Please read this manual carefully before use

Made in China

1. Product Overview

Specifications

- Dimensions: 121×100×12.7mm
- Battery: 180mAh lithium battery
- Operating voltage: 3.3–4.2V
- Number of keys: 23 keys
- Charging current: DC 5V, 150–200mA
- Charging cable: Type-C USB cable (1.0m)

Package Contents

Keypad ×1; User manual ×1; Charging cable ×1

2. Bluetooth Connection

- Turn on the power switch. Press and hold the FN + Bluetooth (ESC) key for 1–2 seconds, and the blue Bluetooth indicator light will flash.
- Turn on your computer, enable Bluetooth in system settings and search for Bluetooth devices. Select the device named “*Bluetooth keypad*”. The

keypad will connect automatically without a password. Once the computer shows a successful connection prompt, the keypad is ready for use.

3. Multimedia Keys & Charging Instructions

Shortcut Functions

Charging Guide

When the red charging indicator flashes, the battery level is low, and you need to charge the device promptly. Use the original charging cable included with the product or standard Type-C cables from reputable manufacturers for charging. The red light stays solid during charging and turns off once fully charged.

4. Maintenance & Care Instructions

- Do not expose the device to liquid, humid environments or rain. Do not use it near bathtubs, sinks, saunas, swimming pools or steam rooms.
- Do not expose the device to extreme high or low temperatures.
- Do not leave the device under direct sunlight for long periods.
- Keep the device away from open flames such as stoves, candles and fireplaces.
- Avoid scratching the product with sharp objects. Charge the device regularly to maintain normal function.

Troubleshooting

Contact after-sales service personnel for malfunctions.

5. Other Terms

This limited warranty does not cover defects or damage caused by the following circumstances:

1. Accidents, misuse, improper operation, or any unauthorized repair, modification or disassembly;
2. Improper operation or maintenance, violation of instructions, or connection to incompatible power supplies.

Intellectual Property Notice

Reproduction of any content in this user manual without the seller's written permission is prohibited.

FCC Warning Statement: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Radiation Exposure Statement

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
