

Step 1: Insert SD Card

Insert Micro SD card with MyPlayerOS into the player.

Step 2: Plug In Products

Plug in the products you wish to demo. MyMedia+ 2 can support up to 2 demo products.

Step 3: Connect Signage

MyMedia+ 2 is compatible with up to two touchscreens or monitors via HDMI.

For signage only plug in HDMI
For touch plug in both HDMI & USB

Step 4: Connect to Router

If applicable insert an ethernet cable from a router.

Step 5: Power Up

Plug in a USB-C (5V/5A) cable to power up your device.

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.
