

#25682 3-in-1 Magnetic Wireless Charger User Manual

1. Product Appearance

Ultra-thin round magnetic design with colorful ambient ring light. Compact and lightweight for easy carrying.

2. Product Specifications

Product Name: 3-in-1 Multifunctional Magnetic Wireless Charger

Max Output for Phone: 15W

Input Port: Type-C

Input: 5V/2A, 9V/2A

Output Power by Device:

Phone: 5W/7.5W/10W/15W (Max)

Earbuds: 3W (Max)

Watch: 2.5W (Max)

3. Instructions for Use

a. Connect Power Supply

Plug the Type-C cable into the charger, then connect the other end to a power adapter. The colorful ring light will turn on to indicate standby mode.

b. Charge Your Device

Put your Phone/Earbuds/watch on the center surface, it will start charging automatically.

c. Unplug the cable to stop charging after use. The slim body is easy to store and carry around.

4. Product Features

a. All-in-one design: compatible with Phone, Watch and Earbuds separately, no need for multiple chargers.

b. Built-in magnetic attraction: iPhone snaps onto the pad automatically without manual adjustment.

c. Colorful ambient ring light, stylish and tech-sense appearance.

d. Ultra-slim & mini size, space-saving on desk, portable for travel and daily commute.

5. Important Notes

a. Use only certified regular power adapters. A 9V/2A fast charger is recommended to reach 15W full-speed charging. Standard adapters will result in slower charging speed.

b. Do not use the charger in wet, damp, high-temperature or open-fire environments to prevent short circuit and damage.

c. Slight heating during charging is normal. Unplug immediately if the charger gets extremely hot, then change the adapter or check your device.

d. Do not drop, knock the charger or pull the cable violently to avoid loose ports and

wire damage.

6. Package Contents

3-in-1 Wireless Charger ×1

USB to Type-C Charging Cable ×1

FCC Warning

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE 1: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

NOTE 2: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

RF Exposure Statement

To maintain compliance with FCC'S RF Exposure guidelines, This equipment should be installed and operated with minimum distance of 20cm between the radiator and your body. This device and its antenna(s) must not be co-located or operation in conjunction with any other antenna or transmitter.
