybrominated biphenyls (PBB)	o	o	o	o	o	o
Polybrominated biphenyls (PBDE)	o	o	o	o	o	o
Butyl Benzyl Phthalate(BBP)	o	o	o	o	o	o
Diethyl Phthalate(DEHP)	o	o	o	o	o	o
Diobutyl Phthalate(DBP)	o	o	o	o	o	o
Dioctyl Phthalate(DOP)	o	o	o	o	o	o

o Indicates that this hazardous substance contained in all homogenous materials of this part is below the limit requirements (EU/2015/863, EU/2002/1542, 2013/56/EU, (EU)2019/704.

Use period is valid only when the product is operated under the condition defined in the product manual.

FCC Caution:

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

IMPORTANT NOTE:

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular

installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

—Reorient or relocate the receiving antenna.

—Increase the separation between the equipment and receiver.

—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

—Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement:
This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. The device has been tested and comply with FCC SAR limits.
