Auto Opened

Product Specifications

Product Name	Automatic Selfie Stick Tripod
Model	PT-41
Weight	348g
Folded Size	28.6*5.7*6.1 cm
Extended Height	150cm
Material	Aluminum & PA6-GF
Max Load Capacity	1kg
Remote Range	≤10m

Precautions

- Please store the product carefully to avoid pinching your fingers.
- Ensure the device is securely attached and perform a shake test. Use the product only after confirming that all parts are firmly connected and safe.
- Do not exceed the maximum load capacity of this device. Maximum load ≤ 1 kg.
- Use the product properly during operation. Avoid rough handling or violent use that may damage the product.
- Do not disassemble or modify this product.
- Do not strike, drop, or throw this product, as it may cause internal damage.

Disclaimer:

Under no circumstances shall the LEEKAI team or its affiliates be liable for any direct, indirect, punitive, incidental, special, consequential, or any other damages (including, without limitation, damages for loss of property or life) arising from or related to the use or misuse of any LEEKAI product. The user or any other person assumes all risks associated with the use of this product. This does not affect your statutory rights.

*The devices shown are for demonstration purposes only and are not included.

*The company reserves the right to change the hardware and software specifications described in this manual at any time without prior notice. The actual product shall prevail.

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution:

Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate the equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 10m between the radiator and your body.
